IN RE: Petitioner: [Redacted]  
Beneficiary: [Redacted]

PETITION: Petition for a Nonimmigrant Worker Pursuant to Section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b)

ON BEHALF OF PETITIONER:

INSTRUCTIONS:

This is the decision of the Administrative Appeals Office in your case. All documents have been returned to the office that originally decided your case. Any further inquiry must be made to that office.

*James Blunzinger, for*

Robert P. Wiemann, Chief  
Administrative Appeals Office

**DISCUSSION:** The director of the service center denied the nonimmigrant visa petition and the matter is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be dismissed. The petition will be denied.

The petitioner, a computer consulting company, seeks to employ the beneficiary as a programmer analyst. The petitioner, therefore, endeavors to classify the beneficiary as a nonimmigrant worker in a specialty occupation pursuant to section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1101(a)(15)(H)(i)(b).

The director denied the petition, concluding that the record did not establish that the beneficiary is qualified to perform the duties of a specialty occupation. The director disputed the validity of the evaluation of education and experience submitted by the petitioner, as it indicates the beneficiary possesses the equivalent of a bachelor's degree in computer information systems even though the beneficiary's school transcript did not indicate that he had taken any computer courses. On appeal, counsel contends that the director erred in denying the petition, that the evaluator is reliable, and that the proposed position qualifies for classification as a specialty occupation.

The record of proceeding before the AAO contains (1) the Form I-129 and supporting documentation; (2) the director's request for additional evidence; (3) the petitioner's response to the director's request; (4) the director's denial letter; and (5) the Form I-290B and supporting documentation. The AAO reviewed the record in its entirety before issuing its decision.

Citizenship and Immigration Services (CIS) interprets the term "degree" in the criteria at 8 C.F.R. § 214.2(h)(4)(iii)(A) to mean not just any baccalaureate or higher degree, but one in a specific specialty that is directly related to the proposed position.

The AAO finds that the petitioner has failed to establish that the beneficiary qualifies to perform the duties of a specialty occupation. Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, an alien must meet one of the following criteria:

- (1) Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
- (2) Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
- (3) Hold an unrestricted state license, registration or certification which authorizes him or her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or
- (4) Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree

in the specialty occupation, and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

In making its determination as to whether the beneficiary qualifies to perform the duties of a specialty occupation, the AAO turns to the criteria at 8 C.F.R. § 214.2(h)(4)(iii)(C)(1), as described above, which requires a demonstration that the beneficiary holds a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university. The beneficiary did not obtain a degree from a United States institution of higher education, so he does not qualify under the first criterion.

Nor does the beneficiary qualify under the second criterion, which requires a demonstration that the beneficiary's foreign degree has been determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university. The record contains a January 23, 2006 evaluation from [REDACTED], an evaluator for IndoUS Technology & Educational Services, Inc. According to [REDACTED], the beneficiary's combination of education and work experience are equivalent to a bachelor's degree in computer information systems. However, this evaluation does not satisfy 8 C.F.R. § 214.2(h)(4)(iii)(C)(2). In order to qualify under this criterion, the evaluation must be based solely upon the beneficiary's foreign degree; a credentials evaluation service may evaluate educational credentials only. 8 C.F.R. § 14.2(h)(4)(iii)(D)(3).

The record does not demonstrate, nor has the petitioner contended, that the beneficiary holds an unrestricted state license, registration or certification to practice the specialty occupation, so he does not qualify under the third criterion, either.

The fourth criterion, set forth at 8 C.F.R. § 214.2(h)(4)(iii)(C)(4), requires a showing that the beneficiary's education, specialized training, and/or progressively responsible experience is equivalent to the completion of a United States baccalaureate or higher degree in the specialty occupation, and that the beneficiary also has recognition of that expertise in the specialty through progressively responsible positions directly related to the specialty.

Thus, it is the fourth criterion under which the petitioner must classify the beneficiary's combination of education and work experience. Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(D), equating a beneficiary's credentials to a United States baccalaureate or higher degree is determined by one or more of the following:

- (1) An evaluation from an official who has authority to grant college-level credit for training and/or experience in the specialty at an accredited college or university which has a program for granting such credit based on an individual's training and/or work experience;
- (2) The results of recognized college-level equivalency examinations or special credit programs, such as the College Level Examination Program (CLEP), or Program on Noncollegiate Sponsored Instruction (PONSI);

- (3) An evaluation of education by a reliable credentials evaluation service which specializes in evaluating foreign educational credentials;
- (4) Evidence of certification or registration from a nationally-recognized professional association or society for the specialty that is known to grant certification or registration to persons in the occupational specialty who have achieved a certain level of competence in the specialty;
- (5) A determination by the Service that the equivalent of the degree required by the specialty occupation has been acquired through a combination of education, specialized training, and/or work experience in areas related to the specialty and that the alien has achieved recognition of expertise in the specialty occupation as a result of such training and experience.

