IN RE: Petitioner: [Redacted]
Beneficiary: [Redacted]

PETITION: Petition for a Nonimmigrant Worker Pursuant to Section 101(a)(15)(H)(i)(b) of the
Immigration and Nationality Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b)

ON BEHALF OF PETITIONER:

INSTRUCTIONS:

This is the decision of the Administrative Appeals Office in your case. All documents have been returned to the office that originally decided your case. Any further inquiry must be made to that office.

Robert P. Wiemann, Director
Administrative Appeals Office

DISCUSSION: The director of the service center denied the nonimmigrant visa petition and the matter is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be dismissed. The petition will be denied.

The petitioner operates as a full service real estate management company and indicates that it has eleven employees and seeks to employ the beneficiary as a part-time accountant. The petitioner, therefore, endeavors to classify the beneficiary as a nonimmigrant worker in a specialty occupation pursuant to section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1101(a)(15)(H)(i)(b).

The director denied the petition because the proffered position is not a specialty occupation. On appeal, counsel submits a brief and supporting documents.

Section 214(i)(1) of the Act, 8 U.S.C. § 1184(i)(1), defines the term "specialty occupation" as an occupation that requires:

- (A) theoretical and practical application of a body of highly specialized knowledge, and
- (B) attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

- (1) A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;
- (2) The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;
- (3) The employer normally requires a degree or its equivalent for the position; or
- (4) The nature of the specific duties is so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

Citizenship and Immigration Services (CIS) interprets the term "degree" in the criteria at 8 C.F.R. § 214.2(h)(4)(iii)(A) to mean not just any baccalaureate or higher degree, but one in a specific specialty that is directly related to the proffered position.

The record of proceeding before the AAO contains: (1) Form I-129 and supporting documentation; (2) the director's request for additional evidence; (3) counsel's response to the director's request; (4) the director's denial letter; and (5) Form I-290B and supporting documentation. The AAO reviewed the record in its entirety before issuing its decision.

The petitioner is seeking the beneficiary's services as a part-time accountant. Evidence of the beneficiary's duties includes: the Form I-129; the attachments accompanying the Form I-129; the company support letter; and counsel's response to the director's request for evidence. According to this evidence, the beneficiary would perform duties that entail: (1) applying principles of accounting to analyze financial information and prepare financial reports (10 hrs per week); (2) compile information to prepare entries to accounts documenting business transactions (6 hrs per week); (3) analyze financial data detailing assets, liabilities, and capital and prepare balance sheets, profit and loss statements, and prepare other reports to summarize current and projected company financial positions (3 hrs per week); (4) planning and organizing accounting activities including recording of financial transactions, preparation of accounting entries and reconciliation of general ledger accounts (3 hrs per week); and (5) managing an accounts payable systems and internal controls and assisting in the preparation of the company federal and state income tax returns (4 hrs per week). The petitioner indicated that the proffered position requires a minimum of a bachelor's degree in accounting, business administration or a related degree.

The director issued a request for evidence, specifically: a more detailed description of the work done including specific job duties, the percentage of time to be spent on each duty, and level of responsibility. The director requested evidence to support the petitioner's contention that the position is a specialty occupation. The director requested evidence that the petitioner has a past practice of hiring persons with a baccalaureate degree or higher to perform the duties of the proffered position. Additionally, the director requested federal income tax returns, Form DE-6 quarterly wage reports, a payroll summary and a copy of the petitioner's organizational chart.

In response, counsel provided an augmented job description. The petitioner provided an attestation from a recruitment agency attesting to a conversation with the petitioner regarding the recruitment of an accountant with at least a bachelor's degree. Counsel indicated that the petitioner previously employed an accountant and submitted copies of her W-2 and 1099 Forms. The petitioner provided copies of its Federal Income Tax Returns. The Form 1120 for tax year 2002 indicated gross receipts or sales of \$1,329,379.

The director determined that the proffered position was not a specialty occupation. The director found that the primary duties of the proffered position are those of an advanced bookkeeper or an auditing or accounting clerk. The director noted that the majority of the proposed duties and stated level of responsibility does not indicate complexity or authority that is beyond what is normally encountered in the occupational field. The evidence of record, the director stated, did not show that an experienced person whose educational training falls short of a baccalaureate degree could not perform the job offered.

On appeal, counsel states that the petitioner established that a baccalaureate degree or its equivalent is normally the minimum requirement for entry in the particular position. Additionally, counsel asserts that the nature of the specific duties are so specialized and complex that the knowledge required to perform the duties is usually associated with the attainment of a baccalaureate degree. Counsel submits a listing of several H-1B petitions and corresponding approval notices as evidence that accountants of property management companies are considered specialty occupations.

Upon review of the record, the petitioner has established none of the four criteria outlined in 8 C.F.R. § 214.2(h)(4)(iii)(A). Therefore, the proffered position is not a specialty occupation.

