Date:

IN RE: Petitioner:

Beneficiary:

PETITION: Petition for a Nonimmigrant Worker Pursuant to Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b)

ON BEHALF OF PETITIONER:

SELF-REPRESENTED

INSTRUCTIONS:

This is the decision of the Administrative Appeals Office in your case. All documents have been returned to the office that originally decided your case. Any further inquiry must be made to that office.

Robert P. Wiemann, Director
Administrative Appeals Office

DISCUSSION: The service center director denied the nonimmigrant visa petition and the matter is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be dismissed. The petition will be denied.

The petitioner is a computer consulting and software development firm that seeks to employ the beneficiary as a computer consultant. The petitioner endeavors to classify the beneficiary as a nonimmigrant worker in a specialty occupation pursuant to section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1101(a)(15)(H)(i)(b).

The director denied the petition because the beneficiary is not qualified to perform the duties of a specialty occupation. On appeal, the petitioner files a letter and supporting documentation.

Section 214(i)(2) of the Act, 8 U.S.C. § 1184(i)(2), states that an alien applying for classification as an H-1B nonimmigrant worker must possess full state licensure to practice in the occupation, if such licensure is required to practice in the occupation, and completion of the degree in the specialty that the occupation requires. If the alien does not possess the required degree, the petitioner must demonstrate that the alien has experience in the specialty equivalent to the completion of such degree, and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, an alien must meet one of the following criteria:

- (1) Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
- (2) Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
- (3) Hold an unrestricted state license, registration or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
- (4) Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation, and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The record of proceeding before the AAO contains, in part: (1) Form I-129 and supporting documentation; (2) the director's request for additional evidence; (3) the petitioner's response to the director's request; (4) the director's denial letter; and (5) Form I-290B and supporting documentation. The AAO reviewed the record in its entirety before issuing its decision.

The petitioner is seeking the beneficiary's services as a computer consultant. The petitioner indicated its June 26, 2003 letter that it wished to hire the beneficiary because he possessed a bachelor's degree, work experience in the computer field, and computer-related training. Although not explicitly stated, it appears that the petitioner requires a baccalaureate degree or its equivalent in a computer-related field for the proffered position.

The director found that the beneficiary was not qualified for the proffered position because the beneficiary's education, experience, and training were not equivalent to a baccalaureate degree in a specialty required by the occupation. On appeal, the petitioner provides documentation indicating that the beneficiary is qualified for the position because he completed a 3-year degree program from an Indian institution and he has four years of work experience in the computer field.

Upon review of the record, the petitioner has failed to establish that the beneficiary is qualified to perform an occupation that requires a baccalaureate degree in a computer-related field. The beneficiary does not hold a baccalaureate degree from an accredited U.S. college or university in any field of study, or a foreign degree determined to be equivalent to a baccalaureate degree from a U.S. college or university in any field of study. Therefore, the petitioner must demonstrate that the beneficiary meets the criterion at 8 C.F.R. § 214.2(h)(4)(iii)(C)(4).

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(D), equating the beneficiary's credentials to a United States baccalaureate or higher degree shall be determined by one or more of the following:

- (1) An evaluation from an official who has authority to grant college-level credit for training and/or experience in the specialty at an accredited college or university which has a program for granting such credit based on an individual's training and/or work experience;
- (2) The results of recognized college-level equivalency examinations or special credit programs, such as the College Level Examination Program (CLEP), or Program on Noncollegiate Sponsored Instruction (PONSI);
- (3) An evaluation of education by a reliable credentials evaluation service which specializes in evaluating foreign educational credentials;
- (4) Evidence of certification or registration from a nationally-recognized professional association or society for the specialty that is known to grant certification or registration to persons in the occupational specialty who have achieved a certain level of competence in the specialty;
- (5) A determination by the Service that the equivalent of the degree required by the specialty occupation has been acquired through a combination of education, specialized training, and/or work experience in areas related to the specialty and that the alien has achieved recognition of expertise in the specialty occupation as a result of such training and experience.

The petitioner submitted an evaluation with the petition from William Edelson, an adjunct professor at Polytechnic University, New York. The petitioner submitted a revised evaluation from the same evaluator in response to the director's request for evidence. In the evaluation submitted in response to the director's request for evidence, the evaluator concluded that the beneficiary possesses the equivalent of a bachelor's degree in computer science. However, the evaluation is based upon the beneficiary's education, training and work experience. An evaluator may only evaluate an alien's work experience or training if he or she has authority to grant college-level credit for training and/or experience in the specialty at an accredited college or university which has a program for granting such credit based on an individual's training and/or work experience. See 8 C.F.R. § 214.2(h)(4)(iii)(D)(I). The evaluator in this matter is not qualified to evaluate the beneficiary's work experience or training. The AAO will accept that portion of the evaluation that analyzes the equivalency of the beneficiary's foreign education. With respect to that portion of the evaluation analyzing the beneficiary's work experience, the evaluation carries no weight in these proceedings. *Matter of Sea, Inc.*, 19 I&N Dec. 817 (Comm. 1988).

When CIS determines an alien's qualifications pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(D)(5), three years of specialized training and/or work experience must be demonstrated for each year of college-level training the alien lacks. It must be clearly demonstrated that the alien's training and/or work experience included the theoretical and practical application of specialized knowledge required by the specialty occupation; that the alien's experience was gained while working with peers, supervisors, or subordinates who have a degree or its equivalent in the specialty occupation; and that the alien has recognition of expertise in the specialty evidenced by at least one type of documentation such as:

- (i) Recognition of expertise in the specialty occupation by at least two recognized authorities in the same specialty occupation¹;
- (ii) Membership in a recognized foreign or United States association or society in the specialty occupation;
- (iii) Published material by or about the alien in professional publications, trade journals, books, or major newspapers;
- (iv) Licensure or registration to practice the specialty occupation in a foreign country; or
- (v) Achievements which a recognized authority has determined to be significant contributions to the field of the specialty occupation.

The record contains three employment letters (one submitted on appeal) and one computer-training certificate.

¹ *Recognized authority* means a person or organization with expertise in a particular field, special skills or knowledge in that field, and the expertise to render the type of opinion requested. A recognized authority's opinion must state: (1) the writer's qualifications as an expert; (2) the writer's experience giving such opinions, citing specific instances where past opinions have been accepted as authoritative and by whom; (3) how the conclusions were reached; and (4) the basis for the conclusions supported by copies or citations of any research material used. 8 C.F.R. § 214.2(h)(4)(ii).
