FOR THE ASSOCIATE COMMISSIONER,  
EXAMINATIONS

Robert P. Wiemann, Director  
Administrative Appeals Office

**DISCUSSION:** The nonimmigrant visa petition was denied by the Director, Vermont Service Center. A subsequent appeal was dismissed by the Associate Commissioner for Examinations. The matter is now before the Associate Commissioner for Examinations on a motion to reopen and reconsider. The motion will be granted. The previous decision of the Associate Commissioner will be affirmed.

The petitioner is a rehabilitation agency with 19 employees and a gross annual income of \$1,400,000. It seeks to employ the beneficiary as an occupational therapist for a period of two years. The director determined the petitioner had not established that the beneficiary is qualified to perform the duties of a specialty occupation.

On appeal, the petitioner had provided additional information in support of the appeal.

The Associate Commissioner dismissed the appeal reasoning that the petitioner had not provided evidence that the beneficiary is licensed to practice occupational therapy in the State of New Jersey.

On motion, the petitioner submits evidence that the beneficiary is now licensed to practice occupational therapy in the State of New Jersey.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to

practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Furthermore, in Matter of St. Joseph's Hospital, 14 I&N Dec. 202 (Reg. Comm. 1972), the regional commissioner found that, in these proceedings, it must be established that the alien will be able to engage in his profession immediately in the United States.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The beneficiary holds a baccalaureate degree in occupational therapy conferred by a South African institution. The record also demonstrates that the beneficiary has been certified as an "Occupational Therapist Registered OTR" by the National Board for Certification in Occupational Therapy. The record additionally contains evidence that the beneficiary now holds a license to practice occupational therapy in the State of New Jersey, valid from October 1, 2001 through September 30, 2003. 8 C.F.R. 103.2(b)(12) states that an application or petition shall be denied where evidence submitted in response to a request for initial evidence does not establish filing eligibility at the time the application or petition was filed. The beneficiary's license to practice occupational therapy in the State of New Jersey, is noted.

The record, however, does not demonstrate that at the time of the filing of the instant petition on August 21, 2000, the beneficiary held the required State licensure. For this reason, the petition may not be approved.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has not sustained that burden. Accordingly, the decision of the director will not be disturbed.

**ORDER:** The decision of the Associate Commissioner dated January 22, 2002, is affirmed.
