Application: Request for Designation as a Regional Center
Applicant(s): Tobin Butcher

Re: Farm for America Regional Center ✓
RCW1031910018/(formerly W09001790)

Pursuant to Section 610 of the Appropriations Act of 1993, on April 23, 2010, Tobin Butcher submitted a proposal seeking approval and designation by U.S. Citizenship and Immigration Services (USCIS) of the Farm for America Regional Center.

USCIS hereby designates Farm for America Regional Center as a Regional Center within the Immigrant Investor Pilot Program and approves the request as described below:

FOCUS OF INVESTMENT ACTIVITY:

As depicted in the economic model, the general proposal, business plan and associated economic analysis, the Regional Center will engage in the following economic activities: to purchase and develop agricultural property.

The Regional Center shall focus on offering EB-5 compliant capital investment opportunities into new commercial enterprises or a mix of commercial enterprises in the following target industry economic clusters:

1. NAICS 111900 Other Farming (Viticulture)
2. NAICS 111200 Vegetable Farming

If any investment opportunities arise that are beyond the scope of the approved industry clusters, then an amendment would be required to add that cluster.

GEOGRAPHIC AREA:

The Farm for America Regional Center shall have a geographic scope to include the Washington Counties of Benton, Chelan, Douglas, Grant, Franklin, Klickitat, Okanogan, Walla Walla and Yakima.

The geographic focus of this area may contain some High Unemployment Targeted Employment Areas (TEAs) as designated by the State of Washington and rural TEAs, as defined in 8 CFR 204.6(e). Therefore, the minimum capital investment threshold for any individual immigrant investment into an approved commercial enterprise throughout the Regional Center shall be not less than \$500,000, if the investment target is located within a TEA or \$1,000,000 if it is located outside of a TEA. No debt arrangement will be acceptable unless it is secured by assets owned by the alien entrepreneur. A full capital investment must be made and placed at risk.

For any alien requesting the reduced threshold of \$500,000 based upon an investment in a Targeted Employment area, the alien must establish at the time of filing of the I-526 petition that either the investment will be made in a TEA designated area or was in a TEA designated area at the time of the alien's initial investment into the enterprise.

EMPLOYMENT CREATION

The econometric model is the Washington State Input-Output Model. Immigrant investors who file petitions for capital investments in new commercial enterprises located within and affiliated with the Regional Center area must fulfill all of the requirements set forth in INA 203(b)(5), 8 CFR 204.6, and 8 CFR 216.6, except that the petition need not show that the new commercial enterprises created ten new jobs directly as a result of the immigrant investor's investment. The determination whether the alien investor has met the job creation requirements will be established by a review of the required initial evidence at 8 CFR 204.6(j) and 8 CFR 216.6(a)(4) for the Form I-526 and Form I-829 petitions, respectively. The capital investment and job creation activities outlined in the individual petitions must fall within the bounds of the final economic analysis that is contained as part of the approved Regional Center proposal and its indirect job creation model and multipliers contained within the final approved Regional Center application package. The immigrant investor must show at the time of removal of conditions that they performed the activities described in Form I-526 petition, and the activities must be based on the approved regional center methodology for demonstrating job creation.

In addition, where job creation or preservation of existing jobs is claimed based on a multiplier rooted in underlying new "direct jobs", the immigrant investor's individual I-526 petition affiliated with your Regional Center, should include as supporting evidence:

- A comprehensive detailed business plan with supporting financial, marketing and related data and analysis providing a reasonable basis for projecting creation of any new direct jobs for "qualifying employees" to be achieved/realized within two years pursuant to 8 CFR 204.6(j)(4)(B).

An alien investor's I-829 petition to remove the conditions which was based on an I-526 petition approval that involved the creation of new direct jobs or the creation of new indirect jobs based on job creation inputs (direct wages paid to employees-\$1,330,000, development costs and operational costs-\$5,220,000, and the value of crop production-\$4,800,000) needs to be properly supported by such evidence. To support the full number of direct and indirect new jobs being claimed in connection with removal of conditions, the petition

The Immigrant Investor Pilot Program ("Pilot Program") was created by Section 610 of Public Law 102-395 (October 6, 1992). This is different in certain ways from the basic EB-5 investor program.

The Pilot Program began in accordance with a Congressional mandate aimed at stimulating economic activity and creating jobs for U.S. workers, while simultaneously affording eligible aliens the opportunity to become lawful permanent residents. Through this innovative program, foreign investors are encouraged to invest funds in an economic unit known as a "Regional Center."

