

service questionnaires to all applicants at time of processing, and maintain a secured container for collection of questionnaires. The Site Supervisor shall be responsible for the collection of these forms. On a four-part scale of "Excellent", "Good", "Marginal", and "Poor", at least 98 percent of all questionnaire responses rate Overall Services Provided as "Excellent" or "Good."

b. The Contractor shall maintain a minimum program-wide customer service questionnaire return rate of 65 percent for all tasks, excluding refugee processing.

4. Staff Qualifications:

a. The Contractor shall ensure one hundred percent (100%) of its staff at ASC sites (including full-time, on-call, back-up, part-time, and subcontractor staff) has received an appropriate DHS/CIS security clearance required for the job category being performed.

5. Invoice/Report Processing:

a. The Contractor shall ensure one hundred percent (100%) of invoices and deliverables are completed and provided timely in accordance with the PWS.

6. Applicant Turn-Aways:

a. Contractor shall ensure no ASC biometrics/I-90 applicants are turned away without processing due to the action or inaction of the Contractor (to include Subcontractor(s) and Standalone (AS) ASC Landlords). The Contractor is responsible for providing adequate SA facilities and qualified staff to operate the ASCs. The standard is based on the number of times applicant turn-aways occur due to Contractor fault, not the number of turned away applicants. This standard covers, but is not limited to, the following examples that could cause applicant turn-aways: 1) A water pipe bursts in SA building, thereby damaging equipment, closing ASC site, etc.; 2) Electrical wiring in SA building causes power outages, brown-outs, etc. that damages or hinders equipment, and/or causes a fire that damages or closes ASC site; 3) Contractor provides insufficient staff and/or staffing measures to meet scheduled workload; 4) Sprinkler system in SA building malfunctions and damages/closes ASC site; 5) Significant over-scheduling of an ASC site due to the Contractor's fault.

Examples of Applicant Turn-Aways not attributable to Contractor fault/error, and not covered by this standard: 1) Acts of God (i.e., hurricanes, snow storms, etc); 2) Applicant arrives significantly outside of appointment time and cannot be processed that day; 3) Significant over-scheduling of an ASC site due to Government fault; 4) Malfunction of Government-provided equipment; 5) Government actions or inactions that prevent Contractor from performance.

(a) Any supplies and services to be furnished under this contract shall be ordered by issuance of delivery orders or task orders by the individuals or activities designated in the Schedule. Such orders may be issued from the date of contract award through the expiration date of the base year, and for the option year timeframes stated in Section B during the option years.

(b) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

(c) If mailed, a delivery order or task order is considered "issued" when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods only if authorized in the Schedule.

(End of clause)

FAR 52.216-19

Order Limitations

OCT 1995

(a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than \$500,000, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) Maximum Order. The Contractor is not obligated to honor-

(1) Any order for a single item in excess of \$50M.

(2) Any order for a combination of items in excess of \$150M.

(3) A series of orders from the same ordering office within (1) week that together call for quantities exceeding the limitation in paragraph (b)(1) or (2) of this section.

(c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within two (2) days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

52.216-22

Indefinite Quantity

- (d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after four months following the expiration of the contract term.

52.217-9

The preliminary notice does not commit the Government to an extension.
- (b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

The offeror shall provide a narrative discussion, to be included in the business proposal, of available financial resources for staff, personnel, equipment and supplies to support the contract. Refer to FAR 9.601, *Contractor Team Arrangements*, for descriptions of the types of agreements. A signed copy of the joint venture or prime/subcontractor agreement must be submitted with the solicitation response. This signed copy of the teaming relationship must be submitted with **both** the Technical Proposal and the Business Proposal.

SECTION M - EVALUATION FACTORS FOR AWARD

M.1 Award Criteria

(a) The Government intends to evaluate proposals and award a contract without discussions with offerors. However, the Government reserves the right to conduct discussions if later determined to be necessary by the Contracting Officer. Therefore, each initial offer should contain the offeror's best terms from a cost or price and technical standpoint.

(b) If the Government determines that discussions are necessary, the Contracting Officer may establish a competitive range based on the evaluations of the technical and business proposals for the purpose of holding discussions with offerors. The Contracting Officer may limit the competitive range for purposes of efficiency in accordance with FAR 52.215-1(f)(4).

(c) Proposals will be evaluated with regard to three evaluation factors, Technical Capability, Past Performance, and Price, listed in descending order of importance. The Technical Capability factor is more important than Past Performance, and Technical Capability and Past Performance, when combined, are significantly more important than Price. Award will be made to the Offeror whose proposal represents the best value to the Government.

