FOR THE ASSOCIATE COMMISSIONER,
EXAMINATIONS

Robert P. Wiemann, Director
Administrative Appeals Office

DISCUSSION: The nonimmigrant visa petition was denied by the director and is now before the Associate Commissioner for Examinations on appeal. The appeal will be dismissed.

The petitioner is a cheese manufacturer with ten employees and a gross annual income of \$1,100,000. It seeks to employ the beneficiary as a production manager for a period of three years. The director determined the petitioner had not established that the beneficiary is qualified to perform the duties of a specialty occupation. The director further found that the petitioner had not submitted a properly completed labor condition application.

On appeal, counsel submits a brief.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

The director denied the petition because the beneficiary does not hold a baccalaureate degree or an equivalent thereof, nor has he been issued an unrestricted State license, registration or certification authorizing him to fully practice the specialty occupation. On appeal, counsel submits a complete labor condition application. Counsel also states, in part, that a review of the Department of Labor's (DOL) Dictionary of Occupational Titles (DOT) and Occupational Outlook Handbook (Handbook) finds that the proffered position normally requires a baccalaureate degree for the proffered position. Counsel further states that the record contains an expert opinion as support documentation. Counsel additionally states that the director has previously determined that a production manager position is a specialty occupation.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(B), the petitioner shall submit the following with an H-1B petition involving a specialty occupation:

1. A certification from the Secretary of Labor that the petitioner has filed a labor condition application with the Secretary,
2. A statement that it will comply with the terms of the labor condition application for the duration of the alien's authorized period of stay,
3. Evidence that the alien qualifies to perform services in the specialty occupation . . .

The petitioner has provided a certified labor condition application. Nevertheless, that application was certified on July 23, 2001, a date subsequent to December 29, 2000, the filing date of the visa petition. Regulations at 8 C.F.R. 214.2(h)(4)(i)(B)(1) provide that before filing a petition for H-1B classification in a specialty occupation, the petitioner shall obtain a certification from the Department of Labor that it has filed a labor condition application. Since this has not occurred, it is concluded that the petition may not be approved.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The beneficiary holds a graduation certificate conferred by a Greek institution. The record, however, does not contain an evaluation of the beneficiary's credentials from a service which specializes in evaluating foreign educational credentials as required by 8 C.F.R. 214.2(h)(4)(iii)(D)(3). The record also contains an opinion from an academic expert who states, in part, that the beneficiary's professional training and work experience qualifies him for the position of production manager. The writer, however, does not state that the beneficiary holds the equivalent of a baccalaureate degree in a specific specialty, nor does the record demonstrate that the writer is an official who has authority to grant college-level credit for training and/or experience in the specialty at an accredited college or university which has a program for granting such credit based on an individual's training and/or work experience, as required by 8 C.F.R. 214.2(h)(4)(iii)(D)(1). Accordingly, the evaluation is accorded little weight.

The beneficiary is not a member of any organizations whose usual prerequisite for entry is a baccalaureate degree in a specific specialty. The record contains no evidence that the beneficiary holds a state license, registration, or certification that authorizes him to practice a specialty occupation. In view of the foregoing, it is concluded that the petitioner has not demonstrated that the beneficiary is qualified to perform services in a specialty occupation.

With respect to counsel's objection to denial of this petition in view of the approval of a similar petition in the past, the Associate Commissioner, through the Administrative Appeals Office, is not bound to follow the contradictory decision of a service center. Louisiana Philharmonic Orchestra v. INS, 2000 WL 282785 (E.D.La. 2000), aff'd, 248 F.3d 1139 (5th Cir. 2001), cert. denied, 122 S. Ct.51 (U.S. 2001).

Beyond the decision of the director, the record contains insufficient evidence to demonstrate that the proffered position is a specialty occupation. As this matter will be dismissed on the grounds discussed, this issue need not be examined further.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has not sustained that burden. Accordingly, the decision of the director will not be disturbed.

ORDER: The appeal is dismissed.