A Regional Center is defined as any economic unit, public or private, engaged in the promotion of economic growth, improved regional productivity, job creation and increased domestic capital investment.

8 CFR 204.6 (m)(3) describes specific evidence that must be submitted before consideration for eligibility for this benefit may proceed. After review of your proposal in the light of these requirements, the following information, evidence or clarification is needed to proceed.

It is always best to start with a cover letter that acts as an executive summary followed by a table of contents of the various tabbed sections to follow.

Mandatory Evidence for the Basic General Proposal

Promotion of Economic Growth within the selected Geographic Area (8 CFR 204.6(m)(3)(i)):

8 CFR 204.6(m)(3)(i) requires that a proposal be submitted which:

Clearly describes how the regional center focuses on a geographical region of the United States, and how it will promote economic growth through improved regional productivity, job creation, and increased domestic capital investment;

(b)(4)

Regional or National impact of the Regional Center (8 CFR 204.6 (m)(3)(iv)):

Regulations at 8 CFR 204.6(m)(3)(iv) require that the proposal contain:

...a detailed prediction regarding the manner in which the regional center will have a positive impact on the regional or national economy in general as reflected by such factors as increased household earnings, greater demand for business services, utilities, maintenance and repair, and construction both within and without the regional center;

(b)(4)

Indirect Job Creation (8 CFR 204.6(m)(3)(ii)):

Under the provisions of the INA which apply to the Immigrant Investor Pilot Program and specific amendments to the statute, especially in the 2002 amendment Per Public Law 107-273, enacted November 2, 2002, which clearly states:

A regional center shall have jurisdiction over a limited geographic area, which shall be described in the proposal and consistent with the purpose of concentrating pooled investment in defined economic zones. The establishment of a regional center may be based on general predictions, contained in the proposal, concerning the kinds of commercial enterprises that will receive capital from aliens, the jobs that will be created directly or indirectly as a result of such capital investments and the other positive economic effects such capital investments will have.

Also 8 CFR 204.6(m)(3)(ii) requires you to:

