IN RE: Petitioner: [Redacted]
Beneficiary: [Redacted]

PETITION: Petition for a Nonimmigrant Worker Pursuant to Section 101(a)(15)(H)(i)(b) of the
Immigration and Nationality Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b)

ON BEHALF OF PETITIONER:

INSTRUCTIONS:

This is the decision of the Administrative Appeals Office in your case. All documents have been returned to the office that originally decided your case. Any further inquiry must be made to that office.

Robert P. Wiemann, Director
Administrative Appeals Office

DISCUSSION: The service center director denied the nonimmigrant visa petition and the matter is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be dismissed. The petition will be denied.

The petitioner is a loan brokerage group that seeks to employ the beneficiary as an accountant. The petitioner endeavors to classify the beneficiary as a nonimmigrant worker in a specialty occupation pursuant to section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1101(a)(15)(H)(i)(b).

The director denied the petition because the proffered position is not a specialty occupation. On appeal, counsel submits a brief.

Section 214(i)(1) of the Act, 8 U.S.C. § 1184(i)(1), defines the term "specialty occupation" as an occupation that requires:

- (A) theoretical and practical application of a body of highly specialized knowledge, and
- (B) attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

- (1) A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;
- (2) The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;
- (3) The employer normally requires a degree or its equivalent for the position; or
- (4) The nature of the specific duties is so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

Citizenship and Immigration Services (CIS) interprets the term "degree" in the criteria at 8 C.F.R. § 214.2(h)(4)(iii)(A) to mean not just any baccalaureate or higher degree, but one in a specific specialty that is directly related to the proffered position.

The record of proceeding before the AAO contains: (1) Form I-129 and supporting documentation; (2) the director's request for additional evidence; (3) the petitioner's response to the director's request; (4) the director's denial letter; and (5) Form I-290B and supporting documentation. The AAO reviewed the record in its entirety before issuing its decision.

The petitioner is seeking the beneficiary's services as an accountant. Evidence of the beneficiary's duties includes: the I-129 petition; the petitioner's November 20, 2002 letter in support of the petition; and the petitioner's response to the director's request for evidence. According to this evidence, the beneficiary would perform duties that entail: maintaining responsibility for inspecting items in book of original entry to determine if accepted accounting procedure was followed in recording transactions; verifying journals and ledger entries of cash and check payments, profit and loss statements; making entries into general ledger accounts; documenting business transactions; preparing the petitioner's bi-weekly payroll and commissions, bank reconciliation and quarterly financial statements; auditing and inspecting business accounts; and preparing reports to confirm individual transactions and submitting all documents to management for review. The petitioner indicated that a qualified candidate for the job would possess a bachelor's degree in accounting or a related field.

The director found that the proffered position was not a specialty occupation because it was more like a bookkeeper than an accountant.

On appeal, counsel asserts that the duties of the proffered position are sufficiently complex to establish it as a specialty occupation, and that an accountant is a specialty occupation. Counsel also states that the petitioner's business is complex and requires the services of an accountant rather than a bookkeeper. The AAO agrees that an accountant is generally considered to be a specialty occupation. The issue to be resolved is whether the proffered position is actually that of an accountant.

Upon review of the record, the petitioner has established none of the four criteria outlined in 8 C.F.R. § 214.2(h)(4)(iii)(A). Therefore, the proffered position is not a specialty occupation.

The AAO turns first to the criteria at 8 C.F.R. § 214.2(h)(4)(iii)(A)(1) and (2): a baccalaureate or higher degree or its equivalent is the normal minimum requirement for entry into the particular position; a degree requirement is common to the industry in parallel positions among similar organizations; or a particular position is so complex or unique that it can be performed only by an individual with a degree.

