The day-to-day business of the regional center will be handled by the Manager

Minimum Investment Amount: Under the Immigrant Investor Pilot Program, an alien can become eligible to obtain U.S. lawful permanent resident status by investing a minimum of either US\$1,000,000 or US\$500,000 in a new commercial enterprise in the United States. Liberty Regional Centers also track funds to the project measuring them against the project business plan. All of this documentation is provided to the Immigration Attorney filing the I-829 for the foreign investor.

# ATTACHMENT TO 1-924, PART 3, ITEM 8a

The regional center in its capacity as manager of each new commercial enterprise will not receive any profits from operations. None of the capital contribution funds of EB-5 investors will be used to pay the regional center entity's costs or to pay its principals or agents.

# **Regional Center Project Funding Structures**

For each capital investment project, investment capital will be contributed by individual alien investors into a single purpose LLC as a new Funding entity. Liberty Nebraska RC will be the manager for each Fund LLC. The number of investors in each LLC will be determined based on the budget and projected job creation for the project. Capital invested into a LLC will be used by the LLC to fund the development or acquisition, renovation/redevelopment, retirement of financing, and/or operation and management of one or more projects.

Each LLC will finance a capital investment project utilizing the full amount of the EB-S capital investment funds. The foreign investors will make at-risk equity investments into the new commercial enterprise. All of the EB-S investment funds they contribute will be transferred into the capital investment project and fully utilized for job creation purposes, pursuant to the project-specific business plans for each project. Further Liberty Nebraska RC will be involved in an oversight role to ensure that all investment project activities comply with the project business plans and Immigrant investor pllot program requirements. For the hypothetical hotel project we will use a debt structure of mezzanine financing as illustrated in the diagram below

# SUMMARY AND RECOMMENDATION

The estimates of new economic activity and net new jobs creation presented in this economic and jobs-impact assessment study demonstrate that the construction and operation of the hypothetical Capitol District Marriott Hotel would promote substantial economic growth within the applicant Liberty Nebraska Regional Center.

In addition, the hypothetical project would generate far more than the minimum number of jobs necessary to ensure that all potential immigrant investors reach the 10-jobs threshold.

Thus, USCIS approval of the Regional Center is recommended from an economic standpoint.

# Administrative Oversight (8 CFR 204.6)

Liberty Nebraska will manage and oversee all administrative functions of the LNERC (See R.C. Business Plan, Page 8). Mr. David Keller, LNERC executive and international development consultant, will be the member responsible for administering the LNERC and responding to USCIS requests (see Regional Center Business Plan Tab, Page 12 for Mr. Keller's biography).

Additionally, LNERC will select experienced immigration attorneys to work with all EB-5 investors, in order to ensure consistent, high-quality I-526 and I-829 petitions to USCIS. # The Business Approach and Structure of the Regional Center (INC 610(a))

# **Regional Center Project Funding Structures**

i

For each capital investment project, investment capital will be contributed by individual alien investor into a single purpose LLC as a new Funding entity. Liberty Nebraska RC will be the manager for each Fund LLC. The number of investors in each LLC will be determined based on the budget and projected job creation for the project. Capital invested into a LLC will be used by the LLC to fund the development or acquisition, renovation/redevelopment, retirement of financing, and/or operation and management of one or more projects.

Each LLC will finance a capital investment project utilizing the full amount of the EB-5 capital investment funds. The foreign investors will make at-risk equity investments into the new commercial enterprise. All of the EB-5 investment funds they contribute will be transferred into the capital investment project and fully utilized for job creation purposes, pursuant to the project-specific business plans for each project. Further Liberty Nebraska RC will be involved in an oversight role to ensure that all investment project activities comply with the project business plans and immigrant investor pilot program requirements. For the hypothetical hotel project we will use a debt structure of mezzanine financing as illustrated in the diagram below.

# Capital Investment Funds:

.

