IN RE: Petitioner:
Beneficiary:

PETITION: Petition for a Nonimmigrant Worker Pursuant to Section 101(a)(15)(H)(i)(b) of the
Immigration and Nationality Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b)

ON BEHALF OF PETITIONER:

INSTRUCTIONS:

This is the decision of the Administrative Appeals Office in your case. All documents have been returned to the office that originally decided your case. Any further inquiry must be made to that office.

Robert P. Wiemann, Director
Administrative Appeals Office

DISCUSSION: The service center director denied the nonimmigrant visa petition and the matter is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be dismissed. The petition will be denied.

The petitioner is a retail clothing store and seeks to employ the beneficiary as a purchasing manager. The petitioner endeavors to classify the beneficiary as a nonimmigrant worker in a specialty occupation pursuant to section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1101(a)(15)(H)(i)(b).

The director denied the petition because the proffered position does not qualify as a specialty occupation. On appeal, counsel submits a brief stating that the offered position qualifies as a specialty occupation.

The issue to be discussed in this proceeding is whether the proffered position qualifies as a specialty occupation.

Section 101(a)(15)(H)(i)(b) of the Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b), provides, in part, for the classification of qualified nonimmigrant aliens who are coming temporarily to the United States to perform services in a specialty occupation.

Section 214(i)(1) of the Act, 8 U.S.C. § 1184(i)(1), defines the term "specialty occupation" as an occupation that requires:

- (A) theoretical and practical application of a body of highly specialized knowledge, and
- (B) attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

The term "specialty occupation" is further defined at 8 C.F.R. § 214.2(h)(4)(ii) as:

[A]n occupation which requires theoretical and practical application of a body of highly specialized knowledge in fields of human endeavor including, but not limited to, architecture, engineering, mathematics, physical sciences, social sciences, medicine and health, education, business specialties, accounting, law, theology, and the arts, and which requires the attainment of a bachelor's degree or higher in a specific specialty, or its equivalent, as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

- (1) A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;
- (2) The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;

- (3) The employer normally requires a degree or its equivalent for the position; or
- (4) The nature of the specific duties are so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

Citizenship and Immigration Services (CIS) interprets the term “degree” in the criteria at 8 C.F.R. § 214.2(h)(4)(iii)(A) to mean not just any baccalaureate or higher degree, but one in a specific specialty that is directly related to the proffered position.

The record of proceeding before the AAO contains: (1) the Form I-129 and supporting documentation; (2) the director’s request for additional evidence; (3) the petitioner’s response to the director’s request; (4) the director’s denial letter; and (5) the Form I-290B with supporting documentation. The AAO reviewed the record in its entirety before issuing its decision.

The petitioner is seeking the beneficiary’s services as a purchasing manager. Evidence of the beneficiary’s duties includes the Form I-129 petition with attachment and a copy of a position description for a purchasing agent from the Department of Labor’s *Dictionary of Occupational Titles*. In describing the duties of the offered position, the petitioner states that the beneficiary will “identify, negotiate, and finalize purchases of inventory; establish pricing of merchandise based on cost; [and] establish purchasing budgets.” The petitioner requires a bachelor’s degree in fashion for entry into the offered position.

Upon review of the record, the petitioner has failed to establish that a baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the offered position, or that a degree requirement is common to the industry in parallel positions among similar organizations, as asserted by the petitioner. Factors often considered by CIS when determining these criteria include: whether the Department of Labor’s *Occupational Outlook Handbook (Handbook)* reports that the industry requires a degree; whether an industry professional association has made a degree a minimum entry requirement; and whether letters or affidavits from firms or individuals in the industry attest that such firms “routinely employ and recruit only degreed individuals.” See *Shanti, Inc. v. Reno*, 36 F. Supp. 2d 1151, 1165 (D. Minn. 1999) (quoting *Hird/Blaker Corp. v. Sava*, 712 F. Supp. 1095, 1102 (S.D.N.Y. 1989)).