Factors often considered by CIS when determining these criteria include: whether the Department of Labor's *Occupational Outlook Handbook (Handbook)* reports that the industry requires a degree; whether the industry's professional association has made a degree a minimum entry requirement; and whether letters or affidavits from firms or individuals in the industry attest that such firms "routinely employ and recruit only degreed individuals." *See Shanti, Inc. v. Reno*, 36 F. Supp. 2d 1151, 1165 (D. Minn. 1999) (quoting *Hird/Blaker Corp. v. Sava*, 712 F. Supp. 1095, 1102 (S.D.N.Y. 1989)).

The AAO routinely consults the *Handbook* for its information about the duties and educational requirements of particular occupations. Counsel states that the duties of the proffered position must be performed by an accountant. The *Handbook* indicates that the proffered position's duties do not rise to the level of an accountant. The *Handbook* states that specific job duties vary widely among the four major fields of accounting: public, management, government, and internal. The closest category to the proffered position is the management accountant. In the *Handbook*, management accountants — also called cost, managerial, industrial, corporate, or private accountants — record and analyze the financial information of the companies

for which they work. Other responsibilities include budgeting, performance evaluation, and cost and asset management. Usually, management accountants are part of executive teams involved in strategic planning or new product development. They analyze and interpret the financial information that corporate executives need to make sound business decisions. They also prepare financial reports for nonmanagement groups, including stockholders, creditors, regulatory agencies, and tax authorities. Within accounting departments, they may work in various areas, including financial analysis, planning and budgeting, and cost accounting.

Some of the duties described in the *Handbook* do not apply to the proffered position. According to the *Handbook*, accountants prepare financial reports for nonmanagement groups, including stockholders, creditors, regulatory agencies, and tax authorities, and usually, they are part of executive teams. The beneficiary will not be part of an executive team. Nor will the beneficiary prepare financial reports for nonmanagement groups such as stockholders, creditors, regulatory agencies, and tax authorities. Given this significant dissimilarity, the scope and complexity of the beneficiary's duties and responsibilities do not rise to the level of an accountant. Consequently, a bachelor's degree in accounting or a related field – which the DOL states is required for a management accountant – would not be required for the proffered position.

The *Handbook* further states:

Accountants and auditors held about 1.1 million jobs in 2002. They worked throughout private industry and government, but 1 out of 5 wage and salary accountants worked for accounting, tax preparation, bookkeeping, and payroll services firms. Approximately 1 out of 10 accountants or auditors were self-employed.

Many accountants and auditors are unlicensed management accountants, internal auditors, or government accountants and auditors; however, a large number are licensed Certified Public Accountants. Most accountants and auditors work in urban areas, where public accounting firms and central or regional offices of businesses are concentrated.

The petitioner, a loan brokerage group, states that it employs seven persons, and earns a gross annual income of \$500,000; no documentation of record supports the petitioner's financial information or status as an employer. Going on record without supporting documentary evidence is not sufficient for purposes of meeting the burden of proof in these proceedings. *Matter of Soffici*, 22 I&N Dec. 158, 165 (Comm. 1998) (citing *Matter of Treasure Craft of California*, 14 I&N Dec. 190 (Reg. Comm. 1972)). As the *Handbook* shows, many accountants and auditors worked for accounting, tax preparation, bookkeeping, and payroll services firms or were self-employed. The level of income generated by the petitioner has a direct and substantial bearing on the scope and depth of the beneficiary's proposed duties. Responsibility for income of only \$500,000 differs vastly from responsibility associated with a far larger income or from a firm that is responsible for the accounting work of many clients. Consequently, the petitioner fails to establish that a baccalaureate or higher degree or its equivalent is the normal minimum requirement for entry into the particular position.

A review of the *Handbook* indicates that the director properly determined that many the beneficiary's duties are performed by bookkeeping, accounting, auditing and financial clerks:

Bookkeeping, accounting, and auditing clerks are an organization's financial recordkeepers. They update and maintain one or more accounting records, including those that tabulate expenditures, receipts, accounts payable and receivable, and profit and loss. . . . post debits and credits, produce financial statements, and prepare reports and summaries for supervisors and managers. . . . handle the payroll, make purchases, prepare invoices, and keep track of overdue accounts.

