ADMINISTRATIVE APPEALS OFFICE  
425 Eye Street, N.W.  
BCIS, AAO, 20 Mass, 3/F  
Washington, D. C. 20536

SEP 10 2003

File: SRC-01-261-53021

Office: TEXAS SERVICE CENTER

Date:

IN RE: Petitioner:  
Beneficiary:

PETITION: Petition for a Nonimmigrant Worker Pursuant to Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b)

ON BEHALF OF PETITIONER: SELF-REPRESENTED

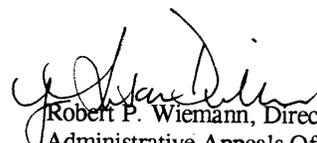

**INSTRUCTIONS:**

This is the decision in your case. All documents have been returned to the office that originally decided your case. Any further inquiry must be made to that office.

If you believe the law was inappropriately applied or the analysis used in reaching the decision was inconsistent with the information provided or with precedent decisions, you may file a motion to reconsider. Such a motion must state the reasons for reconsideration and be supported by any pertinent precedent decisions. Any motion to reconsider must be filed within 30 days of the decision that the motion seeks to reconsider, as required under 8 C.F.R. § 103.5(a)(1)(i).

If you have new or additional information that you wish to have considered, you may file a motion to reopen. Such a motion must state the new facts to be proved at the reopened proceeding and be supported by affidavits or other documentary evidence. Any motion to reopen must be filed within 30 days of the decision that the motion seeks to reopen, except that failure to file before this period expires may be excused in the discretion of the Bureau of Citizenship and Immigration Services (Bureau) where it is demonstrated that the delay was reasonable and beyond the control of the applicant or petitioner. *Id.*

Any motion must be filed with the office that originally decided your case along with a fee of \$110 as required under 8 C.F.R. § 103.7.

  
Robert P. Wiemann, Director  
Administrative Appeals Office

**DISCUSSION:** The nonimmigrant visa petition was denied by the director and is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be dismissed.

The petitioner is a data warehousing and database marketing and consulting business with two employees and an unspecified gross annual income. It seeks to employ the beneficiary as a systems analyst for a period of three years. The director determined the petitioner had not established that the beneficiary is qualified to perform the duties of a specialty occupation.

On appeal, the petitioner submits a brief.

Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1101(a)(15)(H)(i)(b), provides in part for nonimmigrant classification to qualified aliens who are coming temporarily to the United States to perform services in a specialty occupation. Section 214(i)(1) of the Act, 8 U.S.C. § 1184(i)(1), defines a "specialty occupation" as an occupation that requires theoretical and practical application of a body of highly specialized knowledge, and attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to section 214(i)(2) of the Act, 8 U.S.C. § 1184(i)(2), to qualify as an alien coming to perform services in a specialty occupation the beneficiary must hold full state licensure to practice in the occupation, if such licensure is required to practice in the occupation. In addition, the beneficiary must have completed the degree required for the occupation, or have experience in the specialty equivalent to the completion of such degree and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

The director denied the petition because the petitioner had not demonstrated that the beneficiary's educational background and/or work experience qualify him to perform the duties of a specialty occupation. On appeal, the petitioner states, in part, that the beneficiary's educational background and work experience qualify him to perform the duties of a specialty occupation. He further states that the Bureau has approved similar petitions in the past.

Pursuant to 8 C.F.R. 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

1. Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
2. Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
3. Hold an unrestricted State license, registration, or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
4. Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(D), for purposes of paragraph (h)(4)(iii)(C)(4) of this section, equivalence to completion of a United States baccalaureate or higher degree shall mean achievement of a level of knowledge, competence, and practice in the specialty occupation that has been determined to be equal to that of an individual who has a baccalaureate or higher degree in the specialty and shall be determined by one or more of the following:

- (1) An evaluation from an official who has authority to grant college-level credit for training and/or experience in the specialty at an accredited college or university which has a program for granting such credit based on an individual's training and/or work experience;
- (2) The results of recognized college-level equivalency examinations or special credit programs, such as the College Level Examination Program (CLEP), or Program on Noncollegiate Sponsored Instruction (PONSI);
- (3) An evaluation of education by a reliable credentials evaluation service which specializes in evaluating foreign educational credentials;

- (4) Evidence of certification or registration from a nationally-recognized professional association or society for the specialty that is known to grant certification or registration to persons in the occupational specialty who have achieved a certain level of competence in the specialty;
- (5) A determination by the Service that the equivalent of the degree required by the specialty occupation has been acquired through a combination of education, specialized training, and/or work experience in areas related to the specialty and that the alien has achieved recognition of expertise in the specialty occupation as a result of such training and experience.

