Date: JAN 15 2008

IN RE: Petitioner: [REDACTED]
Beneficiary: [REDACTED]

PETITION: Immigrant petition for Alien Worker as a Skilled Worker or Professional pursuant to section 203(b)(3) of the Immigration and Nationality Act, 8 U.S.C. § 1153(b)(3)

ON BEHALF OF PETITIONER:

INSTRUCTIONS:

This is the decision of the Administrative Appeals Office in your case. All documents have been returned to the office that originally decided your case. Any further inquiry must be made to that office.

Robert P. Wiemann, Chief
Administrative Appeals Office

DISCUSSION: The Acting Director, Nebraska Service Center, denied the employment-based immigrant visa petition, which is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be dismissed.

The petitioner is an IT software and consulting firm. It seeks to employ the beneficiary permanently in the United States as a software engineer. As required by statute, a Form ETA 750, Application for Alien Employment Certification approved by the Department of Labor (DOL), accompanied the petition. Upon reviewing the petition, the acting director determined that the beneficiary did not satisfy the minimum level of education stated on the labor certification.

The record shows that the appeal was properly and timely filed and makes a specific allegation of error in law or fact. The procedural history of this case is documented in the record and incorporated into the decision. Further elaboration of the procedural history will be made only as necessary. As set forth in the acting director's decision of denial the sole issue in this case is whether or not the petitioner has demonstrated that the beneficiary is qualified for the proffered position pursuant to the terms of the approved labor certification.

Section 203(b)(3)(A)(ii) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1153(b)(3)(A)(ii), provides for granting preference classification to qualified immigrants who hold baccalaureate degrees and are members of the professions.

The labor certification states that the proffered position requires either (1) a master's degree in computer science, information systems, science, or math, and three years of relevant experience, or (2) a bachelor's degree in computer science, information systems, science, or math, and five years of relevant experience. Because of those requirements, the proffered position is a position for a professional. DOL assigned the occupational code of 030.062-010, software engineer, to the proffered position. DOL's occupational codes are assigned based on normalized occupational standards. According to DOL's public online database at <http://online.onetcenter.org/link/summary/15-1031.00> (accessed November 30, 2007) and its extensive description of the position and requirements for the position most analogous to the petitioner's proffered position, the position falls within Job Zone Four requiring "considerable preparation." According to DOL, two to four years of work-related skill, knowledge, or experience is needed for such an occupation. DOL assigns a standard vocational preparation (SVP) range of 7-8 to the occupation, which means "[m]ost of these occupations require a four-year bachelor's degree, but some do not." Additionally, DOL states the following concerning the training and overall experience required for these occupations:

A minimum of two to four years of work-related skill, knowledge, or experience is needed for these occupations. For example, an accountant must complete four years of college and work for several years in accounting to be considered qualified. Employees in these occupations usually need several years of work-related experience, on-the-job training, and/or vocational training.

See id.

The regulation at 8 C.F.R. § 204.5(l)(3)(ii)(C) states the following:

If the petition is for a professional, the petition must be accompanied by evidence that the alien holds a United States baccalaureate degree or a foreign equivalent degree and by evidence that the alien is a member of the professions. Evidence of a baccalaureate degree shall be in the form of an official college or university record showing the date the baccalaureate degree was awarded and the area of concentration of study. To show that the alien is a member of the professions, the petitioner must submit evidence that the minimum of a baccalaureate degree is required for entry into the occupation.

The above regulations use a singular description of foreign equivalent degree. Thus, the plain meaning of the regulatory language concerning the professional classification sets forth the requirement that a beneficiary must produce one degree that is determined to be the foreign equivalent of a U.S. baccalaureate degree in order to be qualified as a professional for third preference visa category purposes.

