FOR THE ASSOCIATE COMMISSIONER,  
EXAMINATIONS

Robert P. Wiemann, Director  
Administrative Appeals Office

**DISCUSSION:** The nonimmigrant visa petition was denied by the Director, California Service Center, and is now before the Associate Commissioner for Examinations on appeal. The appeal will be sustained.

The petitioner is a private school which seeks to employ the beneficiary as a kindergarten teacher for a three-year period. The director determined the petitioner had not established that the job offered qualifies as a specialty occupation.

On appeal, counsel states the offered position is for a kindergarten teacher and not for a nursery school teacher as indicated in the director's order. Counsel requests that the petition be approved.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The beneficiary received a Bachelor of Science degree in Elementary Education in 1971 from the Philippine Normal College in Manila, Philippines. She also accrued 24 units toward a Master of Arts degree in Education with a specialization in Library Science from the same college. The record shows that she has worked for many years as a teacher beginning in 1973. Therefore, the petitioner has shown that the beneficiary qualifies to perform the duties of the offered position.

The term "specialty occupation" is defined at 8 C.F.R. 214.2(h)(4)(ii) as:

an occupation which requires theoretical and practical application of a body of highly specialized knowledge to fully perform the occupation in such fields of human endeavor, including, but not limited to, architecture, engineering, mathematics, physical sciences, social sciences, medicine and health, education, business specialties, accounting, law, theology, and the arts, and which requires the attainment of a bachelor's degree or higher in a specific specialty, or its equivalent, as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

1. A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;
2. The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;
3. The employer normally requires a degree or its equivalent for the position; or
4. The nature of the specific duties is so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

The duties of the offered position are listed as:

Our teachers lecture and demonstrate to an entire class also provide individual attention as much as possible. Our kindergarten teachers' duties include teaching math, language arts, writing, science and social studies to

children 4 to 6 years old. Teachers use games, music art work, films, slides and computers to teach basic skills. They assign lessons, give tests, hear oral presentations, grade reports, and oversee special projects. They maintain order in the classroom and instill good study habits and an appreciation for learning.

Further, our teachers observe and evaluate students performance and potential, keep track of their social development and health, and discuss problems of progress with parents. They may also counsel pupils with academic or personal problems.

The beneficiary will teach kindergarten students on a full-time basis. The offered position is that of a school teacher. Accordingly, it is concluded that the petitioner has demonstrated that the offered position is a specialty occupation within the meaning of the regulations.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has sustained that burden.

**ORDER:** The appeal is sustained.
