FOR THE ASSOCIATE COMMISSIONER,
EXAMINATIONS

Robert P. Wiemann, Acting Director
Administrative Appeals Office

DISCUSSION: The nonimmigrant visa petition was denied by the director and is now before the Associate Commissioner for Examinations on appeal. The appeal will be dismissed.

The petitioner is a computer sales and repair business with 18 employees and a gross annual income of \$1,029,497. It seeks to employ the beneficiary as a computer technician for a period of three years. The director determined the petitioner had not established that the proffered position is a specialty occupation.

On appeal, counsel submits a brief.

The term "specialty occupation" is defined at 8 C.F.R. 214.2(h)(4)(ii) as:

an occupation which requires theoretical and practical application of a body of highly specialized knowledge in fields of human endeavor including, but not limited to, architecture, engineering, mathematics, physical sciences, social sciences, medicine and health, education, business specialties, accounting, law, theology, and the arts, and which requires the attainment of a bachelor's degree or higher in a specific specialty, or its equivalent, as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

1. A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;
2. The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;
3. The employer normally requires a degree or its equivalent for the position; or
4. The nature of the specific duties is so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.
