IN RE: Petitioner:
Beneficiary:

PETITION: Petition for a Nonimmigrant Worker Pursuant to Section 101(a)(H)(i)(b) of the Immigration and Nationality Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b)

ON BEHALF OF PETITIONER:

SELF-REPRESENTED

INSTRUCTIONS:

This is the decision of the Administrative Appeals Office in your case. All documents have been returned to the office that originally decided your case. Any further inquiry must be made to that office.

Robert P. Wiemann, Chief
Administrative Appeals Office

DISCUSSION: The service center director denied the nonimmigrant visa petition and the matter is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be dismissed. The petition will be denied.

The petitioner is a non-profit arts foundation. It seeks to employ the beneficiary as an artist/sculptor/researcher and endeavors to classify him as a nonimmigrant worker in a specialty occupation pursuant to section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1101(a)(15)(H)(i)(b).

The director denied the petition on the basis that the offered position was not a specialty occupation, and that the beneficiary did not qualify to perform the services of a specialty occupation. On appeal, the petitioner submits a brief and additional information stating that the proffered position does qualify as a specialty occupation, and that the beneficiary is qualified to perform the duties of a specialty occupation.

The first issue to be discussed in this proceeding is whether the position offered to the beneficiary qualifies as a specialty occupation.

Section 101(a)(15)(H)(i)(b) of the Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b), provides, in part, for the classification of qualified nonimmigrant aliens who are coming temporarily to the United States to perform services in a specialty occupation.

Section 214(i)(1) of the Act, 8 U.S.C. § 1184(i)(1), defines the term "specialty occupation" as an occupation that requires:

- (A) theoretical and practical application of a body of highly specialized knowledge, and
- (B) attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

The term "specialty occupation" is further defined at 8 C.F.R. § 214.2(h)(4)(ii) as:

[A]n occupation which requires theoretical and practical application of a body of highly specialized knowledge in field of human endeavor including, but not limited to, architecture, engineering, mathematics, physical sciences, social sciences, medicine and health, education, business specialties, accounting, law, theology, and the arts, and which requires the attainment of a bachelor's degree or higher in a specific specialty, or its equivalent, as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

- (1) A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;

- (2) The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;
- (3) The employer normally requires a degree or its equivalent for the position; or
- (4) The nature of the specific duties is so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

Citizenship and Immigration Services (CIS) interprets the term “degree” in the criteria at 8 C.F.R. § 214.2(h)(4)(iii)(A) to mean not just any baccalaureate or higher degree, but one in a specific specialty that is directly related to the proffered position.

The record of proceedings before the AAO contains: (1) Form I-129 and supporting documentation; (2) the director’s request for additional evidence; (3) the petitioner’s response to the director’s request; (4) the director’s denial letter; and (5) the Form I-290B with the petitioner’s brief. The AAO reviewed the record in its entirety before issuing its decision.

The petitioner is seeking the beneficiary’s services as a artist/sculptor/researcher. Evidence of the beneficiary’s duties was included with the Form I-129 petition and in response to the director’s request for evidence. According to the evidence the beneficiary would:

- Bring to bear a transcendent poetic vision with the simplest of materials;
- Conceptualize a huge sculptural environment suitable for a large exhibition space in a museum of contemporary art;
- Devise all necessary engineering elements necessary to mount such an exhibition;
- Fashion paper into massive situation specific environments;
- Perform compulsive mark making;
- Have relentless concentration on a single objective over an extremely long project period;
- Actually live, all day and night, with the ongoing activity of the project;
- Understand the history of art and insight into contemporary art specifically;
- Lecture on the state of his current research and present eventual outcomes at the end of the project;

- Produce photographic documentation of said research and make it available to the petitioner for archival preservation as part of the petitioner's ongoing work in the field at the Anderson Museum of Contemporary Art (www.roswellamoca.org);
- Be available for press interviews and media contacts;
- Make himself available to critical scrutiny by the academic community; and
- Be an ambassador to the City of Roswell and the State of New Mexico as a creative artist both for the petitioner's research institution and the beneficiary's home country of Japan.

The petitioner requires a minimum of a master's degree in fine arts from a reputable university or arts institute and a portfolio of outstanding merit for entry into the proffered position.

The AAO routinely consults the U.S. Department of Labor's *Occupational Outlook Handbook (Handbook)* for information about the duties and educational requirements of particular occupations. The duties of the proffered position are essentially those performed by artists. The *Handbook* notes that postsecondary training is recommended for all artist specialties. Although formal training is not strictly required, it is very difficult to become skilled enough to make a living without some training. The petitioner has failed to establish that a baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the offered position. 8 C.F.R. § 214.2(h)(4)(iii)(A)(I).