(d) As defined in FAR 2.101, Best Value means "the expected outcome of an acquisition that, in the Government's estimation, provides the greatest overall benefit in response to the requirement." Consequently, this contract will be awarded to the responsible Offeror whose proposal, conforming to the solicitation, results in the most advantageous integration of the Technical Capability, Past Performance, and Price factors.

(e) USCIS will utilize a trade-off process between price and non-price factors to allow USCIS to accept other than the lowest priced proposal, or other than the highest technically rated Offeror. Neither the lowest price nor the highest technical rating will be the definitive-determining factor in making an award. If two Offerors have similar technical capability and past performance, then price may become the discriminating factor. Ratings between competing proposals will be analyzed to determine what the difference may mean in terms of performance, and what it will cost the Government to take advantage of it. As such, the Government may reject any or all offers if such action is in the best interest of the Government, and the Government may accept an offer that is not the lowest price.

M.2 Non-Agency & Contractor Evaluation Support

USCIS will use acquisition support Contractor personnel to support the Government's evaluation of proposals in accordance with the Department of Homeland Security Acquisition Regulation (HSAR) 3015.207-70. The Contractor employees will have access to information contained in the Contractor's proposals and will be subject, as are

all other members of the source selection organization, to the appropriate conflict of interest, standards of conduct, and confidentiality restrictions. Non-Government personnel are advisors only and are not voting members of evaluation panels. Both Government evaluators and non-Government advisors will sign non-disclosure agreements.

M.3 52.217-5

Evaluation of Options

JUL 1990

Except when it is determined in accordance with FAR 17.206(b) not to be in the Government's best interest, the Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).

M.4 Technical Capability Evaluation Factors

The Offeror's technical capability will be evaluated based on the extent to which the offeror's approach and practical experience conveys a full understanding of the requirements of the PWS and is in compliance with the requirements as stated in Section L of the RFP.

The following technical evaluation factors are considered of equal importance:

1. Program Management Team
2. Staffing/Retention
3. Transition
4. Practical Experience
5. Key Personnel
6. Training
7. Quality Assurance
8. Management Controls

M.5 Past Performance Evaluation Factors

(a) The Offeror's past performance will be evaluated on the degree of relevance to the requirements of the RFP on the basis of similarity in size, scope, complexity, and technical difficulty, and on the Past-Performance Questionnaires submitted by past clients. Recent experience within the last ten (10) years will be evaluated.

(b) If some of the Offeror's experience is relevant and the rest is not, only the relevant experience will be evaluated for purposes of past performance. If no experience is relevant a rating of "Neutral" will be assigned for past performance. If the Offeror has no past performance, the Offeror shall submit a certification to the Contracting Officer indicating the Offeror has no past performance.

(c) Evaluations may include interviews with previous clients of the prime contractor and subcontractors and may include interviews with previous clients of proposed key personnel.

M.6 Price Evaluation

(a) Proposals will be evaluated for price reasonableness, consistency, arithmetic accuracy, realism, and responsiveness of each business proposal, including all options, and to assess the acceptability or the unacceptability of the other business factors for the proposal. The results of the business proposal evaluation shall also be used as an aid in determining each offeror's understanding of the requirements of the solicitation.

(b) Prices will be evaluated for realism and reasonableness. Proposals which are unrealistic in terms of technical commitment or unrealistically low in cost(s) (e.g. unrealistic base rates for one or more labor categories) and/or price will be deemed to show an inherent lack of technical competence or failure to comprehend the complexity and risk of the work requirement may be grounds for the rejection of the proposal. Any proposal that is unreasonably or materially unbalanced as to price for basic and follow-on year quantities may be rejected. An unbalanced proposal is one that incorporates prices significantly less than cost for some items and/or prices that are significantly overstated for other items.

(c) HSAR 3052.219-72 Evaluation of Prime Contractor Participation in the DHS Mentor-Protege Program

This solicitation contains a source selection factor or subfactor regarding participation in the DHS Mentor-Protege Program. In order to receive credit under the source selection factor or subfactor, the offeror shall provide a signed letter of mentor-protege agreement approval from the DHS OSDBU.

(End of clause)

If participating in a Mentor/Protege relationship, approval of participation in this program should have occurred prior to proposal submission.

(d) The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the base year for each region. Evaluation of options shall not obligate the Government to exercise the option(s).

(e) The Government will conduct its price evaluation using one or more of the techniques specified in FAR 15.404-1(b), Price Analysis. The Government will also look at other areas of the offerors proposal to make sure it complies with the instructions provided in Section L - Proposal Instructions.

M.7 Award Selection

(a) The Government intends to award a single contract resulting from this solicitation to the responsible offeror whose proposal represents the "best value" after evaluation in accordance with the factors listed herein, using the trade-off process.