Capital investment contributed to a Capitol Fund LLC Membership will be placed into the bank account of the new commercial enterprise with an established financial institution. The administrative fee will also be placed into the bank account with the use of Liberty Nebraska RC upon receipt. (b)(4)

# Investor Management Responsibilities

Each alien investor will be Members of the LLC that finances a particular capital investment project. Members shall engage in policy formulation activities and be granted certain rights expressly afforded to them as a Member under the Delaware Limited Liability Company Act. The day to day business of the regional center will be handled by the Manager

Minimum Investment Amount: Under the Immigrant Investor Pilot Program, an alien can become eligible to obtain U.S. lawful permanent resident status by investing a minimum of either US\$1,000,000 or US\$500,000 in a new commercial enterprise in the United States. To qualify for the lower US\$500,000 investment threshold, the alien must invest his or her capital into a location that qualifies as a Targeted Employment Area ("TEA"). A TEA is defined as an area that, at the time of investment, is a rural area or an area that has experienced an unemployment rate that is at least 150 percent of the national average unemployment rate. See §203(b)(5)(B) of the Immigration and Nationality Act ("INA") and §204.6(e) of Title 8 of the Code of Federal Regulations ("8 CFR").

Thus, for capital investments in Liberty Nebraska RC projects, the minimum investment amount per EB-5 investor will be US\$500,000 since the project resides in a TEA, as indicated by the Nebraska TEA letter found in Exhibit H, Pursuant to 8 CFR §204.6(j)(6)(ii).

Hypothetical Capital Investment Projects: Liberty Nebraska RC will engage in funding of projects, which may involve construction, development, operations, retirement of financing and/or management of projects. Liberty Nebraska RC has one initial hypothetical project, referred to in this application as "hypothetical" since their precise details have not yet been finalized

(b)(4)

The attached application includes sample legal documents (Subscription Agreement, Private Placement Memorandum, etc.) to illustrate the investment structure for prospective EB-5 investors.

# Regional Center Capital Commitment and Marketing (8 CFR 204.6 (m)(3)(iii))

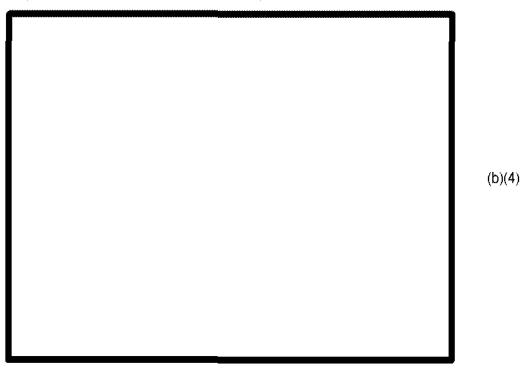

The principals of the Company will market the Liberty Nebraska Regional Center both domentically and internationally to maximize the economic and employment benefits within the regional center (EXHIBIT G). Internationally, the Company will market to potential EB-5 investors through seminars, trade shows, immigration consults and law firms, and through direct and online marketing campaigns. Domestically, the Company endeavors a public relations campaign to raise the Regional Center's profife with local government officials and businesses. The members of the company will provide the capital commitment necessary to launch the Regional Center promotion.

# **Financial Management**

(b)(4)

Liberty Nebraska RC has committed **and** to cover the initial projected promotional and operational expenses of the regional center operations. Ongoing operational costs of Liberty Nebraska RC will continue to be paid by Liberty Nebraska RC until such time as administrative fees are collected from investors (which are in addition to and apart from capital investment funds), and as otherwise needed. In no event will such costs be funded using capital investment amounts. Funding for capital investment projects within Liberty Nebraska RC will be separate from funding for Liberty Nebraska RC's operational costs:

The Liberty Nebraska Regional Center, LLC is organized by means of a duly executed operating agreement and will be managed according to terms of that agreement.

