

Approved L-1 Petitions by Employer - FY2018

Source: USCIS. Data as of Dec. 31, 2018. Notes: All data are based on approved petitions during the fiscal year. Per USCIS best practices, units of less than 10 are aggregated so as to limit the possibility of the de-anonymization of data. "D" represents data withheld to protect privacy. "Employer Industry" is based on the employer NAICS code, not job code. Some employer industry information is missing from our data system and thus is marked "Not Recorded". Employers with missing tax identification numbers in our system were excluded. Counts of approved petitions do not include individuals who obtained L classification through consular processing under a previously approved blanket L petition. While some company names may appear multiple times, USCIS enters data as listed on the petition and does not combine companies, even where the names are the same, because in all cases the employer tax identification numbers are different on the petition. This report includes only petitions that have L-1A, L1-B, and LZ nonimmigrant classifications. A very small number (34) L-1 petitions without specific classification for L-1A or L-1B are excluded in this report. The L-1A nonimmigrant classification refers to intracompany transfers of corporate managers and executives. The L-1B nonimmigrant classification refers to intracompany transfers of employees who possess "specialized knowledge." The LZ classification refers to "blanket" L petitions and may be used by entities involved in commercial trade or services. While the term "L-1" is used for visa issuance and admission purposes, USCIS uses the "A" and "B" distinctions internally for statistical and other purposes.