The AAO routinely consults the *Handbook* for information about the duties and educational requirements of particular occupations. The duties of the proffered position, though somewhat vaguely described, are essentially those noted for buyers or purchasing managers, and are described in the *Handbook*, 2004-05 edition at p. 61, as follows:

Purchasing managers, buyers and purchasing agents seek to obtain the highest quality merchandise at the lowest possible purchase cost for their employers. In general, *purchasers* buy goods and services for their company or organization, whereas *buyers* typically buy items for resale. Purchasers and buyers determine which commodities or services are best, choose the suppliers of the product or service, negotiate the lowest price, and award contracts that ensure that the correct amount of the product or service is received at the appropriate time. In order to accomplish these tasks successfully, purchasing managers, buyers, and

purchasing agents study sales records and inventory levels of current stock, identify foreign and domestic suppliers, and keep abreast of changes affecting both the supply of and demand for needed products and materials.

Purchasing managers, buyers, and purchasing agents evaluate suppliers on the basis of price, quality, service support, availability, reliability, and selection. . . . They research the reputation and history of the suppliers and may advertise anticipated purchase actions in order to solicit bids. . . .

The duties associated with the proffered position are essentially those listed above. The *Handbook* notes that qualified individuals for purchasing managers, buyers and purchasing agents may begin as trainees, purchasing clerks, expeditors, junior buyers, or assistant buyers. Retail and wholesale firms prefer to hire applicants with a college degree and familiarity with the products they sell, as well as wholesale and retail practices. It is also noted, however, that some retail firms promote qualified employees to assistant buyer positions, while others recruit and train college graduates. Most employers use a combination of methods for filling these positions. *Id.* at 62. Educational requirements tend to vary with the size of the organization. Large stores and distributors prefer applicants who have completed a bachelors degree program with a business emphasis, and many manufacturing firms put a greater emphasis on formal training, preferring applicants with a bachelor's or master's degree in engineering, business, economics, or one of the applied sciences. The fact remains, however, that while some employers prefer applicants with a bachelor's degree, a degree requirement in a specific specialty is not the minimum requirement for entry into the offered position. Many employers still fill buyer positions by promoting experienced employees who qualify for the position through work experience and training rather than a bachelor's level education in a specific specialty. The petitioner has failed to satisfy the criterion at 8 C.F.R. § 214.2(h)(4)(iii)(A)(1).

In support of its proposition that the proffered position qualifies as a specialty occupation, the petitioner makes reference to the Department of Labor's OES/SOC database and the *Dictionary of Occupational Titles*, noting that the position is classified as a "Job Zone 4" position, and has an SVP rating of seven. The petitioner's assertions in this regard are not persuasive. Neither the *DOT's* SVP rating nor a Job Zone category indicates that a particular occupation requires the attainment of a baccalaureate or higher degree, or its equivalent, in a specific specialty as a minimum for entry into the occupation. An SVP rating and Job Zone category are meant to indicate only the total number of years of vocational preparation required for a particular position. Neither classification describes how those years are to be divided among training, formal education, and experience, nor specifies the particular type of degree, if any, that a position would require.

The petitioner submits no additional evidence in support of the petition. The duties of the position are routine for purchasing managers and buyers. They are not so specialized and complex that knowledge required to perform them is usually associated with the attainment of a baccalaureate or higher degree in a specific specialty. Nor are they so complex or unique that they can only be performed by an individual with a degree in a specific specialty. The petitioner has failed to establish the referenced criteria at 8 C.F.R. § 214.2(h)(4)(iii)(A)(2) or (4). Furthermore, the petitioner submits no evidence to establish that a degree in a specific specialty is common for the position in the industry in parallel positions among similar organizations, or that it normally requires a degree for the position. As such, the petitioner has not established the referenced criteria at 8 C.F.R. § 214.2(h)(4)(iii)(A)(2) or (3).

As related in the discussion above, the petitioner has failed to establish that the proffered position is a specialty occupation. Accordingly, the AAO shall not disturb the director's denial of the petition.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has failed to sustain that burden and the appeal shall accordingly be dismissed.

ORDER: The appeal is dismissed. The petition is denied.
