FOR THE ASSOCIATE COMMISSIONER,  
EXAMINATIONS

Robert P. Wiemann, Director  
Administrative Appeals Office

**DISCUSSION:** The nonimmigrant visa petition was denied by the director and is now before the Associate Commissioner for Examinations on appeal. The appeal will be dismissed.

The petitioner is a professional staffing service for healthcare professions with two employees and an approximate gross annual income of \$648,900. It seeks to employ the beneficiary as a physical therapist for a period of two years. The director determined the petitioner had not established that the beneficiary is qualified to perform the duties of a specialty occupation.

On appeal, counsel submits additional information.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

The director denied the petition because the petitioner had not submitted evidence that the beneficiary is licensed to practice the profession of physical therapy in the State of New Jersey. The director further found that the record did not contain evidence that the beneficiary has an employer in the State of New Jersey nor a supervision form signed by a physical therapist licensed to practice in the State of New Jersey. On appeal, counsel submits an "Initial Verification of Supervision Form" and a temporary staffing agreement between the petitioner and Advanced Center for Injury & Wellness Care, LLC.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The beneficiary holds a bachelor of science degree in physical therapy conferred by an institution in the Philippines. A credentials evaluation service found the beneficiary's foreign education equivalent to a bachelor's degree in physical therapy awarded by an accredited college or university in the United States. A review of the Department of Labor's Occupational Outlook Handbook, 2000-2001 edition, at page 206, finds that all states require physical therapists to pass a licensure exam after graduating from an accredited physical therapist educational program before they can practice. Although the record now contains an "Initial Verification of Supervision Form" as required by the State of New Jersey, the record contains no evidence that the beneficiary is licensed to practice the profession of physical therapy in the State of New Jersey. It is noted that 8 C.F.R. 103.2(b)(12) states that an application or petition shall be denied where evidence submitted in response to a request for initial evidence does not establish filing eligibility at the time the application or petition was filed. In view of the foregoing, it is concluded that the petitioner has not demonstrated that the beneficiary is qualified to perform services in a specialty occupation.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has not sustained that burden. Accordingly, the decision of the director will not be disturbed.

**ORDER:** The appeal is dismissed.
