**DISCUSSION:** The nonimmigrant visa petition was denied by the director, Texas Service Center, and is now before the Associate Commissioner for Examinations on appeal. The appeal will be dismissed.

The petitioner seeks to employ the beneficiary as a secondary school teacher for a period of one year. The director requested that the petitioner submit evidence to establish that the beneficiary holds a valid, unrestricted license to teach in the State of Texas. The director determined the petitioner had not established that the beneficiary qualifies for the offered position.

On appeal, counsel states that the beneficiary is in a program that will lead to licensure. Counsel argues that a combination of the beneficiary's Master's Degree and his restricted license combined qualifies him as someone performing services in a specialty occupation. Although counsel indicated on the form I-129B that a brief or evidence would be sent to the Administrative Appeals Office (AAO) within 30 days, as of this date, no additional evidence or argument in rebuttal have been received into the record. Therefore, the record is considered complete.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(B), the petitioner shall submit the following with an H-1B petition involving a specialty occupation:

1. A certification from the Secretary of Labor that the petitioner has filed a labor condition application with the Secretary,

2. A statement that it will comply with the terms of the labor condition application for the duration of the alien's authorized period of stay, and

3. Evidence that the alien qualifies to perform services in the specialty occupation.

The petitioner has provided a certified labor condition application and a statement that it will comply with the terms of the labor condition application.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;

2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;

3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or

4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The beneficiary attained a Master of Engineering degree in 1997 from Lamar University in Texas. However, the record does not establish that he holds an unrestricted State license, registration, or certification which authorizes him to fully practice the specialty occupation of secondary school teacher and be immediately engaged in that specialty in Texas, the state of intended employment. Counsel's claim that the beneficiary's master's degree and enrollment in a program to obtain licensure are sufficient to overcome his lack of a state teaching license is unpersuasive. Accordingly, it is concluded that the beneficiary does not qualify to perform the duties of the offered position.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act. 8 U.S.C. 1361. The petitioner has not sustained that burden.

**ORDER:** The appeal is dismissed.
