

## Maryland Driver's License and ID Card Information

Maryland joined the Records and Information from DMVs for E-Verify (RIDE) program in July 2017 for driver's licenses and ID cards. When an employee presents a Maryland driver's license or ID card as his or her List B document for Form I-9, E-Verify will prompt you to enter the document information and will verify it against Maryland records.

- Select "Driver's license" as the document name in E-Verify for any Maryland document called a **Driver License, Learner's Permit, or Commercial Driver License**.
- Select "ID card" as the document name in E-Verify for any Maryland document called an **Identification Card**.
- Maryland issues horizontal driver's licenses and ID cards for individuals age 21 and over and issues vertical driver's licenses and ID cards for individuals under age 21.
- Maryland driver's licenses and ID cards contain document numbers (circled) that are thirteen characters- one letter followed by twelve numbers.
- Maryland began issuing driver's licenses and ID cards with the current design in June 2016.
- For more information on Maryland driver's licenses and ID cards, consult the [Maryland Motor Vehicle Administration website](#).