Multiple economic development and labor agencies, designated by their respective Governors – in compliance with 8 C.F.R. 204.6 (i), as the agency authorized to identify the cities, countries, metropolitan statistical areas (MSAs) and geopolitical subdivisions (census tracts) that meet the "high unemployment" definition – provided letters certifying high unemployment areas or procedures for which these areas would be certified for future projects. These high unemployment areas quality as Targeted Employment Areas (TEAs), which reduce the minimum EB-5 investment required under the regulations \$500,000. A letter from each state agency is included to delineate the respective TEAs within the Liberty West Regional Center (EXHIBIT G). This information or described protocol should be sufficient for USCIS to identify whether a proposed EB-5 investment opportunity is located in a TEA, or how the state agency will make known a specific project is located in TEA for an I-526 exemplar, and therefore, qualified for the \$500,000 investment amount permitted under 8 CFR 204.6(f)(2). A letter certifying the TEA qualifications for future *specific* EB-5 projects will be included as part of an I-526 exemplar.

## Letter of Transmittal

April 17, 2013

Mr. Jay Carter Liberty Nebraska Regional Center LLC 17470 N. Pacesetter Way Scottsdale, AZ 85255

Dear Mr. Carter:

(b)(4)

Attached with this letter is the economic and jobs-creation impact assessment analysis that our firm prepared at your request regarding the project to be developed in Omaha, Nebraska. The report is intended to aid the proposed Liberty Nebraska Regional Center, LLC with its application to the U.S. Citizenship and Immigration Service's EB-5 Immigrant Investor Program. In the report you will find an explanation of the findings and the methods employed in the economic and jobs-creation impact assessment analysis.

We have prepared our analysis using assumptions and estimates developed from third party data sources, information you provided, and research and knowledge of the industry and region from our many years of applied economic practice. Where we have accepted third-party project data and project information from you and your team, we have assumed said information to be correct without further in-depth validation. In completing our analysis, we have performed a number of tests and cross checks to verify the internal consistency of the results and find those results to be reasonable. However, changing events and circumstances may cause actual results to be materially different than those reported here.

