What is the purpose of Form N-648?

This form is filled out and certified by certain medical professionals on behalf of applicants who are requesting an exception from the English and/or civics requirements for naturalization because of a disability and/or impairment.

Definition of Disability and/or Impairment(s) for Exception from Literacy Requirements

An applicant is eligible for this exception if they are unable to learn and/or demonstrate knowledge of English and/or U.S. history and civics because of a physical or developmental disability, or mental impairment (or a combination of impairments). The disability and/or impairment must result from anatomical, physiological, or psychological abnormalities, which can be shown by medically acceptable clinical and laboratory diagnostic techniques. The disability and/or impairment must result in functioning so impaired that the applicant is unable to demonstrate the required knowledge.

NOTE: The definition of disability used for this exception may be different from the definition used for other purposes (for example, for Social Security Administration programs, Department of Veterans Affairs programs, and state worker’s compensation programs). If your responses do not address how the applicant’s disability affects their ability to learn English and civics, we will request that the applicant submit a revised or second Form N-648 with the required information.

Who should submit Form N-648 and when?

Applicants for naturalization seeking an exception to the English and/or civics requirements for naturalization because of a physical or developmental disability or mental impairment should submit this form when they file Form N-400, Application for Naturalization, with U.S. Citizenship and Immigration Services (USCIS). Applicants whose N-648 has been found sufficient do not have to fulfill the English and/or civics requirements if they cannot do so because of a physical or developmental disability or mental impairment. (See Immigration and Nationality Act (INA) section 312(b)(1)). USCIS may not consider a Form N-648 if the certifying medical professional completed this form more than 180 days before the submission of Form N-400 to USCIS.

Who should not submit Form N-648?

Applicants who can satisfy the English and civics requirements for naturalization with reasonable accommodations provided under the Rehabilitation Act of 1973 do not need to submit this form. Reasonable accommodations include, but are not limited to, sign language interpreters, extended time for testing, and off-site examination. Applicants may request a disability accommodation online at uscis.gov/accommodations or by calling the USCIS Contact Center at 800-375-5283 (TTY 800-767-1833). However, if you are unable to complete the English and/or civics requirements even with an accommodation, you must file Form N-648 to request an exception from these requirements. Illiteracy and advanced age alone are not valid reasons to seek an exception from the English and/or civics requirements. For additional information, go to www.uscis.gov/about-us/disability-accommodations-for-the-public.
How to Complete This Form

The certifying medical professional must have conducted an examination of the applicant before certifying Form N-648. **Parts 1. - 3.** must be completed and certified by a licensed medical professional. If a telephonic or video facilitated interpreter was used, the certifying medical professional must also complete **Part 5. Interpreter Information and Certification.**

USCIS may accept a Form N-648 certified by an authorized medical professional who completed the applicant’s medical examination through telehealth. The medical professional should be licensed, and telehealth examinations should be synchronous, real-time interactions between the medical professional and the applicant.

The applicant for naturalization must complete **Part 6. Applicant’s (Patient’s) Attestation/Release of Information.**

The certifying medical professional must answer all questions and items fully and accurately. USCIS will not accept an incomplete Form N-648. If handwritten, all responses must be legible and written in black ink. USCIS recommends that the certifying medical professional use the electronic Form N-648 located in the “FORMS” section at [www.uscis.gov/n-648](http://www.uscis.gov/n-648). The certifying medical professional must provide the completed form to the applicant for submission to USCIS. For electronic filing of naturalization applications, the N-648 may be uploaded as additional evidence.

Failure to provide all information requested on the form may result in USCIS determining that the form is insufficient. In addition to providing a detailed assessment of any of the applicant’s physical or developmental disabilities or mental impairments that may affect the applicant’s ability to successfully complete the English and/or civics requirements, the certifying medical professional completing the form may attach supporting medical diagnostic reports or records. However, these attachments may not take the place of written responses to each question or item on Form N-648.

Information the certifying medical professional (you) should include in **Part 3. Information about Disabilities and/or Impairments:**

Information Needed for **Item Number 1.**

You should provide the clinical diagnosis of the applicant’s medical disability and/or impairment that forms the basis for seeking an exception to the English and/or civics requirements.

Also, in **Item Number 1.**, the certifying medical professional needs to explain, in as much detail as possible, how each disability and/or impairment prevents the applicant from learning English and/or civics. In other words, you should explain how the disability and/or impairment causes the applicant’s inability to learn English and/or civics.

Responses should use clear and common terminology, without abbreviations, that a person without medical training can understand. For example: “The patient’s condition is a global, lifelong impairment that severely affects cognition, language, and motor skills. Because of this impairment, the patient’s memory is deficient, the patient cannot learn new skills, and the patient is not capable of reasoning. The patient is only able to perform simple daily activities. The patient’s severe intellectual disability makes the patient incapable of learning a new language (even basic words) and demonstrating the required knowledge of U.S. history and government.”

Information Needed for **Item Number 2.**

Explain which clinical methods or laboratory diagnostic techniques you used to diagnose each of the applicant’s medical disability and/or impairments.

For example: “The patient was diagnosed *in utero* through a Chorionic Villus Sampling (CVS). CVS is a test done during early pregnancy that can identify certain genetic disorders or chromosomal birth defects, such as ‘Severe intellectual disabilities.’ I confirmed this by reviewing medical records provided by the patient.”
Part 4. Ability to Understand Oath of Allegiance

Information Needed for Item Number 1.

In order to obtain an oath waiver because of a medical disability, an applicant must have a legal guardian, surrogate, or designated representative to complete the naturalization process. In the absence of a legal guardian or surrogate, a U.S. citizen spouse, parent, adult son or daughter, or adult brother or sister who is the primary custodial caregiver and who takes responsibility for the applicant can serve as the designated representative.

Part 5. Interpreter Information and Certification. If in-person interpretation services were used during the medical examination, the interpreter must fill out this section and sign and date the certification. If telephonic interpretation services were used during the medical examination, the certifying medical professional must complete all items in this section, except Item Number 6.
