FOR THE ASSOCIATE COMMISSIONER,
EXAMINATIONS

Robert P. Wiemann
Robert P. Wiemann, Acting Director
Administrative Appeals Office

DISCUSSION: The nonimmigrant visa petition was denied by the director and is now before the Associate Commissioner, Examinations, on appeal. The appeal will be dismissed.

The petitioner is a computer consulting firm. It seeks to employ the beneficiary as a programmer/analyst for a period of three years. The director determined the petitioner had not established that the beneficiary qualifies to perform services in a specialty occupation.

On appeal, counsel argues that the offered position is a specialty occupation and the beneficiary is qualified to perform the duties of a specialty occupation.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(B), the petitioner shall submit the following with an H-1B petition involving a specialty occupation:

1. A certification from the Secretary of Labor that the petitioner has filed a labor condition application with the Secretary,
2. A statement that it will comply with the terms of the labor condition application for the duration of the alien's authorized period of stay, and
3. Evidence that the alien qualifies to perform services in the specialty occupation.

The petitioner has provided a certified labor condition application and a statement that it will comply with the terms of the labor condition application.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The beneficiary attained a Diploma in Computer Technology from the Board of Technical Examinations of Maharashtra State in 1993 in India. An educational evaluation provided for the record indicates that this degree is the equivalent of an associate's degree in computer technology from an accredited community college in the United States. The petitioner has provided a second evaluation which states that the beneficiary's combined foreign education and work experience is equivalent to a four-year Bachelor of Arts degree in computer information systems in the United States. Where evaluations are not in accord with previous equivalencies or are in any way questionable, they may be rejected or given less weight. See Matter of SEA, Inc., 19 I&N Dec. 317 (Comm. 1988).

For the purpose of determining equivalency to a baccalaureate degree in a field related to the job offered in this case, three years of specialized training and/or work experience must be demonstrated for each year of college-level training that the alien lacks. Here, the beneficiary needs six years of experience in the specialty occupation to qualify.

The record shows that the beneficiary had been employed as a systems analyst for two companies from September 1993 to September 1998. This visa petition was filed on February 25, 1999. It is determined that at the time the petition was filed, the beneficiary had attained less than the necessary six years of qualifying experience in the field of computer science. Therefore, the visa petition may not be approved. See: 8 C.F.R. 214.2(h)(4)(iii)(D)(5).

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act. 8 U.S.C. 1361. The petitioner has not sustained that burden.

ORDER: The appeal is dismissed.