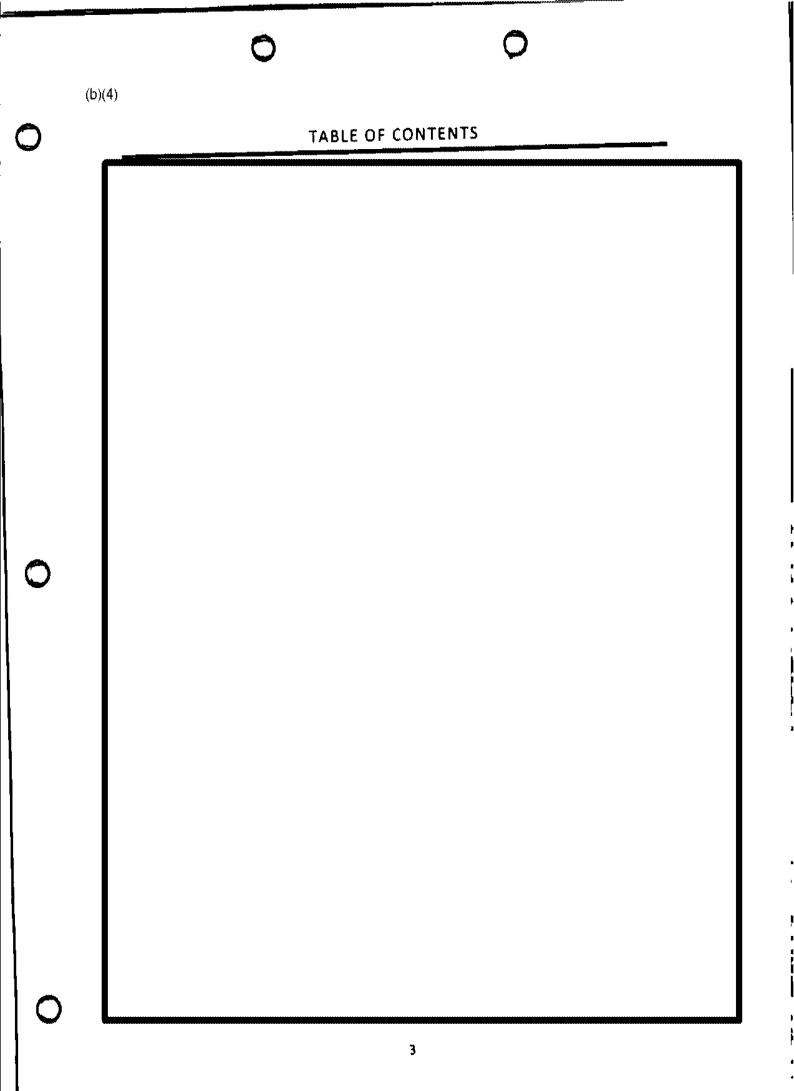

Thank you for the chance to work with you on this important project.

Sincerely,

War Flym

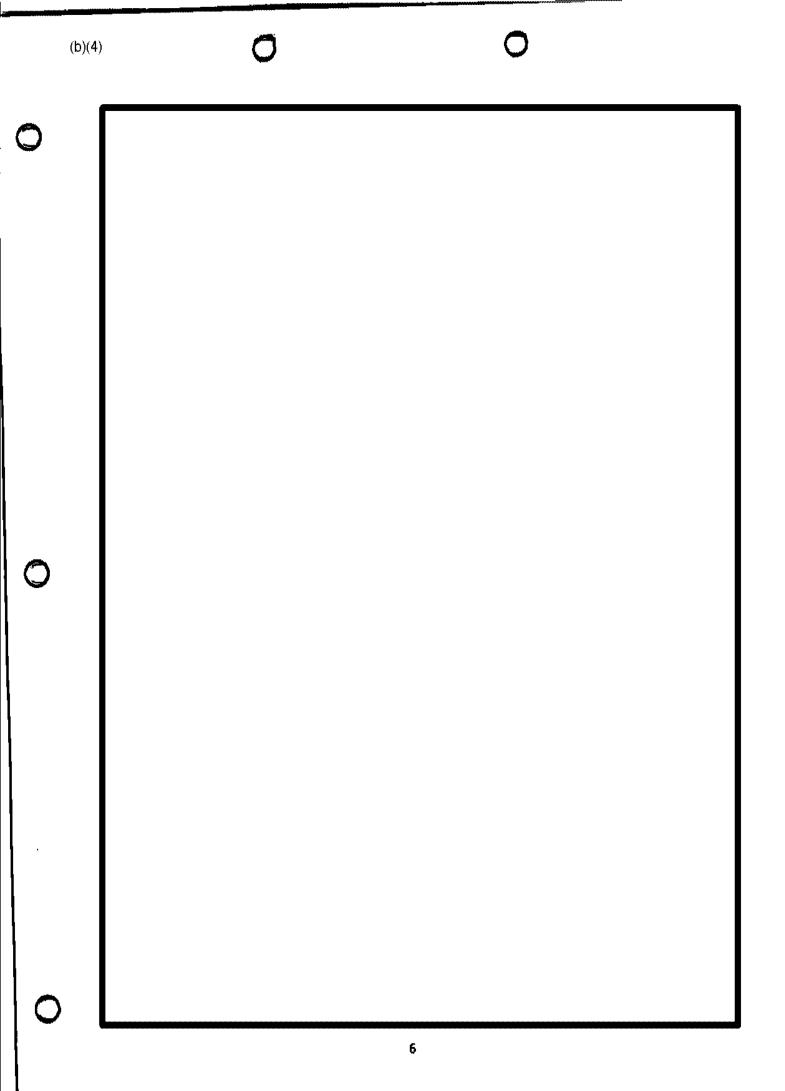

Sean Masaki Flynn, Ph.D. Impact Econometrics 250L College Park Drive #L34 Upland, CA 91786

- Surpassing this threshold would allow MECA the opportunity for more events in the current facility as well as lay the foundation to physically expand the CenturyLink Center.

