FOR THE ASSOCIATE COMMISSIONER,  
EXAMINATIONS

*Robert P. Wiemann*

Robert P. Wiemann, Director  
Administrative Appeals Office

**DISCUSSION:** The nonimmigrant visa petition was denied by the Director, Vermont Service Center, and is now before the Associate Commissioner for Examinations on appeal. The appeal will be sustained.

The petitioner is a software development and software maintenance firm which seeks to employ the beneficiary as a programmer/analyst for a period of three years. The director found that the petitioner had not established that the beneficiary qualifies for the offered position.

On appeal, counsel emphasizes the beneficiary's educational background and work history. Counsel states that the beneficiary is qualified for the offered position.

Section 101(a) (15) (H) (i) (b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a) (15) (H) (i) (b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i) (1) of the Act, 8 U.S.C. 1184(i) (1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i) (2) of the Act, 8 U.S.C. 1184(i) (2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. 214.2(h) (4) (iii) (C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully

practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or

4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The beneficiary earned a Bachelor of Technology in Mechanical Engineering and completed the requirements for a "minor area specialization in computer science" from the Indian Institute of Technology Delhi in 1999 in the Republic of India. The beneficiary's foreign education has been found by a credentials evaluation service to be equivalent to a bachelor of science degree in engineering from an accredited institution of higher education in the United States. The evaluation appears reasonable and will be accepted. Accordingly, it is concluded that the petitioner has shown that the beneficiary qualifies to perform the duties of the offered position on the basis of education alone.

The record also shows that the beneficiary served as a software engineer with a firm named [REDACTED] in India beginning in June 1999.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act. 8 U.S.C. 1361. The petitioner has sustained that burden.

**ORDER:** The appeal is sustained.
