IN RE:

Petitioner:

Beneficiary:

PETITION:

Petition for a Nonimmigrant Worker Pursuant to Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b)

ON BEHALF OF PETITIONER:

INSTRUCTIONS:

This is the decision of the Administrative Appeals Office in your case. All documents have been returned to the office that originally decided your case. Any further inquiry must be made to that office.

Robert P. Wiemann, Director  
Administrative Appeals Office

**DISCUSSION:** The service center director denied the nonimmigrant visa petition and the matter is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be dismissed. The petition will be denied.

The petitioner is a religious organization that seeks to employ the beneficiary as a sculptor. The petitioner endeavors to classify the beneficiary as a nonimmigrant worker in a specialty occupation pursuant to section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1101(a)(15)(H)(i)(b).

The director denied the petition because the proffered position does not qualify as a specialty occupation. On appeal, counsel submits a brief stating that the offered position qualifies as a specialty occupation.

The issue to be discussed in this proceeding is whether the proffered position qualifies as a specialty occupation.

Section 101(a)(15)(H)(i)(b) of the Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b), provides, in part, for the classification of qualified nonimmigrant aliens who are coming temporarily to the United States to perform services in a specialty occupation.

Section 214(i)(1) of the Act, 8 U.S.C. § 1184(i)(1), defines the term "specialty occupation" as an occupation that requires:

- (A) theoretical and practical application of a body of highly specialized knowledge, and
- (B) attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

The term "specialty occupation" is further defined at 8 C.F.R. § 214.2(h)(4)(ii) as:

[A]n occupation which requires theoretical and practical application of a body of highly specialized knowledge in fields of human endeavor including, but not limited to, architecture, engineering, mathematics, physical sciences, social sciences, medicine and health, education, business specialties, accounting, law, theology, and the arts, and which requires the attainment of a bachelor's degree or higher in a specific specialty, or its equivalent, as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

- (1) A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;
- (2) The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;

- (3) The employer normally requires a degree or its equivalent for the position; or
- (4) The nature of the specific duties are so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

Citizenship and Immigration Services (CIS) interprets the term "degree" in the criteria at 8 C.F.R. § 214.2(h)(4)(iii)(A) to mean not just any baccalaureate or higher degree, but one in a specific specialty that is directly related to the proffered position.

The record of proceeding before the AAO contains: (1) the Form I-129 and supporting documentation; (2) the director's request for additional evidence; (3) the petitioner's response to the director's request; (4) the director's denial letter; and (5) the Form I-290B with supporting documentation. The AAO reviewed the record in its entirety before issuing its decision.

The petitioner is seeking the beneficiary's services as a sculptor. Evidence of the beneficiary's duties includes the I-129 petition with attachment and the petitioner's response to the director's request for evidence. According to this evidence the beneficiary would sculpture designs of furnishings, decorations, and Buddha statues to be used in a Buddhist Temple. The petitioner does not state that it requires a degree for entry into the proffered position, but deems the beneficiary qualified by virtue of his work experience.

Upon review of the record, the petitioner has failed to establish that a baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the offered position, or that a degree requirement is common to the industry in parallel positions among similar organizations, as asserted by the petitioner. Factors often considered by CIS when determining these criteria include: whether the Department of Labor's *Occupational Outlook Handbook (Handbook)* reports that the industry requires a degree; whether an industry professional association has made a degree a minimum entry requirement; and whether letters or affidavits from firms or individuals in the industry attest that such firms "routinely employ and recruit only degreed individuals." See *Shanti, Inc. v. Reno*, 36 F. Supp. 2d 1151, 1165 (D. Minn. 1999) (quoting *Hird/Blaker Corp. v. Sava*, 712 F. Supp. 1095, 1102 (S.D.N.Y. 1989)).

The petitioner has failed to establish that the proffered position qualifies as a specialty occupation. The AAO routinely consults the U.S. Department of Labor's *Occupational Outlook Handbook (Handbook)* for information about the duties and educational requirements of particular occupations. The duties of the proffered position are those noted for sculptors/artists in the *Handbook*. Training requirements for these professions vary by specialty. Although training for fine artists (sculptors) is not strictly necessary, it is difficult to become skilled enough to make a living without some training. Many colleges and universities offer programs leading to the Bachelor in Fine Arts and Master in Fine Arts degrees. Independent schools of art and design also offer postsecondary studio training in the fine arts leading to an Associate in Art or Bachelor in Fine Arts degree. Fine artists advance professionally as their work circulates and as they establish a reputation for a particular style. A baccalaureate level education, however, is not the normal minimum requirement for entry into the proffered position and the petitioner has not established the criterion at 8 C.F.R. § 214.2(h)(4)(iii)(A)(I).

The petitioner does not assert that a degree requirement is common to the industry in parallel positions among similar organizations, or that it normally requires a degree in a specific specialty for entry into the position, and offers no evidence in this regard. The petitioner has not established the referenced criteria at 8 C.F.R. § 214.2(h)(4)(iii)(A)(2) or (3).

Finally, the duties of the proffered position appear to be routine for sculptors in similar organizations. They are not so complex or unique that they can be performed only by an individual with a degree in a specific specialty. Nor are they so specialized or complex that knowledge required to perform them is usually associated with the attainment of a baccalaureate or higher degree in a specific specialty. The petitioner has failed to establish the referenced criteria at 8 C.F.R. §§ 214.2(h)(4)(iii)(A)(2) and (4).

The petitioner has failed to establish that the offered position meets any of the criteria listed at 8 C.F.R. § 214.2(h)(4)(iii)(A). Accordingly, the AAO shall not disturb the director's denial of the petition.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has not sustained that burden and the appeal shall accordingly be dismissed.

**ORDER:** The appeal is dismissed. The petition is denied.
