

Agenda

Teleconference: H-1B Cap Exemption for
Affiliated or Related Nonprofit Entities
May 26, 2011
2:00-3:30 p.m. (EDT)

Discussion Topics

- What type of documentation would a nonprofit organization that claims a relation to or an affiliation with an institution of higher education that is based on program collaboration or affiliation agreements provide?
- Does the ACWIA regulatory definition encompass common affiliation agreements or other business relationships established between nonprofit entities and institutions of higher education?
- Would stakeholders favor having separate regulatory provisions and definitions for defining the term “related or affiliated” for purposes of implementing the ACWIA statute versus defining the term “related or affiliated” for purposes of implementing the statutory cap exemption?
- If stakeholders favor a separate regulatory provision, how should USCIS define “related or affiliated” in regulation, consistent with statutory intent, for purposes of implementing the statutory cap exemption?