Authority to Evaluate Whether the Alien is Eligible for the Classification Sought

As noted above, the ETA 750 in this matter is certified by DOL. Thus, at the outset, it is useful to discuss DOL's role in this process. Section 212(a)(5)(A)(i) of the Act provides:

In general.-Any alien who seeks to enter the United States for the purpose of performing skilled or unskilled labor is inadmissible, unless the Secretary of Labor has determined and certified to the Secretary of State and the Attorney General that-

- (I) there are not sufficient workers who are able, willing, qualified (or equally qualified in the case of an alien described in clause (ii)) and available at the time of application for a visa and admission to the United States and at the place where the alien is to perform such skilled or unskilled labor, and
- (II) the employment of such alien will not adversely affect the wages and working conditions of workers in the United States similarly employed.

According to 20 C.F.R. § 656.1(a), the purpose and scope of the regulations regarding labor certification are as follows:

Under § 212(a)(5)(A) of the Immigration and Nationality Act (INA) (8 U.S.C. 1182(a)(5)(A)) certain aliens may not obtain a visa for entrance into the United States in order to engage in permanent employment unless the Secretary of Labor has first certified to the Secretary of State and to the Attorney General that:

- (1) There are not sufficient United States workers, who are able, willing, qualified and available at the time of application for a visa and admission into the United States and at the place where the alien is to perform the work, and
- (2) The employment of the alien will not adversely affect the wages and working conditions of United States workers similarly employed.

It is significant that none of the above inquiries assigned to DOL, or the remaining regulations implementing these duties under 20 C.F.R. § 656, involve a determination as to whether or not the alien is qualified for a

specific immigrant classification or even the job offered. This fact has not gone unnoticed by Federal Circuit Courts.

There is no doubt that the authority to make preference classification decisions rests with INS. The language of section 204 cannot be read otherwise. *See Castaneda-Gonzalez v. INS*, 564 F.2d 417, 429 (D.C. Cir. 1977). In turn, DOL has the authority to make the two determinations listed in section 212(a)(14). *Id.* at 423. The necessary result of these two grants of authority is that section 212(a)(14) determinations are not subject to review by INS absent fraud or willful misrepresentation, but all matters relating to preference classification eligibility not expressly delegated to DOL remain within INS' authority.

* * *

Given the language of the Act, the totality of the legislative history, and the agencies' own interpretations of their duties under the Act, we must conclude that Congress did not intend DOL to have primary authority to make any determinations other than the two stated in section 212(a)(14). If DOL is to analyze alien qualifications, it is for the purpose of "matching" them with those of corresponding United States workers so that it will then be "in a position to meet the requirement of the law," namely the section 212(a)(14) determinations.

Madany v. Smith, 696 F.2d 1008, 1012-1013 (D.C. Cir. 1983).

Based on our reading of 8 C.F.R. § 204.5(l)(3)(ii)(C), this office will not typically consider a combination of two degrees, neither in itself the equivalent of a U.S. bachelor's degree, in determining whether the beneficiary qualifies as a professional pursuant to that regulation. In the instant case, however, this office need not pursue the issue of whether the beneficiary's degrees may be combined to form the equivalent of a bachelor's degree. The Form ETA 750 in this matter states that the proffered position requires either a master's degree or a bachelor's degree in **computer science, information systems, science, or math**. This office will, instead, consider whether the beneficiary meets the job requirements of the proffered job as set forth on the labor certification.

Authority to Evaluate Whether the Alien is Qualified for the Job Offered

For the reasons discussed below, we find that decisions by federal circuit courts, which are binding on this office, have upheld our authority to evaluate whether the beneficiary is qualified for the job offered.

Relying in part on *Madany*, 696 F.2d at 1008, the Ninth circuit stated:

[I]t appears that the DOL is responsible only for determining the availability of suitable American workers for a job and the impact of alien employment upon the domestic labor market. It does not appear that the DOL's role extends to determining if the alien is qualified for the job for which he seeks sixth preference status. That determination appears to be delegated to the INS under section 204(b), 8 U.S.C. § 1154(b), as one of the determinations incident to the INS's decision whether the alien is entitled to sixth preference status.

