FOR THE ASSOCIATE COMMISSIONER,  
EXAMINATIONS

Robert P. Wiemann, Acting Director  
Administrative Appeals Office

**DISCUSSION:** The nonimmigrant visa petition was denied by the director and is now before the Associate Commissioner for Examinations on appeal. The appeal will be sustained and the petition will be approved.

The petitioner is a software development firm with four employees and an unspecified gross annual income. It seeks to employ the beneficiary as its research and development manager for a period of three years. The director determined the petitioner had not established that the beneficiary is qualified to perform services in a specialty occupation.

On appeal, counsel argues that the proffered position is a specialty occupation and the beneficiary is qualified to perform the duties of a specialty occupation.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(B), the petitioner shall submit the following with an H-1B petition involving a specialty occupation:

1. A certification from the Secretary of Labor that the petitioner has filed a labor condition application with the Secretary,
2. A statement that it will comply with the terms of the labor condition application for the duration of the alien's authorized period of stay, and

3. Evidence that the alien qualifies to perform services in the specialty occupation.

The petitioner has provided a certified labor condition application and a statement that it will comply with the terms of the labor condition application.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The proffered position appears to be a specialty occupation. The beneficiary does not hold a baccalaureate degree in any field of study. The record contains no evidence that the beneficiary ever attended a college, university, or comparable institution of learning. Accordingly, it is concluded that the petitioner has not demonstrated that the beneficiary qualifies to perform services in a specialty occupation based upon education alone.

The petitioner has provided an evaluation of the beneficiary's thirteen years of employment experience by a credentials evaluation service which states that the beneficiary's experience is equivalent to a bachelor's degree in computer information systems conferred by a United States institution. This Service uses an independent evaluation of a person's foreign credentials in terms of education in the United States as an advisory opinion only. Where an evaluation is not in accord with previous equivalencies or is in any way questionable, it may be rejected or given less weight. See Matter of SEA, Inc., 19 I&N Dec. 817 (Comm. 1988).

Here, the evaluation of the beneficiary's foreign credentials is based on experience alone. However, the evaluator has made use of a review of the beneficiary's experience by an academic expert authorized to grant college-level credit who finds the beneficiary's experience equivalent to a baccalaureate degree in a specialized and related area. The academic expert describes the beneficiary as "an important designer of cable modems and associated software." While not explicitly mentioned by the expert, the beneficiary is the designer of the petitioner's principal product. In view of the foregoing, the evaluation is found to be reasonable and will be accepted. Accordingly, it is concluded that the beneficiary is qualified to perform services in a specialty occupation.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has sustained that burden. Accordingly, the appeal will be sustained and the petition is approved.

**ORDER:** The appeal is sustained. The director's decision is withdrawn and the petition is approved.