The AAO first considers the criteria at 8 C.F.R. §§ 214.2(h)(4)(iii)(A)(1) and (2): a baccalaureate or higher degree or its equivalent is the normal minimum requirement for entry into the particular position; a degree requirement is common to the industry in parallel positions among similar organizations; or a particular position is so complex or unique that it can be performed only by an individual with a degree. Factors often considered by CIS when determining these criteria include: whether the *Handbook* reports that the industry requires a degree; whether the industry's professional association has made a degree a minimum entry requirement; and whether letters or affidavits from firms or individuals in the industry attest that such firms "routinely employ and recruit only degreed individuals." See *Shanti, Inc. v. Reno*, 36 F. Supp. 2d 1151, 1165 (D.Minn. 1999)(quoting *Hird/Blaker Corp. v. Sava*, 712 F. Supp. 1095, 1102 (S.D.N.Y. 1989)).

In determining whether a position qualifies as a specialty occupation, CIS looks beyond the title of the position and determines, from a review of the duties of the position and any supporting evidence, whether the position actually requires the theoretical and practical application of a body of highly specialized knowledge, and the attainment of a baccalaureate degree in a specific specialty as the minimum for entry into the occupation as required by the Act. The AAO routinely consults the *Handbook* for its information about the duties and educational requirements of particular occupations.

A review of the *Handbook* reveals that specific job duties vary widely among the four major fields of accounting: public, management, government, and internal. The closest category to the proffered position is the management accountant. In the *Handbook*, management accountants — also called cost, managerial, industrial, corporate, or private accountants — record and analyze the financial information of the companies for which they work. Other responsibilities include budgeting, performance evaluation, cost management, and asset management. Usually, management accountants are part of executive teams involved in strategic planning or new-product development. They analyze and interpret the financial information that corporate executives need to make sound business decisions. They also prepare financial reports for nonmanagement groups, including stockholders, creditors, regulatory agencies, and tax authorities. Within accounting departments, they may work in various areas, including financial analysis, planning and budgeting, and cost accounting.

Very few of the duties described in the *Handbook* apply to the proffered position. According to the *Handbook*, accountants prepare financial reports for nonmanagement groups, including stockholders, creditors, regulatory agencies, and tax authorities, and usually, they are part of executive teams. The beneficiary will not be part of an executive team. Nor will the beneficiary prepare financial reports for nonmanagement groups such as stockholders, creditors, regulatory agencies, and tax authorities; or be involved in budgeting, performance evaluation, cost management, and asset management. Given this significant dissimilarity, the scope and complexity of the beneficiary's duties and responsibilities do not rise to the level of an accountant. Consequently, a bachelor's degree in accounting or a related field — which the DOL states is required for a management accountant — would not be required for the proffered position.

While it is true that not all accountants are part of an executive team, the *Handbook's* delineation of a management accountant as part of an executive team involved in strategic planning or new-product development illustrates the scope and complexity of a management accountant's responsibilities. Likewise, the role of the accountant to prepare financial reports for nonmanagement groups, including stockholders, creditors, regulatory agencies, and tax authorities also illustrates the level of a management accountant's responsibilities. Because the beneficiary will not be part of an executive team and will not prepare financial

reports for nonmanagement groups, including stockholders, creditors, regulatory agencies, and tax authorities, this indicates that the beneficiary's duties do not rise to the same level as a management accountant.

The *Handbook* states:

Accountants and auditors held about 1.1 million jobs in 2002. They worked throughout private industry and government, but 1 out of 5 wage and salary accountants worked for accounting, tax preparation, bookkeeping, and payroll services firms. Approximately 1 out of 10 accountants or auditors were self-employed.

Many accountants and auditors are unlicensed management accountants, internal auditors, or government accountants and auditors; however, a large number are licensed Certified Public Accountants. Most accountants and auditors work in urban areas, where public accounting firms and central or regional offices of businesses are concentrated.

The petitioner indicated that it had eleven employees and grossed over \$1.3 million dollars in receipts or sales. The petitioner's organizational chart indicates that its employees include a financial analyst, a strategic management analyst and two part-time bookkeepers. The petitioner's level of income has a direct and substantial bearing on the scope and depth of the beneficiary's proposed duties. The petitioner has not provided evidence that supports its contention that due to the size and complexity of its business the proffered duties are so complex and specialized that it is an accounting position requiring a baccalaureate level of education in a specialty occupation.

The *Handbook* reveals that the director properly concluded that many of the beneficiary's duties are performed by bookkeeping, accounting, auditing and financial clerks:

Bookkeeping, accounting, and auditing clerks are an organization's financial record keepers. They update and maintain one or more accounting records, including those that tabulate expenditures, receipts, accounts payable and receivable, and profit and loss. . . . post debits and credits, produce financial statements, and prepare reports and summaries for supervisors and managers. . . . handle the payroll, make purchases, prepare invoices, and keep track of overdue accounts.

More advanced accounting clerks may total, balance, and reconcile billing vouchers; ensure completeness and accuracy of data on account. . . . They may also review invoices and statements to ensure that all information is accurate and complete. . . . Auditing clerks verify records of transactions posted by other workers.

Financial clerks . . . record all amounts coming into or leaving an organization . . . keep track of a store's inventory. . . .

Auditing clerks verify records of transactions posted by other workers. They check figures, postings, and documents to ensure that they are correct, mathematically accurate, and properly coded.