K.R.K. Irvine, Inc. v. Landon, 699 F.2d 1006, 1008 (9th Cir. 1983). The court relied on an amicus brief from DOL that stated the following:

The labor certification made by the Secretary of Labor ... pursuant to section 212(a)(14) of the ... [Act] ... is binding as to the findings of whether there are able, willing, qualified, and

available United States workers for the job offered to the alien, and whether employment of the alien under the terms set by the employer would adversely affect the wages and working conditions of similarly employed United States workers. *The labor certification in no way indicates that the alien offered the certified job opportunity is qualified (or not qualified) to perform the duties of that job.*

(Emphasis added.) *Id.* at 1009. The Ninth Circuit, citing *K.R.K. Irvine, Inc.*, 699 F.2d at 1006, revisited this issue, stating:

The Department of Labor (“DOL”) must certify that insufficient domestic workers are available to perform the job and that the alien’s performance of the job will not adversely affect the wages and working conditions of similarly employed domestic workers. *Id.* § 212(a)(14), 8 U.S.C. § 1182(a)(14). The INS then makes its own determination of the alien’s entitlement to sixth preference status. *Id.* § 204(b), 8 U.S.C. § 1154(b). *See generally K.R.K. Irvine, Inc. v. Landon*, 699 F.2d 1006, 1008 9th Cir.1983).

The INS, therefore, may make a *de novo* determination of whether the alien is in fact qualified to fill the certified job offer.

Tongatapu Woodcraft Hawaii, Ltd. v. Feldman, 736 F. 2d 1305, 1309 (9th Cir. 1984).

The key to determining the job qualifications is found on Form ETA-750 Part A. This section of the application for alien labor certification, “Offer of Employment,” describes the terms and conditions of the job offered. It is important that the ETA-750 be read as a whole. The instructions for the Form ETA 750A, item 14, provide:

Minimum Education, Training, and Experience Required to Perform the Job Duties. Do not duplicate the time requirements. For example, time required in training should not also be listed in education or experience. Indicate whether months or years are required. Do not include restrictive requirements which are not actual business necessities for performance on the job and which would limit consideration of otherwise qualified U.S. workers.

Regarding the minimum level of education and experience required for the proffered position in this matter, Part A of the labor certification reflects the following requirements:

Block 14:

Education: Master’s Degree or equivalent in computer science, information systems, science or math.

Experience: Three years as a software engineer or three years in software design and development or as a programmer/analyst.

Block 15: “Will accept Bachelor’s Degree or equivalent in Computer Science, Information Systems, Science, or Math plus five years of progressive experience will be considered [sic] as equivalent to Master’s Degree plus three years of experience.”

The approved Form ETA 750 labor certification clearly calls for, in addition to experience, either a bachelor's degree or a master's degree. To determine whether a beneficiary is eligible for a preference immigrant visa, CIS must ascertain whether the alien is, in fact, qualified for the certified job. CIS will not accept a degree equivalency or an unrelated degree when a labor certification plainly and expressly requires a candidate with a specific degree. In evaluating the beneficiary's qualifications, CIS must look to the job offer portion of the labor certification to determine the required qualifications for the position. CIS may not ignore a term of the labor certification, nor may it impose additional requirements. *See Matter of Silver Dragon Chinese Restaurant*, 19 I&N Dec. 401, 406 (Comm. 1986). *See also, Madany*, 696 F.2d at 1008; *K.R.K. Irvine, Inc.*, 699 F.2d at 1006; *Stewart Infra-Red Commissary of Massachusetts, Inc. v. Coomey*, 661 F.2d 1 (1st Cir. 1981).

In the instant case, however, this office will not dwell upon the issue of whether the beneficiary's education and degrees should be considered the equivalent of a U.S. bachelor's degree. The Form ETA 750 labor certification makes clear that the proffered position requires, *inter alia*, a degree in computer science, information systems, science, or math. The evidence shows that the beneficiary has a 3-year bachelor's degree in statistics and five semesters of additional study that culminated in a postgraduate degree in business administration. As the decision of denial observed, even the educational evaluation provided in this matter does not indicate that either of those degrees, or both taken together, is or are the equivalent of any degree in computer science, information systems, science, or math. The record contains no evidence to indicate that the beneficiary has a degree in any of those disciplines. The record does not demonstrate, therefore, that the beneficiary is qualified for the proffered position.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has not met that burden.

ORDER: The appeal is dismissed.