The beneficiary does not qualify under 8 C.F.R. § 214.2(h)(4)(iii)(D)(1), as there has been no demonstration that [REDACTED] possesses the authority to grant college-level credit for training and/or experience in a related field at an accredited college or university which has a program for granting such credit based on an individual's training and/or work experience in the field. Although [REDACTED] states that he possesses such authority, no evidence to support his assertion was submitted. Simply going on record without supporting documentary evidence is not sufficient for purposes of meeting the burden of proof in these proceedings. *Matter of Soffici*, 22 I&N Dec. 158, 165 (Comm. 1998) (citing *Matter of Treasure Craft of California*, 14 I&N Dec. 190 (Reg. Comm. 1972)).

No evidence has been submitted to establish, nor has counsel contended, that the beneficiary satisfies 8 C.F.R. § 214.2(h)(4)(iii)(D)(2), which requires that the beneficiary submit the results of recognized college-level equivalency examinations or special credit programs, such as the College Level Examination Program (CLEP), or Program on Noncollegiate Sponsored Instruction (PONSI).

Nor does the beneficiary satisfy 8 C.F.R. § 214.2(h)(4)(iii)(D)(3). As was the case under 8 C.F.R. § 214.2(h)(4)(iii)(C)(2), the beneficiary is unqualified under this criterion because [REDACTED] evaluation was based upon both education and experience. In order to qualify under this criterion, the evaluation would have to have been based upon foreign educational credentials alone.

No evidence has been submitted to establish, nor has counsel contended, that the beneficiary satisfies 8 C.F.R. § 214.2(h)(4)(iii)(D)(4), which requires that the beneficiary submit evidence of certification or registration from a nationally-recognized professional association or society for the specialty that is known to grant certification or registration to persons in the occupational specialty who have achieved a certain level of competence in the specialty.

The AAO next turns to the fifth criterion. When CIS determines an alien's qualifications pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(D)(5), three years of specialized training and/or work experience must be demonstrated for each year of college-level training the alien lacks. It must be clearly demonstrated that

the alien's training and/or work experience included the theoretical and practical application of specialized knowledge required by the specialty occupation; that the alien's experience was gained while working with peers, supervisors, or subordinates who have a degree or its equivalent in the specialty occupation; and that the alien has recognition of expertise in the specialty evidenced by at least one type of documentation such as:

- (i) Recognition of expertise in the specialty occupation by at least two recognized authorities in the same specialty occupation<sup>1</sup>;
- (ii) Membership in a recognized foreign or United States association or society in the specialty occupation;
- (iii) Published material by or about the alien in professional publications, trade journals, books, or major newspapers;
- (iv) Licensure or registration to practice the specialty occupation in a foreign country;  
or
- (v) Achievements which a recognized authority has determined to be significant contributions to the field of the specialty occupation.

The evidence of record traces the beneficiary's work history from 2000 through 2005. As provided by regulation, the formula utilized by CIS is three years of specialized training and/or work experience for each year of college-level training that the alien lacks. A baccalaureate degree from a United States institution of higher education would require four years of study, and the evaluator determined that the beneficiary's foreign degree is equivalent to three years of academic study toward a bachelor's degree. The beneficiary must therefore demonstrate at least three years of qualifying work experience in order to qualify the remaining year of academic credit.

The record establishes that the beneficiary has over five years of work experience. The AAO's next line of inquiry is therefore to determine whether at least three years of this work experience included the theoretical and practical application of specialized knowledge required by the field, whether it was gained while working with peers, supervisors, or subordinates who held a bachelor's degree or its equivalent in the field, and whether the beneficiary achieved recognition of expertise in the field as evidenced by at least one of the five types of documentation delineated in sections (i), (ii), (iii), (iv), or (v) of 8 C.F.R. § 214.2(h)(4)(iii)(D)(5).

---

<sup>1</sup> *Recognized authority* means a person or organization with expertise in a particular field, special skills or knowledge in that field, and the expertise to render the type of opinion requested. A recognized authority's opinion must state: (1) the writer's qualifications as an expert; (2) the writer's experience giving such opinions, citing specific instances where past opinions have been accepted as authoritative and by whom; (3) how the conclusions were reached; and (4) the basis for the conclusions supported by copies or citations of any research material used. 8 C.F.R. § 214.2(h)(4)(ii).

However, the evidence submitted by the petitioner regarding the beneficiary's previous work experience does not establish that it included the theoretical and practical application of specialized knowledge, that it was gained while working with peers, supervisors, or subordinates who held a bachelor's degree or its equivalent, and that the beneficiary achieved recognition of expertise as evidenced by at least one of the five types of documentation delineated in sections (i), (ii), (iii), (iv), or (v) of 8 C.F.R. § 214.2(h)(4)(iii)(D)(5).

Accordingly, the beneficiary does not qualify under any of the criteria set forth at 8 C.F.R. §§ 214.2(h)(4)(iii)(D)(1)(2)(3)(4), or (5), and therefore by extension does not qualify under 8 C.F.R. § 214.2(h)(4)(iii)(C)(4). Therefore, the petitioner has not demonstrated that the beneficiary qualifies to perform the duties of a specialty occupation.

The petitioner has failed to establish that the beneficiary qualifies to perform the duties of a specialty occupation. Accordingly, the AAO will not disturb the director's denial of the petition.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has not sustained that burden.

**ORDER:** The appeal is dismissed. The petition is denied.
