What Is the Purpose of This Form?

In general, applicants for naturalization must demonstrate an understanding of the English language, including an ability to read, write, and speak words in ordinary usage. They must also demonstrate a knowledge and understanding of the fundamentals of the history and principles and form of government of the United States. Together, these are known as the English and civics requirements for naturalization. This form is intended for applicants who seek an exception to the English and/or civics requirements due to a physical or developmental disability or mental impairment that has lasted, or is expected to last, 12 months or more.

Who Should Submit This Form and When?

An applicant for naturalization seeking an exception to the English and/or civics requirements for naturalization because of a physical or developmental disability or mental impairment(s) should submit this form at the time he or she files an N-400, Application for Naturalization, with USCIS. Per Immigration and Nationality Act (INA) 312(b)(1), applicants are not required to fulfill the English and/or civics requirements if the person is unable to do so because of physical or developmental disability or mental impairment(s).

NOTE: Failure to submit Form N-648 with Form N-400 may delay the time for the adjudication of Form N-400.

Who Should Not Submit This Form?

An applicant who can satisfy the English and civics requirements for naturalization with reasonable accommodations provided under the Rehabilitation Act of 1973 does not need to submit this form. Reasonable accommodations include, but are not limited to, sign language interpreters, extended time for testing and off-site testing. An applicant requesting an accommodation should so indicate on Part 3 of his or her completed Form N-400. Illiteracy alone is not a valid reason to seek an exception to the English and civics requirement by submitting this form.

Who Is Authorized to Certify This Form?

Only medical doctors, doctors of osteopathy, or clinical psychologists licensed to practice in the United States (including the U.S. territories of CNMI, Guam, Puerto Rico, and the Virgin Islands) are authorized to certify the form. While staff of the medical practice associated with the medical professional certifying the form may assist in its completion, the medical professional is responsible for the accuracy of the form's content.

How to Complete This Form?

All parts of Form N-648 except the "Applicant Attestation" and "INTERPRETER'S CERTIFICATION", must be certified by a licensed medical professional. Before certifying Form N-648, the medical professional must have conducted an in-person examination of the applicant.

All questions or items must be answered fully and accurately. USCIS will not accept an incomplete Form N-648. Responses should use common terminology, without abbreviations, that a person without medical training can understand. If completed in writing, all responses must be legible and appear in black ink. USCIS recommends that the certifying medical professional use the electronic Form N-648 located in the "FORMS" section at www.uscis.gov.

Failure to provide all information requested on the form may result in USCIS determination that the form is insufficient. In addition to providing a detailed assessment of the applicant's physical or developmental disability or mental impairment as requested on the form, a medical professional completing the form may attach supporting medical diagnostic reports or records. However, these attachments may not take the place of written responses to each question or item on Form N-648.

The following are examples of sufficient responses to some of the items on Part III of Form N-648:

1. **Provide the clinical diagnosis and DSM IV code (if applicable) of the applicant's disability and/or impairment(s) that form the basis for seeking an exception to the English and/or civics requirements.**
   
   If you cannot provide a DSM IV code, write "N/A" and explain why you cannot provide a DSM IV code.
   
   "DSM-IV 318.0 Down syndrome."

2. **Provide a basic description of the disability and/or impairment(s).**
   
   "Down syndrome is a genetic disorder that causes lifelong intellectual disability (also referred to as mental retardation), developmental delays, and other problems."

8. **What caused the applicant's medical disability and/or impairment(s) listed in number 1?**
   
   "Down syndrome is usually caused by an error in cell division occurring *in utero*. The cause of such errors in cell division is currently unknown."
9. What clinical methods did you use to diagnose the applicant's medical disability and/or impairment(s) listed in number 1?

"The patient was diagnosed in utero through a Chorionic Villus Sampling (CVS). CVS is a test done during early pregnancy that can identify certain genetic disorders or chromosomal birth defects, such as Down syndrome."

10. Clearly describe how the applicant's disability and/or impairment(s), affect his or her ability to demonstrate a knowledge and understanding of English and/or civics.

"The patient's condition is a global, lifelong impairment that severely affects cognition, language, and motor skills. While many individuals with mild to moderate forms of Down syndrome are capable of daily tasks and working in the community, this patient suffers from a particularly severe form. Because of this impairment, his memory is deficient, he cannot learn new skills, and he is not capable of reasoning but only of performing simple daily activities. The patient's severe intellectual disability (mental retardation) makes him incapable of learning a new language (even basic words) and demonstrating the required knowledge of U.S. history and government."
