IN RE: Petitioner: [REDACTED]
Beneficiary: [REDACTED]

PETITION: Petition for a Nonimmigrant Worker Pursuant to Section 101(a)(15)(H)(i)(b) of the
Immigration and Nationality Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b)

ON BEHALF OF PETITIONER:

[REDACTED]

INSTRUCTIONS:

This is the decision of the Administrative Appeals Office in your case. All documents have been returned to the office that originally decided your case. Any further inquiry must be made to that office.

A handwritten signature in black ink, appearing to read "Robert P. Wiemann".

Robert P. Wiemann, Director
Administrative Appeals Office

DISCUSSION: The service center director denied the nonimmigrant visa petition and the matter is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be dismissed. The petition will be denied.

The petitioner is a fitness center that seeks to employ the beneficiary as a business manager. The petitioner endeavors to classify the beneficiary as a nonimmigrant worker in a specialty occupation pursuant to section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1101(a)(15)(H)(i)(b).

The director denied the petition on the basis that the proffered position was not a specialty occupation, and because the beneficiary was not qualified to perform the duties of a specialty occupation. On appeal, counsel submits a brief stating that the proffered position qualifies as a specialty occupation, and that the beneficiary is qualified to perform the duties of a specialty occupation.

The first issue to be discussed in this proceeding is whether the position offered to the beneficiary qualifies as a specialty occupation.

Section 101(a)(15)(H)(i)(b) of the Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b), provides, in part, for the classification of qualified nonimmigrant aliens who are coming temporarily to the United States to perform services in a specialty occupation.

Section 214(i)(1) of the Act, 8 U.S.C. § 1184(i)(1), defines the term "specialty occupation" as an occupation that requires:

- (A) theoretical and practical application of a body of highly specialized knowledge, and
- (B) attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

The term "specialty occupation" is further defined at 8 C.F.R. § 214.2(h)(4)(ii) as:

[A]n occupation which requires theoretical and practical application of a body of highly specialized knowledge in fields of human endeavor including, but not limited to, architecture, engineering, mathematics, physical sciences, social sciences, medicine and health, education, business specialties, accounting, law, theology, and the arts, and which requires the attainment of a bachelor's degree or higher in a specific specialty, or its equivalent, as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

- (1) A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;
- (2) The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;

- (3) The employer normally requires a degree or its equivalent for the position; or
- (4) The nature of the specific duties are so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

Citizenship and Immigration Services (CIS) interprets the term “degree” in the criteria at 8 C.F.R. § 214.2(h)(4)(iii)(A) to mean not just any baccalaureate or higher degree, but one in a specific specialty that is directly related to the proffered position.

The record of proceeding before the AAO contains: (1) Form I-129 and supporting documentation; (2) the director’s request for additional evidence; (3) the petitioner’s response to the director’s request; (4) the director’s denial letter; and (5) the Form I-290B with counsel’s brief. The AAO reviewed the record in its entirety before issuing its decision.

The petitioner is seeking the beneficiary’s services as a business manager. Evidence of the beneficiary’s duties includes the Form I-129 petition with attachment, and the petitioner’s response to the director’s request for evidence. According to this evidence the beneficiary would: design, manage, and supervise the development of numerous employees and future promotional projects for the fitness center; prepare marketing reports, financial analysis and company budgets; coordinate all matters involving professionals such as dance instructors and advertising agents; and merge new programs into already existing offerings at the fitness center. The petitioner does not state that it requires a minimum of a bachelor’s degree in any particular discipline for entry into the proffered position. It does state, however, that it requires experience equivalent to a normal university education.

The AAO routinely consults the Department of Labor’s *Occupational Outlook Handbook (Handbook)* for information about the duties and educational requirements of particular occupations. The duties of the proffered position are varied, but essentially those noted for general and operations managers. The *Handbook* notes that the formal education and experience of such managers varies as widely as the nature of their responsibilities. Many managers have a bachelor’s or higher degree in business administration or liberal arts. Other executive positions, however, are filled by promoting experienced, lower level managers. Thus, it is possible to obtain a position as a general/operations manager without a college degree by promotion from within the organization based upon performance alone. It is apparent from the *Handbook* that a baccalaureate or higher degree, in a specific specialty, is not the minimum requirement for entry into the offered position. When degrees are required for employment, the degree may come from a wide range of educational disciplines. The petitioner has failed to establish the first criterion of 8 C.F.R. § 214.2(h)(4)(iii)(A).

The petitioner does not assert that a degree requirement is common to the industry in parallel positions among similar organizations, or that it normally requires a degree in a specific specialty for the proffered position, and offers no evidence in this regard. 8 C.F.R. § 214.2(h)(4)(iii)(A)(2) and (3). Furthermore, the duties of the proffered position are general managerial duties routinely performed by managers in the industry. They are not so complex or unique that they can only be performed by an individual with a degree in a specific specialty. Nor are they so specialized or complex that knowledge required to perform them is usually

associated with the attainment of a baccalaureate or higher degree in a specific specialty. 8 C.F.R. § 214.2(h)(4)(iii)(A)(2) and (4).