RE: New Market Tax Credits for the Capitol District Project

Dear Mr. Moylan:

The Capitol District is an exciting redevelopment project in Downtown Omaha. The vision of this development will help carry the City of Omaha far into the future.

(b)(4)

The Planning Department and Economic Development-staff is very supportive of your efforts to obtain New Market Tax Credits (NMTC) for the proposed In addition, the Hotel will spin off an additional Information of development adjacent to the Hotel, but only if the Hotel is built. Our support of your effort to obtain NMTC is based on the following reasons:

- The Downtown Omaha 2030 Master Plan, adopted in 2009, identifies the redevelopment of this location as critical to the future of Downtown. The Capitol District's density is key to connect the following surrounding Downtown districts: The Old Market, the Entertainment District including CenturyLink/TD Ameritrade Park, the Central Business District to the west, and the emerging North Downtown District.
- The Capitol District is a high profile, high impact redevelopment project for the future of Downtown Omaha and the community as a whole and will be the catalyst for more redevelopment in Downtown.
- The site falls into the National Census Bureau's highest level category of distressed areas.

- The mixed-use Capitol District development project.
- Middle market economies like Omaha cannot feasibly build full service hotels for the foreseeable future without financial incentives. Receiving NMTC for the Hotel is the only way the Hotel can be built with the state of our local and national economy.
- Omaha civic leaders recognize more full-service hotel product must be built to balance our market.

Dear Mr. Moylan,

Thank you for the opportunity to review the Executive Summary for the proposed redevelopment project, The Capitol District, in Downtown Omaha.

Please accept my strongest possible support of the proposed redevelopment, beginning with the development of a full service Marriott Hotel. As the cornerstone of The Capitol District, the Hotel is important to the future of Downtown Omaha.

This project positively impacts an area that falls into the National Census Bureau's highest level category of distressed areas. Additionally, successful development of this area will result in hundreds of construction jobs and even more permanent jobs, spurring substantial economic growth.

A hotel of this magnitude is critical to reaching an accommodation threshold that will allow Ornaha to compete for larger events and conventions. Not only will this project impact the local economy, but it will boost Omaha to a more prominent position on the national stage.

1 enthusiastically support The Capitol District and hope that the development is given strong support and consideration as a catalyst for jump-starting rejuvenation of our urban Downtown Omaha core.

CONVENTION & VISITORS BUREAU

February 10, 2012

Michael T. Moylan Shamrock Development, Inc. 1414 Harney Street Suite 400 Omaha, NE 68102

Dear Mr. Moylan,

It is with tremendous enthusiasm that I write in support of the redevelopment project known as The Capital District. Your firm, Sharnrock Development Incorporated has long been active in developing Omaha's brand of unique hospitality and this proposed development puts an exclamation point on Omaha's destination appeal.

As the Omaha Convention and Visitors Bureau travels the country promoting Omaha's convention amenities, typically the first question asked is, "how many delegates can you accommodate?" We know that our convention center can host a group of 2,000, but our full service hotel accommodations can only support 450 hotel rooms per night. We can add another 300 rooms per night if the delegates are willing to walk eight blocks to our other established hotel, the Downtown DoubleTree. We find that once we explain our convention hotels are eight blocks apart we are no longer competitive with other cities '3 block walking distance' hotel packages.

The competitive advantages that an additional 350 room Marriott Hotel would provide our city are:

- 950 full service hotel rooms within acceptable walking distance from our convention center. Convention
  delegates prefer full service hotels, with restaurant and retail amenities under one roof.
- Availability to host an additional 350+ visitors daily, boosting our local economy significantly. Our recent
  economic impact study shows each overnight visitor spends \$119 per night in our city.
- A strengthened variety of hotel brand in our downtown. Currently, we do not have a full service Marriott brand downtown. The large number of Marriott reward program members considers this a competitive disadvantage. In addition, the Marriott brand consistently delivers upscale accommodations and service which will add to our destination attractiveness.
- Additional meeting room space will provide convention planners options for various gatherings.

