FOR THE ASSOCIATE COMMISSIONER,
EXAMINATIONS

Robert P. Wiemann
for Robert P. Wiemann, Acting Director
Administrative Appeals Office

DISCUSSION: The nonimmigrant visa petition was denied by the Director, California Service Center, and is now before the Associate Commissioner for Examinations on appeal. The appeal will be sustained.

The petitioner is a printing, packaging and design company. It seeks classification of the beneficiary as a print design and production trainee for two years. The director determined that the petitioner has not demonstrated the proposed training is not available in the beneficiary's own country. The director also determined that the petitioner had not demonstrated that the beneficiary will not be placed in a position in which citizens and resident workers are regularly employed. The director also decided that the petitioner did not establish that the beneficiary will not engage in productive employment.

On appeal, counsel states that the training manual sets forth in detail how all of the elements of the H-3 classification are met. Counsel also states that the beneficiary will not be placed in a position in which citizens or resident workers are employed. Further, counsel asserts that no productive employment will take place unless incidental.

Section 101(a)(15)(H)(iii) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(iii), provides classification to an alien having a residence in a foreign country which he or she has no intention of abandoning who is coming temporarily to the United States as a trainee, other than to receive graduate medical education or training, in a training program that is not designed primarily to provide productive employment.

The regulation at 8 C.F.R. 214.2(h)(7) states, in pertinent part:

(ii) *Evidence required for petition involving alien trainee--(A) Conditions.* The petitioner is required to demonstrate that:

(1) The proposed training is not available in the alien's own country;

(2) The beneficiary will not be placed in a position which is in the normal operation of the business and in which citizens and resident workers are regularly employed;

(3) The beneficiary will not engage in productive employment unless such employment is incidental and necessary to the training; and

(4) The training will benefit the beneficiary in pursuing a career outside the United States.

(B) *Description of training program.* Each petition for a trainee must include a statement which:

(1) Describes the type of training and supervision to be given, and the structure of the training program;

(2) Sets forth the proportion of time that will be devoted to productive employment;

(3) Shows the number of hours that will be spent, respectively, in classroom instruction and in on-the-job training;

(4) Describes the career abroad for which the training will prepare the alien;

(5) Indicates the reasons why such training cannot be obtained in the alien's country and why it is necessary for the alien to be trained in the United States; and

(6) Indicates the source of any remuneration received by the trainee and any benefit which will accrue to the petitioner for providing the training.

(iii) *Restrictions on training program for alien trainee.* A training program may not be approved which:

(A) Deals in generalities with no fixed schedule, objectives, or means of evaluation;

(B) Is incompatible with the nature of the petitioner's business or enterprise;

(C) Is on behalf of a beneficiary who already possesses substantial training and expertise in the proposed field of training;

(D) Is in a field in which it is unlikely that the knowledge or skill will be used outside the United States;

(E) Will result in productive employment beyond that which is incidental and necessary to the training;

(F) Is designed to recruit and train aliens for the ultimate staffing of domestic operations in the United States;

(G) Does not establish that the petitioner has the physical plant and sufficiently trained manpower to provide the training specified; or

(H) Is designed to extend the total allowable period of practical training previously authorized a nonimmigrant student.

The petitioner submitted a letter dated July 12, 2000 from the vice president of Printing Industries Association, Inc. of Southern California, a major affiliate of Printing Industries of America and the largest trade association for graphic arts and communications in the world. The association has attested to the fact that Mexico does not have the technology and equipment available in the United States and that there is a lack of professionals in the field of graphic design and print production in Mexico. As there is no reason to doubt the information provided by the association, the petitioner has shown that the type of training offered by the petitioner is not available in the beneficiary's own country.

The petitioner's training program entails two hours of supervised practical training and six hours of academic instruction per week. The beneficiary will not adhere to a defined work schedule or perform a variety of assigned productive tasks. Therefore, the petitioner has shown that the beneficiary will not be engaged in productive employment beyond that necessary and incidental to the training. Further, the petitioner has demonstrated that the beneficiary will not be placed in a position in which citizens and resident workers are regularly employed.

In nonimmigrant visa petition proceedings, the burden of proving eligibility for the benefit sought remains entirely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has met that burden.

ORDER: The appeal is sustained.
