## What's Hot in E-Verify?

### Questions about E-Verify? We have answers...

The E-Verify Questions and Answers section has been updated and redesigned. You will find a helpful list of frequently asked questions divided into categories that make it easier for you to obtain answers quickly. Workers can also find answers to their E-Verify questions.

### Central I-9 en Español

As promised, the award-winning I-9 Central website is now in Spanish, *Central I-9*. The Manual Para Empleadores (M-274 Handbook for Employers) and much more can be found on Central I-9. Employers and employees now have easy access in two languages to resources, tips, and guidance about Form I-9.

### Searchable E-Verify Employer Database

E-Verify made it easier for you to find enrolled employers. The new searchable database replaces the list of E-Verify employers and federal contractors. The database allows you to filter, sort and export employer results. Try it out.

### New! Employee Rights Webinars

E-Verify and the Department of Justice have introduced a new webinar about employee rights to empower worker advocates to better assist workers with issues about their rights and resources. Workers are also welcome to join and learn about Form I-9, E-Verify and Self Check. View the schedule.

### Free Employee Rights Toolkit

Worker advocates and employees can now access the Employee Rights Toolkit online for FREE! The toolkit has multi-media materials to help worker advocates and other stakeholders assist workers with the employment eligibility verification process and other important topics. Share the videos, educational brochures and more in English and Spanish. Or order your FREE copy of the DVD/CD.

### RIDE Update

E-Verify began verifying Florida driver's licenses and state identification cards in December 2012. Effective January 17, E-Verify also verifies Mississippi (MS) state identification cards. E-Verify has been verifying MS driver's licenses since June 2011. Learn more about Driver's License Verification.