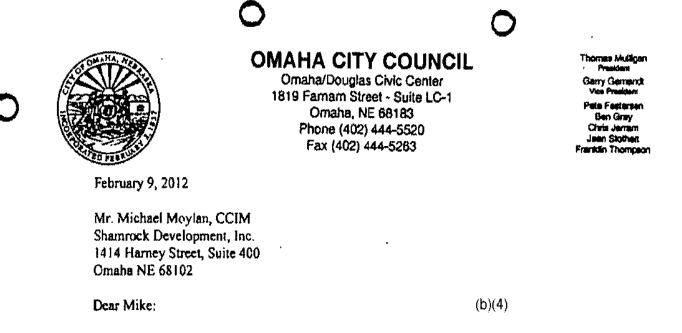

Within the last 10 years, Omaha has become a new convention and leisure destination. Your development will help our city capitalize on this new found recognition and provide a much needed revenue source.

Thank you for your initiative on this exciting development and please don't hesitate to contact me if I can provide assistance.

Sincerely,

oins Markel

As the Councilmember representing District #2 in the North Omeha Downtown area. Len writing in support of your Capital District project to build a by the CenturyLink Center in downtown Omaha. Specifically, 1 am writing in support of your application for a Federal New Market Credit (NMTC) allocation.

(b)(4) This content of the two project will enhance the many efforts that are currently underway by the Empowerment Network, Omaha 360, Impact One and many other community organizations to help end the cycle of poverty and rebuild North Omaha. The construction project alone will create over the obs while a full-service hotel in North downtown Omaha will create hundreds of sustainable jobs in an area where poverty is the highest in the country.

In addition, a full-service hotel will serve as a catalyst for the City of Omaha to attract a larger convention audience to the CenturyLink Center and potentially create another (b)(4)direct development immediately/adjacent to the hotel for an additions dermanent (b)(4)jobs. Awarding an NMTC allocation to build the will single handily keep the momentum that has already been created and give residents of North Omaha more hope than ever that the cycle of poverty is a thing of the past.

It is my understanding that an NMTC allocation is vital to this project so I would respectfully encourage the Committee to award The Capital District allocations for inclusion in 2012. Let's work together.

Dear FMTC application committee: \*

I am pleased to write this letter in support of The Capitol District redevelopment project in downtown Omaha and its application for Federal New Market Tax Credits.

(b)(4)

This project is very important to our community for many reasons. The additional rooms provided by the full service will allow Omaha to bid and secure large conventions, which would bring tourism dollars and would expose individuals to Omaha as a place to do business, work and live. In addition, this project will create jobs, spur economic growth and add to the overall vibrancy in our city that is alive and growing.

The Greater Omaha Chamber and the city of Omaha led the development of a master plan for an 80-block area, known as North Downtown Omaha, covering nearly 300 acres directly between CenturyLink Center Omaha and Creighton University. The study showed a need for more full service hotels in downtown Omaha in order to compete for conventions with comparative cities and it provided a framework for new development, which has stimulated development in the area including offices space, retail, restaurants, small-scale hotels and TD Ameritrade Park Omaha – the home of NCAA's Men's College World Series.

Omaha is also home of five Fortune 500 companies. ConAgra Foods and Union Pacific are located downtown. Mutual of Omaha, Kiewit and Berkshire Hathaway Inc. are located just west of downtown in the Midtown district. Downtown is also the center of the performing and visual arts in Omaha, including the Holland Performing Arts Center and Orpheum Theater, plus dozens of small galleries, theaters and dance companies. In addition, CenturyLink Center Omaha draws groups such as U2, the Rolling Stones and Coldplay and hosted the U.S. Olympic Team Trials for Swimming in 2008 and will again in 2012, plus the U.S. Figure Skating Championships, The International Equestrian Event and NCAA Men's Division I Basketball.