In accordance with 8 C.F.R. § 214.2(h)(4)(iii)(D)(5):

For purposes of determining equivalency to a baccalaureate degree in the specialty, three years of specialized training and/or work experience must be demonstrated for each year of college-level training the alien lacks. . . . It must be clearly demonstrated that the alien's training and/or work experience included the theoretical and practical application of specialized knowledge required by the specialty occupation; that the alien's experience was gained while working with peers, supervisors, or subordinates who have a degree or its equivalent in the specialty occupation; and that the alien has recognition of expertise in the specialty evidenced by at least one type of documentation such as:

- (i) Recognition of expertise in the specialty occupation by at least two recognized authorities in the same specialty occupation;
- (ii) Membership in a recognized foreign or United States association or society in the specialty occupation;
- (iii) Published material by or about the alien in professional publications, trade journals, books, or major newspapers;
- (iv) Licensure or registration to practice the specialty occupation in a foreign country; or

- (v) Achievements which a recognized authority has determined to be significant contributions to the field of the specialty occupation.

The beneficiary holds a bachelor's degree and a master's degree in geology conferred by an Indian institution. A credentials evaluation service found that the beneficiary's education is equivalent to a Bachelor of Science degree in geology and a Master of Science degree in geology conferred by a regionally accredited university in the United States. A review of the Department of Labor's *Occupational Outlook Handbook*, 2002-2003 edition, at page 182, finds that the usual requirement for employment as a computer scientist, systems analyst, or engineer is a baccalaureate degree in computer science, information science, or management information systems. The evaluator, however, did not conclude that the beneficiary holds the equivalent of a baccalaureate degree in computer science, information science, or management information systems. Accordingly, it is concluded that the petitioner has not shown that the beneficiary qualifies to perform the duties of a specialty occupation based upon education alone.

The record indicates that the beneficiary had over two years of software development experience at the time of the filing of the instant petition. Although the petitioner asserts that this experience, combined with the beneficiary's educational background, qualifies him for the proffered position, the record does not contain any corroborating evidence to support the petitioner's assertion, such as an evaluation from an official who has authority to grant college-level credit for training and/or experience in the specialty at an accredited college or university which has a program for granting such credit based on an individual's training and/or work experience, as required by 8 C.F.R. § 214.2(h)(4)(iii)(D)(1).

It is further noted that the record does not contain any evidence to demonstrate that the alien's training and/or work experience included the theoretical and practical application of specialized knowledge required by the specialty occupation, that the alien's experience was gained while working with peers, supervisors, or subordinates who have a degree or its equivalent in the specialty occupation, or that the alien has recognition of expertise in the specialty, as required by 8 C.F.R. § 214.2(h)(4)(iii)(D)(5).

The beneficiary is not a member of any organizations whose usual prerequisite for entry is a baccalaureate degree in a specialized area. The record contains no evidence that the beneficiary holds a state license, registration, or certification that authorizes him

to practice a specialty occupation. In view of the foregoing, it is concluded that the petitioner has not demonstrated that the beneficiary is qualified to perform services in a specialty occupation.

With respect to the petitioner's objection to denial of this petition in view of the approval of a similar petition in the past, the AAO is never bound by a decision of a service center or district director. *Louisiana Philharmonic Orchestra v. INS*, 44 F.Supp. 2d 800, 803 (E.D. La. 2000), *aff'd*, 248 F. 3d 1139 (5th Cir. 2001), *cert. denied*, 122 S.Ct. 51 (2001).

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has not sustained that burden. Accordingly, the decision of the director will not be disturbed.

**ORDER:** The appeal is dismissed.
