

North Dakota Driver's License and ID Card Information

North Dakota joined the Records and Information from DMVs for E-Verify (RIDE) program in June 2015 for driver's licenses and ID cards. When an employee presents a North Dakota driver's license or ID card as his or her List B document for Form I-9, E-Verify will prompt you to enter the document information and will verify it against North Dakota records.

- Select "Driver's license" as the document name in E-Verify for any North Dakota document called a **Driver License, Learner's Permit, or Commercial Driver License**.
- Select "ID card" as the document name in E-Verify for any North Dakota document called an **Identification Card**.
- North Dakota issues horizontal driver's licenses and ID cards for individuals age 21 and over and issues vertical driver's licenses and ID cards for individuals under age 21.
- North Dakota driver's licenses and ID cards contain document numbers (circled) that are nine characters- three letters followed by six numbers.
- North Dakota began issuing driver's licenses and ID cards with the current design in May 13, 2014.
- For more information on North Dakota driver's licenses and ID cards, consult the [2013 Noncommercial Driver's License Manual](#) published by the North Dakota Department of Transportation.