More advanced accounting clerks may total, balance, and reconcile billing vouchers; ensure completeness and accuracy of data on account. . . . They may also review invoices and statements to ensure that all information is accurate and complete. . . . Auditing clerks verify records of transactions posted by other workers.

Financial clerks . . . record all amounts coming into or leaving an organization . . . keep track of a store's inventory. . . .

Auditing clerks verify records of transactions posted by other workers. They check figures, postings, and documents to ensure that they are correct, mathematically accurate, and properly coded.

The petitioner stated that the beneficiary will maintain responsibility for inspecting items in book of original entry to determine if accepted accounting procedure was followed in recording transactions; verifying journals and ledger entries of cash and check payments, profit and loss statements; making entries into general ledger accounts; documenting business transactions; preparing the petitioner's bi-weekly payroll and commissions, bank reconciliation and quarterly financial statements; auditing and inspecting business accounts; preparing reports to confirm individual transactions; and submitting all documents to management for review. Such duties are performed by bookkeeping, accounting, and auditing clerks who update and maintain accounting records that tabulate profit and loss reports, handle accounts payable and receivable, prepare invoices, verify records of transactions, produce financial statements, prepare reports and summaries for supervisors and managers, and handle the payroll. The *Handbook* states that employers require most financial clerks to have at least a high school diploma, and for bookkeepers and accounting clerks, they often require an associate's degree in business or accounting.¹ Accordingly, the petitioner cannot establish 8 C.F.R. § 214.2(h)(4)(iii)(A)(I).

¹ According to the website for Skyline College, a community college located in San Mateo, California, (www.skylinecollege.net), an associate's degree in business or accounting would involve learning the fundamentals about financial accounting principles and concepts, balance sheets, income statements, cash flow statements, forecasting, budgeting, cost accounting, break even analysis, developing and operating a computerized accounting system using tools such as QuickBooks, QuickBooks Pro, or Peachtree, an integrated commercial accounting software package that is used to review, differentiate, and interpret accounting concepts and data in a multitude of business situations. Thus, an associate's degree would provide knowledge about accounting techniques that serve the needs of management and facilitate decision-making.

There is no evidence in the record regarding parallel positions in the petitioner's industry. The record also does not include any evidence from professional associations regarding an industry standard, or documentation to support the complexity or uniqueness of the proffered position. The petitioner has, thus, not established the criteria set forth at 8 C.F.R. § 214.2(h)(4)(iii)(A)(2).

The AAO now turns to the criterion at 8 C.F.R. § 214.2(h)(4)(iii)(A)(3) – the employer normally requires a degree or its equivalent for the position. The record does not contain any evidence of the petitioner's past hiring practices and therefore, the petitioner has not met its burden of proof in this regard.

Finally, the AAO turns to the criterion at 8 C.F.R. § 214.2(h)(4)(iii)(A)(4) – the nature of the specific duties is so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

To the extent that they are depicted in the record, the duties do not appear so specialized and complex as to require the highly specialized knowledge associated with a baccalaureate or higher degree, or its equivalent, in a specific specialty. The evidence does not establish that the proffered position is a specialty occupation under 8 C.F.R. § 214.2(h)(4)(iii)(A)(4).

An H-1B alien is coming temporarily to the United States to perform services in a specialty occupation. Section 101(a)(15)(H)(i)(b) of the Act, 8 U.S.C. § 101(a)(15)(H)(i)(b). 8 C.F.R. § 214.2(h)(1)(ii)(B). In this case, the petitioning entity states that it is a loan brokerage group with seven employees that has a gross annual income of \$500,000. The petitioner claims that it will employ the beneficiary as a part-time accountant, but it has not proved that the beneficiary will be coming to the United States to perform services as an accountant.

As related in the discussion above, the petitioner has failed to establish that the proffered position is a specialty occupation. Accordingly, the AAO shall not disturb the director's denial of the petition.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has not sustained that burden.

ORDER: The appeal is dismissed. The petition is denied.