The petitioner has failed to establish that the offered position meets any of the criteria listed at 8 C.F.R. § 214.2(h)(4)(iii)(A). Accordingly, the AAO shall not disturb the director's denial of the petition in this regard.

The final issue to be considered is whether the beneficiary qualifies to perform the duties of a specialty occupation.

Section 214(i)(2) of the Act, 8 U.S.C. § 1184(i)(2), states that an alien applying for classification as an H-1B nonimmigrant worker must possess:

- (A) full state licensure to practice in the occupation, if such licensure is required to practice in the occupation,
- (B) completion of the degree described in paragraph (1)(B) for the occupation, or
- (C) (i) experience in the specialty equivalent to the completion of such degree, and
 - (ii) recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

- (1) Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
- (2) Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
- (3) Hold an unrestricted State license, registration or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
- (4) Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation, and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(D), for purposes of paragraph (h)(4)(iii)(C)(4) of this section, equivalence to completion of a United States baccalaureate or higher degree shall mean achievement of a level of knowledge, competence, and practice in the specialty occupation that has been determined to be equal to that of an individual who has a baccalaureate or higher degree in the specialty and shall be determined by

one or more of the following:

- (1) An evaluation from an official who has authority to grant college-level credit for training and/or experience in the specialty at an accredited college or university which has a program for granting such credit based on an individual's training and/or work experience;
- (2) The results of recognized college-level equivalency examinations or special credit programs, such as the College Level Examination Program (CLEP), or Program on Noncollegiate Sponsored Instruction (PONSI);
- (3) An evaluation of education by a reliable credentials evaluation service which specializes in evaluating foreign educational credentials;
- (4) Evidence of certification or registration from a nationally-recognized professional association or society for the specialty that is known to grant certification or registration to persons in the occupational specialty who have achieved a certain level of competence in the specialty;
- (5) A determination by the Service that the equivalent of the degree required by the specialty occupation has been acquired through a combination of education, specialized training, and/or work experience in areas related to the specialty and that the alien has achieved recognition of expertise in the specialty occupation as a result of such training and experience.

The petitioner seeks to qualify the beneficiary by establishing that the beneficiary meets the requirements of 8 C.F.R. § 214.2 (h)(4)(iii)(C)(4). In support of this assertion, the petitioner submitted an experiential evaluation from [REDACTED] an evaluator with [REDACTED] who opined that the beneficiary possessed the equivalent of a bachelor's degree in business administration from an accredited college or university in the United States based upon his past work history. Credentials evaluation services are only authorized to evaluate foreign education for the purpose of degree equivalence in the United States, not past work experience. 8 C.F.R. § 214.2 (h)(4)(iii)(D)(3). Further, the record does not establish that the evaluator is an official who has authority to grant college-level credit for training and/or experience in the specialty at an accredited college or university which has a program for granting such credit based on an individual's training and/or work experience. 8 C.F.R. § 214.2 (h)(4)(iii)(D)(1). The evaluation submitted, therefore, is of little evidentiary value and does not establish that the beneficiary qualifies to perform the duties of a specialty occupation.

Citizenship and Immigration Services (CIS), may itself determine whether the beneficiary is qualified to perform the duties of the specialty occupation. That determination may be made pursuant to 8 C.F.R. § 214.2 (h)(4)(iii)(D)(5), which provides:

For purposes of determining equivalency to a baccalaureate degree in the specialty, three years of specialized training and/or work experience must be demonstrated for each year of college-level training the alien lacks. For equivalence to an advanced (or Masters) degree, the alien must have a baccalaureate degree followed by at least five years of experience in the specialty. . . . It must be clearly demonstrated that the alien's training and/or work experience

included the theoretical and practical application of specialized knowledge required by the specialty occupation; that the alien's experience was gained while working with peers, supervisors, or subordinates who have a degree or its equivalent in the specialty occupation; and that the alien has recognition of expertise in the specialty evidenced by at least one type of documentation such as:

- (i) Recognition of expertise in the specialty occupation by at least two recognized authorities in the same specialty occupation;
- (ii) Membership in a recognized foreign or United States association or society in the specialty occupation;
- (iii) Published material by or about the alien in professional publications, trade journals, books or major newspapers;
- (iv) Licensure or registration to practice the specialty occupation in a foreign country;
or
- (v) Achievements which a recognized authority has determined to be significant contributions to the field of the specialty occupation.

The documentation recounting the beneficiary's work experience is insufficient in detail to determine that: the work experience included the theoretical and practical application of specialized knowledge required by the proffered position; the beneficiary's experience was gained while working with peers, supervisors, or subordinates who have a degree or its equivalent in the specialty occupation; and that the beneficiary has recognition of expertise in the specialty. CIS cannot, therefore, determine that the beneficiary is qualified to perform the duties of the specialty occupation. The most that can be said about the beneficiary's qualifications is that the petitioner deems him qualified to perform the duties of the proffered position. That is the petitioner's prerogative. As previously noted, however, the position offered is not a specialty occupation. There is no regulatory requirement that the beneficiary possess a baccalaureate level education or its equivalent to perform the duties of that position, as the position is not subject to H-1B classification.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has failed to sustain that burden and the appeal shall accordingly be dismissed.

ORDER: The appeal is dismissed. The petition is denied.
