Any motion must be filed with the office which originally decided your case along with a fee of \$110 as required under 8 C.F.R. 103.7.

FOR THE ASSOCIATE COMMISSIONER,
EXAMINATIONS

Robert P. Wiemann, Acting Director
Administrative Appeals Office

DISCUSSION: The nonimmigrant visa petition was denied by the director and is now before the Associate Commissioner for Examinations on appeal. The appeal will be dismissed.

The petitioner is a medical clinic with eight employees and an approximate gross annual income of \$350,000. It seeks to employ the beneficiary as a medical researcher for a period of three years. The director determined the petitioner had not demonstrated that the beneficiary qualifies to perform services in a specialty occupation.

On appeal, counsel submits a brief.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

The director denied the petition because the petitioner had not established that the beneficiary possesses the required evidence of licensure to practice patient care in the State of California. On appeal, counsel states in part that the beneficiary's proposed duties include conducting research under the supervision of a medical doctor. Counsel also states that the beneficiary would not be involved in performing hands-on patient care.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;

2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;

3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or

4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The record indicates that the beneficiary holds baccalaureate degrees in health science and medicine and surgery conferred by a Nigerian institution. The record, however, does not contain an evaluation of the beneficiary's credentials from a service which specializes in evaluating foreign educational credentials as required by 8 C.F.R. 214.2(h)(4)(iii)(D)(3). In view of the foregoing, it is concluded that the petitioner has not demonstrated that the beneficiary is qualified to perform services in a specialty occupation.

Beyond the decision of the director, the record contains insufficient evidence to demonstrate that the proffered position is a specialty occupation. As this matter will be dismissed on the grounds discussed, this issue need not be examined further.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has not sustained that burden. Accordingly, the decision of the director will not be disturbed.

ORDER: The appeal is dismissed.