In this instance, the petitioner would work for a one-year time period as an artist-in-residence for a non-profit organization. His duties include not only producing art work, but performing and documenting research necessary to complete his assigned project. The beneficiary would also lecture on the state of his research and present eventual outcomes at the end of the project. The work to be performed requires an understanding of the history of art and insight into contemporary art, and subjects the beneficiary's work to critical scrutiny by the academic community. The duties of this specific position, in the petitioner's work environment, is so specialized and complex that knowledge required to perform them is usually associated with the attainment of a baccalaureate or higher degree in a related field. The petitioner has satisfied the criterion at 8 C.F.R. § 214.2(h)(4)(iii)(A)(4) and the proffered position qualifies as a specialty occupation.

The final issue to be considered is whether the beneficiary is qualified to perform the duties of a specialty occupation.

Section 214(i)(2) of the Act, 8 U.S.C. § 1184(i)(2), states that an alien applying for classification as an H-1B nonimmigrant worker must possess:

- (A) full state licensure to practice in the occupation, if such licensure is required to practice in the occupation,
- (B) completion of the degree described in paragraph (1)(B) for the occupation, or
- (C) (i) experience in the specialty equivalent to the completion of such degree, and

- (ii) recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

- (1) Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
- (2) Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
- (3) Hold an unrestricted State license, registration or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
- (4) Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation, and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(D), for purposes of paragraph (h)(4)(iii)(C)(4) of this section, equivalence to completion of a United States baccalaureate or higher degree shall mean achievement of a level of knowledge, competence, and practice in the specialty occupation that has been determined to be equal to that of an individual who has a baccalaureate or higher degree in the specialty and shall be determined by one or more of the following:

- (1) An evaluation from an official who has authority to grant college-level credit for training and/or experience in the specialty at an accredited college or university which has a program for granting such credit based on an individual's training and/or work experience;
- (2) The results of recognized college-level equivalency examinations or special credit programs, such as the College Level Examination Program (CLEP), or Program on Noncollegiate Sponsored Instruction (PONSI);
- (3) An evaluation of education by a reliable credentials evaluation service which specializes in evaluating foreign educational credentials;
- (4) Evidence of certification or registration from a nationally-recognized professional association or society for the specialty that is known to grant certification or registration to persons in the occupational specialty who have achieved a certain level of competence in the specialty;
- (5) A determination by the Service that the equivalent of the degree required by the specialty occupation has been acquired through a combination of education, specialized

training, and/or work experience in areas related to the specialty and that the alien has achieved recognition of expertise in the specialty occupation as a result of such training and experience.

The petitioner seeks to qualify the beneficiary by establishing that the beneficiary meets the requirements of 8 C.F.R. § 214.2 (h)(4)(iii)(C)(2). In support of this assertion, the petitioner submitted documentation that establishes that the beneficiary holds a Master of Fine Art degree from Tama Art University in Japan. The petitioner did not, however, submit an evaluation of the beneficiary's foreign education from a reliable credentials evaluation service as required by regulation to establish that the beneficiary's education is equivalent to a degree from an accredited institution of higher learning in the United States. 8 C.F.R. § 214.2(h)(4)(iii)(D)(3). For this reason, the petition may not be approved.

Citizenship and Immigration Services (CIS), may itself determine whether the beneficiary is qualified to perform the duties of the specialty occupation. That determination may be made pursuant to 8 C.F.R. § 214.2 (h)(4)(iii)(D)(5), which provides:

For purposes of determining equivalency to a baccalaureate degree in the specialty, three years of specialized training and/or work experience must be demonstrated for each year of college-level training the alien lacks. For equivalence to an advanced (or Masters) degree, the alien must have a baccalaureate degree followed by at least five years of experience in the specialty. . . . It must be clearly demonstrated that the alien's training and/or work experience included the theoretical and practical application of specialized knowledge required by the specialty occupation; that the alien's experience was gained while working with peers, supervisors, or subordinates who have a degree or its equivalent in the specialty occupation; and that the alien has recognition of expertise in the specialty evidenced by at least one type of documentation such as:

- (i) Recognition of expertise in the specialty occupation by at least two recognized authorities in the same specialty occupation;
- (ii) Membership in a recognized foreign or United States association or society in the specialty occupation;
- (iii) Published material by or about the alien in professional publications, trade journals, books or major newspapers;
- (iv) Licensure or registration to practice the specialty occupation in a foreign country;
or
- (v) Achievements which a recognized authority has determined to be significant contributions to the field of the specialty occupation.

The documentation recounting the beneficiary's work experience is insufficient in detail to determine that: the work experience included the theoretical and practical application of specialized knowledge required by the proffered position; the beneficiary's experience was gained while working with peers, supervisors, or

subordinates who have a degree or its equivalent in the specialty occupation; and that the beneficiary has recognition of expertise in the specialty. CIS cannot, therefore, determine that the beneficiary is qualified to perform the duties of the specialty occupation.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has failed to sustain that burden and the appeal shall accordingly be dismissed.

ORDER: The appeal is dismissed. The petition is denied.