Despite this growth and energy, we are still hindered in the ability to attract high caliber conventions because of our tack of full service hotel rooms. This project is not possible without the support of an allocation of Federal NMTC, thus I urge you to please consider The Capitol Project. Thank you for your time and consideration!

Dear Mr. Moylan:

I write in support of <u>vour annlication</u> for Federal New Market Tax Credits (NMTC) critical to the construction of the the implementation of The Capitol District mixed use development.

The City of Omaha's Downtown Master Plan lays the framework for a highly dense, urban setting, with a variety of districts blended together into a vibrant and active downtown community. The Capitol District is a major step toward achieving that vision by bringing a combination of hotel rooms, retail, office space and residential units to a critical area at the intersection of a number of local districts. In addition to the influx of visitors, residents, employees and activity this development will attract downtown, this multi-million dollar investment will provide a major boost to the local economy and employee hundreds of people throughout construction and during operation. (b)(4)

Specifically, the proposed will serve as a lasting investment in the downtown community. It will better position Omaha in ongoing efforts to attract conventions, meetings and travelers. The benefits of growing our convention and tourism industry will reach the numerous small businesses located in downtown Omaha, the Old Market and North Downtown, and spur future development of underutilized properties.

With the support of Federal New Market Tax Credits, I am confident you will be successful in the development of the Marriott Hotel and the entire Capitol District. I look forward to the implementation of this project, its lasting impact on downtown Omaha and the future growth that will result from this investment.

Dear Mr. Moylan,

I am writing in regard to the redevelopment project in Downtown Omaha known as The Capitol District. I support completion of the project, recognizing its potential benefits for the community and our state.

I am aware that the City of Omaha chose this site for a new hotel, knowing that the nearby CenturyLink Convention Center has been successful, but constrained from attracting larger conventions by a lack of hotel capacity. Officials in Omaha have indicated that an additional hotel would allow the city to bid and secure larger conventions. This could spur economic growth and increase tourism opportunities in an area categorized by the National Census Bureau to be under the highest level of distress. In addition, I am confident development and completion of this project would provide direct investment and new employment opportunities in the Downtown Omaha community.

I am pleased to hear of your interest in building the hotel and applaud your efforts to play a role in enhancing the Omaha community.

Dear Mike:

As President of the Omaha Federation of Labor, AFL-CIO, I want to extend my full support of The Capitol District redevelopment project and for the 350 room full-service Marriott Hotel in its pursuit for a Federal New Market Tax Credit (NMTC) allocation. (b)(4)

(b)(4) (b)(4) The project will be a direct investment of and will be the driving force for an additional and new development directly adjacent to the hotel and the CenturyLink Convention Center Omaha. The will produce approximately full- and part-time hospitality jobs in northeast Omaha – an area which ranks among the poorest in the United States. Also, the and adjacent mixed-use developments will add nearly well-paid construction industry jobs during the course of this Project.

(b)(4)

As a former board member of the Metropolitan Entertainment and Convention Authority (MECA), I understand the significance that a new full service hotel will bring to our community's efforts in recruiting nationally competitive conventions. The new will increase the supply of fullservice hotel rooms to a total of 950 rooms directly beside the CenturyLink Convention Center, which is an important threshold when recruiting top tier conventions in Ornaha. The City's ability to compete for quality conventions will have a sustainable future economic impact of great proportion.

I strongly support The Capitol District and the Marriott Hotel projects as it will bring much needed economic investment and hundreds of new jobs to the Omaha community. I respectfully encourage the Committee to consider a NMTC allocation for the Marriott Hotel as this project and the additional development will not proceed without this important source of funding. I thank you for your consideration.

Respectfully,

MOOLE

Dear Application Committee:

I am honored to be writing a letter in support for the Capitol District redevelopment project for downtown Omaha, and its application for Federal New Market Tax Credits.

