**DISCUSSION:** The nonimmigrant visa petition was denied by the Director, California Service Center, and is now before the Associate Commissioner for Examinations on appeal. The appeal will be dismissed.

The petitioner is a privately owned school which seeks to employ the beneficiary as a preschool teacher for a three-year period. The director determined the petitioner had not established that the offered position is a specialty occupation.

On appeal, counsel states that there is a difference in the teaching level that a child would receive in a day-care center and the teaching level which is offered at the Burlington School. Counsel further states that the Department of Labor's Occupational Outlook Handbook indicates that most public schools require their "Pre-School Teachers" to have bachelor's degrees.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(B), the petitioner shall submit the following with an H-1B petition involving a specialty occupation:

1. A certification from the Secretary of Labor that the petitioner has filed a labor condition application with the Secretary,
2. A statement that it will comply with the terms of the labor condition application for the duration of the alien's authorized period of stay, and

3. Evidence that the alien qualifies to perform services in the specialty occupation.

The petitioner has provided a certified labor condition application and a statement that it will comply with the terms of the labor condition application.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The beneficiary was awarded a Bachelor of Elementary Education degree from West Visayas State University in 1990 in the Philippines. The beneficiary also has attained teaching experience as a pre-school, elementary and high school teacher abroad. It is determined that the beneficiary qualifies for the offered position.

The term "specialty occupation" is defined at 8 C.F.R. 214.2(h)(4)(ii) as:

an occupation which requires theoretical and practical application of a body of highly specialized knowledge in such of human endeavor including, but not limited to, architecture, engineering, mathematics, physical sciences, social sciences, medicine and health, education, business specialties, accounting, law, theology, and the arts, and which requires the attainment of a bachelor's degree or higher in a specific specialty,

or its equivalent, as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. 214.2(h) (4) (iii) (A), to qualify as a specialty occupation, the position must meet one of the following criteria:

1. A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;
2. The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;
3. The employer normally requires a degree or its equivalent for the position; or
4. The nature of the specific duties is so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

The duties of the offered position are listed as:

- 1) Instructs children in activities designed to promote social, physical, and intellectual growth needed for primary school, day care center or other child development facility.
- 2) Plans individual or group activities to stimulate growth in language, social and motor skills.
- 3) Teach children to listen to instructions, playing with others and using play equipment.
- 4) Encourages children in singing, dancing, and rhythmic activities.
- 5) Maintains order in classroom and on playground.

The petitioner has failed to establish that any of the four factors enumerated above are present in this proceeding. The petitioner has not shown that it has, in the past, required the services of individuals with baccalaureate or higher degrees in a specialized area for the offered position. In addition, the petitioner has not shown that similar firms require the services of such individuals in parallel positions.

The Department of Labor's Occupational Outlook Handbook, 2000-2001 edition, at pages 354-355 finds no requirement of a baccalaureate or higher degree in a specialized area for employment as a preschool teacher or child care worker. Some preschool teachers hold baccalaureate or higher degrees while others hold associate (two-year) degrees or high school diplomas. In view of the foregoing, it is concluded that the petitioner has not demonstrated that the offered position is a specialty occupation within the meaning of regulations.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has not sustained that burden.

**ORDER:** The appeal is dismissed.