The petitioner stated that the beneficiary will plan and organize accounting activities including recording of financial transactions, preparation of accounting entries and reconciliation of general ledger accounts; manage an accounts payable system and internal controls and assist in the preparation of the company federal and state income tax returns.

As shown in the *Handbook*, bookkeeping, accounting, and auditing clerks produce financial statements and prepare reports and summaries for supervisors and managers, which would be used by them to make sound business decisions. Further, the *Handbook* reports that employers require most financial clerks to have at least a high school diploma, and for bookkeepers and accounting clerks, they often require an associate's degree in business or accounting.¹

Based on the above discussion regarding the *Handbook's* information about management accountants and bookkeeping, accounting, auditing and financial clerks, the evidence in the record is insufficient to establish the regulation at 8 C.F.R. § 214.2(h)(4)(iii)(A)(I): that a baccalaureate or higher degree or its equivalent is the normal minimum requirement for entry into the particular position.

To establish the second criterion - that a specific degree requirement is common to the industry in parallel positions among similar organizations - counsel relies on previously approved H-1B petitions. The petitioner noted that CIS approved other petitions that had been previously filed on behalf of other beneficiaries and petitioners for accounting positions. The director's decision does not indicate whether he reviewed the prior approvals of the other nonimmigrant petitions. If the previous nonimmigrant petitions were approved based on the same unsupported and contradictory assertions that are contained in the current record, the approval would constitute material and gross error on the part of the director. The AAO is not required to approve applications or petitions where eligibility has not been demonstrated, merely because of prior approvals that may have been erroneous. *See, e.g. Matter of Church Scientology International*, 19 I&N Dec. 593, 597 (Comm. 1988). It would be absurd to suggest that CIS or any agency must treat acknowledged errors as binding precedent. *Sussex Engg. Ltd. v. Montgomery*, 825 F.2d 1084, 1090 (6th Cir. 1987), *cert. denied*, 485 U.S. 1008 (1988).

Furthermore, the AAO's authority over the service centers is comparable to the relationship between a court of appeals and a district court. Even if a service center director had approved the nonimmigrant petitions on behalf of the beneficiary, the AAO would not be bound to follow the contradictory decision of a service center. *Louisiana Philharmonic Orchestra v. INS*, 2000 WL 282785 (E.D. La.), *aff'd*, 248 F.3d 1139 (5th Cir. 2001), *cert. denied*, 122 S.Ct. 51 (2001).

¹ According to the website for Skyline College, a community college located in San Mateo, California, (www.skylinecollege.net), an associate's degree in business or accounting would involve learning the fundamentals about financial accounting principles and concepts, balance sheets, income statements, cash flow statements, the GAAP, forecasting, budgeting, cost accounting, break even analysis, developing and operating a computerized accounting system using tools such as QuickBooks, QuickBooks Pro, or Peachtree, an integrated commercial accounting software package that is used to review, differentiate, and interpret accounting concepts and data in a multitude of business situations. Thus, an associate's degree would provide knowledge about the GAAP and accounting techniques which serve the needs of management and facilitate decision-making.

Consequently, the submitted H-1B petitions fail to establish that there is a specific baccalaureate degree that is a common industry-wide requirement.

No evidence in the record establishes the regulation at 8 C.F.R. § 214.2(h)(4)(iii)(A)(2) which requires the petitioner to establish that a specific degree requirement is common to the industry in parallel positions among similar organizations. Nor can the petitioner establish that the particular position is so complex or unique that it can be performed only by an individual with a degree. As already discussed above, the *Handbook* reveals that many of the beneficiary's duties are performed by bookkeeping, accounting, and auditing clerks, occupations that do not require a bachelor's degree.

Nor is there evidence in the record to establish the third criterion at 8 C.F.R. § 214.2(h)(4)(iii)(A): that the petitioner normally requires a degree or its equivalent for the position. The petitioner submitted a W-2 and Form 1099 of an employee that it contends was previously employed as an accountant. The petitioner did not provide a copy of the employee's degree in a specific specialty.

The regulation at 8 C.F.R. § 214.2(h)(4)(iii)(A)(4) requires that the petitioner establish that the nature of the specific duties is so specialized and complex that the knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree. Many of the beneficiary's duties are performed by bookkeeping, accounting, auditing and financial clerks, occupations that do not require a bachelor's degree. Additionally, as noted above, the petitioner employs a strategic management analyst whose duties include “. . . performs financial and policy analysis from the management perspective.” The petitioner also employs a financial analyst who performs “financial analysis of resources by evaluating company's expenditures, developing budgetary forecasts.” These positions seem to have more complex duties than the proffered position. Upon review of the record, the petitioner has not documented the duties of the proffered position in relation to the nature of its business and in relation to the employees currently performing similar duties for the business. The petitioner therefore fails to establish 8 C.F.R. § 214.2(h)(4)(iii)(A)(4).

As related in the discussion above, the petitioner has failed to establish that the proffered position is a specialty occupation. Accordingly, the AAO shall not disturb the director's denial of the petition.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has not sustained that burden.

ORDER: The appeal is dismissed. The petition is denied.