As a legislator, I realize the importance of tourism for economic development. Tourism is Nebraska's third largest industry. Each dollar spent by tourists in Nebraska is re-spent in the state to produce an additional \$1.70 in business and income, creating an overall economic impact of \$2.70. Over 60% of the people visiting Nebraska stay at hotels.

I am proud of the events we are able to attract to Omaha, but without the additional rooms being built with this hotel, Omaha will continue to lose out on conventions and the revenue they bring into our state.

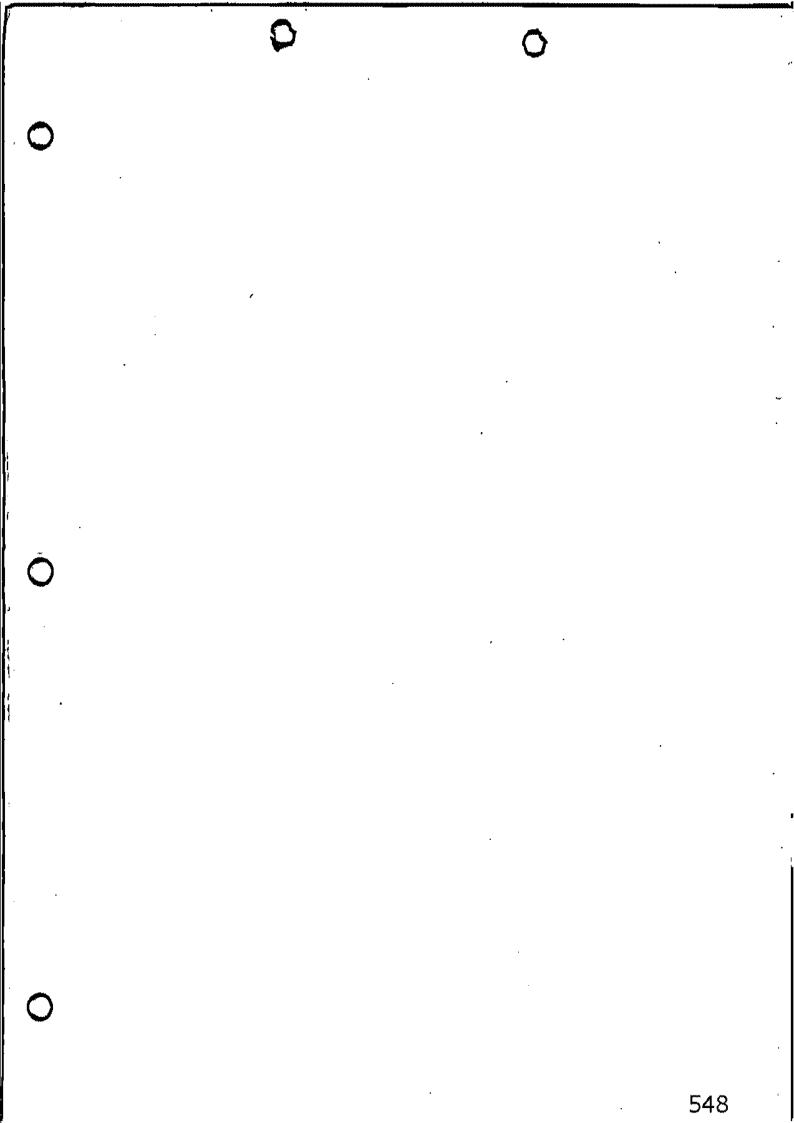

The Capitol District is an important and integral part of growing our local and state economy. It will continue to revitalize the downtown area, and will increase tourism to Omaha. The Capitol District will also create jobs, help grow the economy, and showcase our city. It will be a catalyst for an additional n investments adjacent to the (b)(4)

This project is important to our state and I encourage you to please consider this project for financing. Thank you for your time in this matter.

Sincerely,

Gue J. Har
