Administrative Appeals Office

**DISCUSSION:** The service center director denied the nonimmigrant visa petition and the matter is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be sustained.

The petitioner is an accounting business that seeks to extend its authorization to employ the beneficiary as a part-time accountant. The petitioner endeavors to classify the beneficiary as a nonimmigrant worker in a specialty occupation pursuant to § 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1101(a)(15)(H)(i)(b).

The director denied the petition because the beneficiary is not qualified to perform the duties of a specialty occupation. On appeal, counsel submits a brief and copies of previously submitted documentation.

Section 214(i)(2) of the Act, 8 U.S.C. § 1184(i)(2), states that an alien applying for classification as an H-1B nonimmigrant worker must possess full state licensure to practice in the occupation, if such licensure is required to practice in the occupation, and completion of the degree in the specialty that the occupation requires. If the alien does not possess the required degree, the petitioner must demonstrate that the alien has experience in the specialty equivalent to the completion of such degree, and recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, an alien must meet one of the following criteria:

- (1) Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
- (2) Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
- (3) Hold an unrestricted state license, registration or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
- (4) Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation, and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

The record of proceeding before the AAO contains, in part: (1) Form I-129 and supporting documentation; (2) the director's request for additional evidence; (3) the petitioner's response to the director's request; (4) the director's denial letter; and (5) Form I-290B and supporting documentation. The AAO reviewed the record in its entirety before issuing its decision.

The petitioner is seeking the beneficiary's services as a part-time accountant. The petitioner indicated that a qualified candidate for the job would possess a bachelor's degree.

The director found that the beneficiary was not qualified for the proffered position because the beneficiary's education, experience, and training were not equivalent to a baccalaureate degree in a specialty required by the occupation. On appeal, counsel states, in part, that the beneficiary is qualified for the position because she holds a bachelor's degree in business administration with a concentration in accounting and also has prior work experience as an accountant. He states further that, as this request for an extension involves the same parties and the same underlying facts, it should have been granted.

The AAO disagrees with the director's finding that the beneficiary is not qualified to perform the specialty occupation. In this case, the proffered position is that of a part-time accountant for the petitioning entity, which provides accounting services. A review of the *Handbook*, 2006-2007 edition, finds that most accountant and auditor positions require at least a bachelor's degree in accounting or a related field. The beneficiary in this case holds a foreign bachelor's degree in commerce with a major in business management. The record contains an evaluation from a company that specializes in evaluating academic credentials indicating that the beneficiary possesses the equivalent of a U.S. bachelor's degree in business administration with a major in management and a concentration in accounting and financial management. In view of the foregoing, it is concluded that the petitioner has demonstrated that the proffered position is a specialty occupation within the meaning of regulations and that the beneficiary is qualified to perform the duties of the specialty occupation.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has sustained that burden. Accordingly, the appeal will be sustained and the petition will be approved.

**ORDER:** The appeal is sustained. The director's order is withdrawn and the petition is approved.