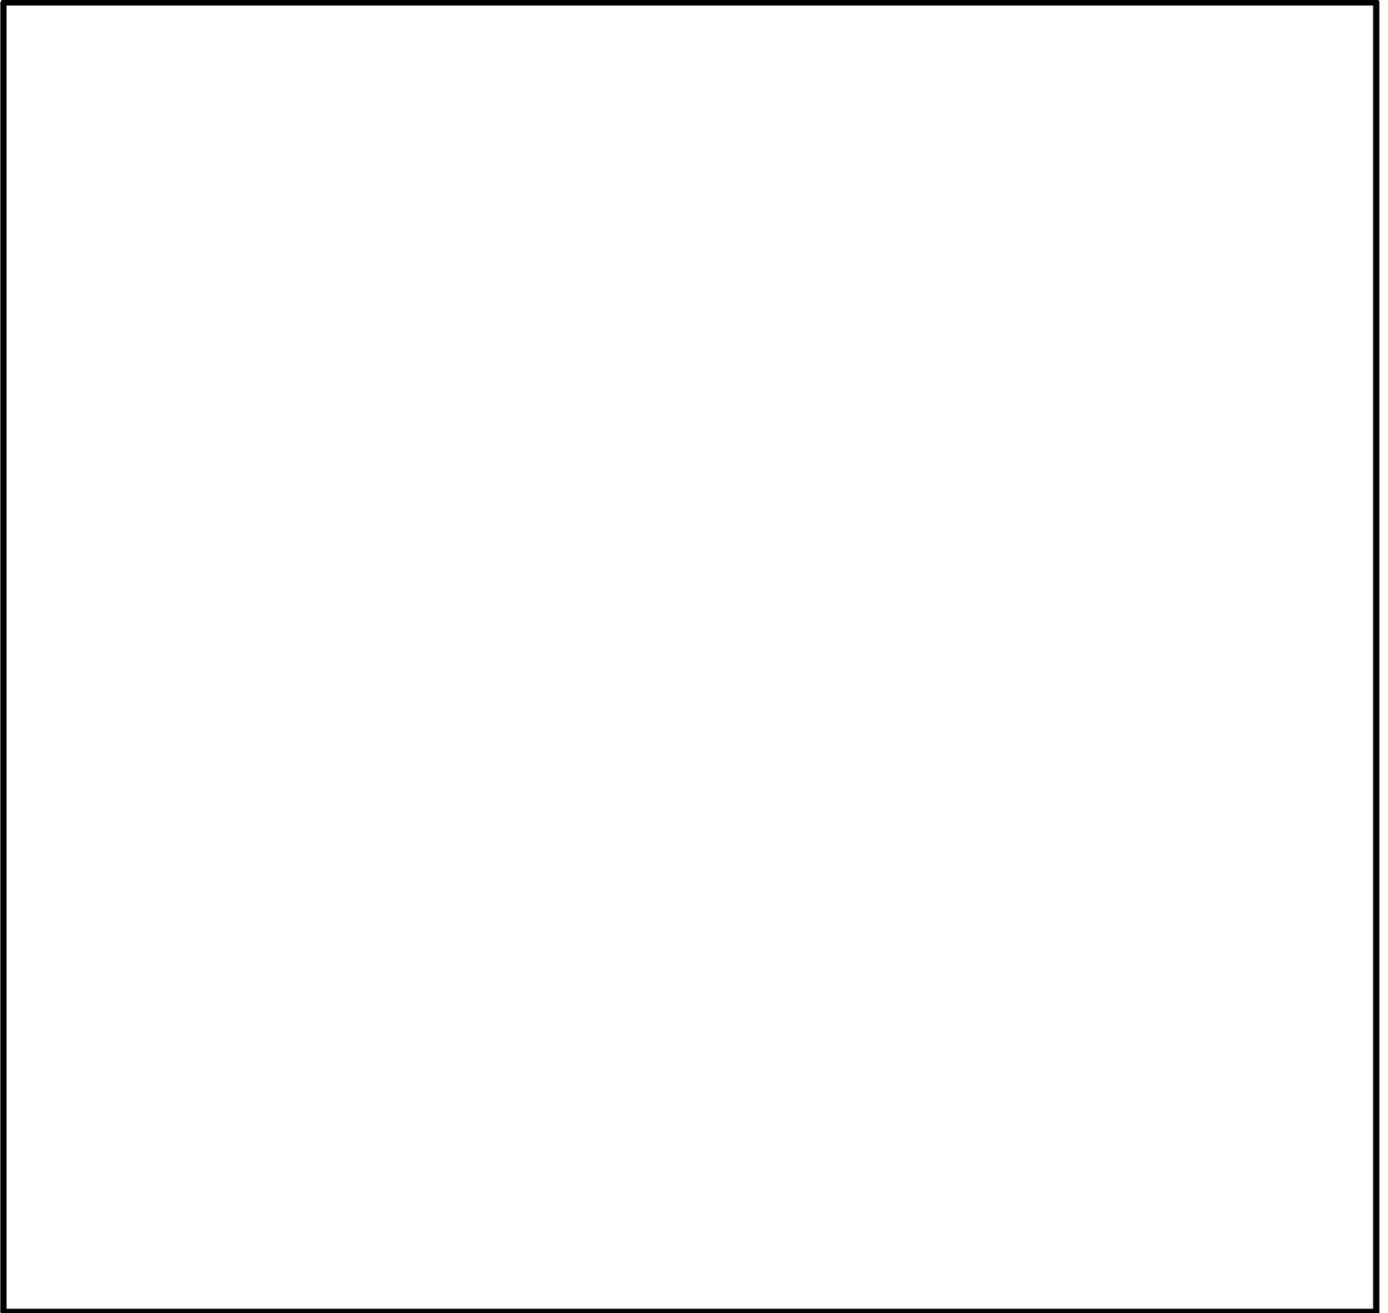

(b)(4)

Provide in verifiable detail how jobs will be created indirectly;

Dear Mr. Butcher,

The Washington State Employment Security Department (ESD) has the delegated authority to certify areas of high unemployment, defined as unemployment of at least 150% of the national unemployment rate. To maintain consistency, the federal government has mandated that the labor force and unemployment estimates used to determine if areas meet the "high unemployment" definition should use methodology developed by the U.S. Bureau of Labor Statistics (BLS). The description of the overall methodology and the census-share method utilized by ESD to produce estimates for subareas can be found on the Internet at the BLS web site: <http://www.bls.gov/lau/laumthd.htm>

The national unemployment rate for the most recent calendar year, 2009, is 9.3 percent. To qualify, a geographic area must have an unemployment rate of at least 14.0%. No county in Washington State has an unemployment rate for that time period that would qualify the county as a whole.

Using the official methodology for calculating the unemployment rate for sub-county areas, as identified above, the area you provided us consists of 7 census tracts. The area described has an unemployment rate of 14.0%, therefore reaching the required rate, and is contiguous crossing into two counties. The tracts range from an unemployment rate of 5.1% to a high of 18.7%.
