IN RE: Petitioner:   
Beneficiary: 

PETITION: Immigrant Petition for Alien Worker as a Member of the Professions Holding an Advanced Degree or an Alien of Exceptional Ability Pursuant to Section 203(b)(2) of the Immigration and Nationality Act, 8 U.S.C. § 1153(b)(2)

ON BEHALF OF PETITIONER:

INSTRUCTIONS:

Enclosed please find the decision of the Administrative Appeals Office in your case. All of the documents related to this matter have been returned to the office that originally decided your case. Please be advised that any further inquiry that you might have concerning your case must be made to that office.

If you believe the AAO inappropriately applied the law in reaching its decision, or you have additional information that you wish to have considered, you may file a motion to reconsider or a motion to reopen in accordance with the instructions on Form I-290B, Notice of Appeal or Motion, with a fee of \$630. The specific requirements for filing such a motion can be found at 8 C.F.R. § 103.5. **Do not file any motion directly with the AAO.** Please be aware that 8 C.F.R. § 103.5(a)(1)(i) requires any motion to be filed within 30 days of the decision that the motion seeks to reconsider or reopen.

Thank you,

Ron Rosenberg  
Acting Chief, Administrative Appeals Office

**DISCUSSION:** The employment-based immigrant visa petition was denied by the Director, Nebraska Service Center (Director). It is now on appeal before the Chief, Administrative Appeals Office (AAO). The appeal will be dismissed.

The petitioner is an importer and marketer of footwear products. It seeks to employ the beneficiary permanently in the United States as a market research analyst pursuant to section 203(b)(2) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1153(b)(2). As required by statute, the petition was accompanied by an Application for Permanent Employment Certification, ETA Form 9089, certified by the United States Department of Labor (DOL).

Section 203(b)(2) of the Act provides for immigrant classification to members of the professions holding advanced degrees or their equivalent and whose services are sought by an employer in the United States. The regulation at 8 C.F.R. § 204.5(k)(2) defines “advanced degree” as follows:

*Advanced degree* means any United States academic or professional degree or a foreign equivalent degree above that of baccalaureate. A United States baccalaureate degree or a foreign equivalent degree followed by at least five years of progressive experience in the specialty shall be considered the equivalent of a master's degree. If a doctoral degree is customarily required by the specialty, the alien must have a United States doctorate or a foreign equivalent degree.

In denying the petition the Director found that [REDACTED] in [REDACTED] California – the institution that awarded the beneficiary a “Master of Business Administration” in 2010 — is not accredited by an accrediting agency or association recognized by the U.S. Department of Education (DoEd). The Director concluded, therefore, that the beneficiary's degree does not qualify her for classification as an advanced degree professional.

### **Factual and Procedural History**

The immigrant visa petition, Form I-140, was filed on March 16, 2011. Documentation submitted with the petition included copies of a diploma and a transcript showing that the beneficiary was awarded a Master of Business Administration (MBA) by [REDACTED] in [REDACTED] of June 28, 2010, following her completion of a three-semester, ten-course degree program from the summer of 2009 through the spring of 2010.

In a Request for Evidence (RFE) issued on December 1, 2011, the Director requested the petitioner to submit evidence of the beneficiary's education prior to her master's degree program at [REDACTED] as well as evidence that [REDACTED] is an accredited institution with international recognition. The Director also requested an advisory evaluation of the U.S. equivalency of the beneficiary's educational credentials. Finally, the Director requested additional evidence of the petitioner's ability to pay the proffered wage to supplement the documentation submitted with the petition.

In response to the RFE the petitioner submitted educational records showing that the beneficiary was awarded a "Bachelor of Arts and Science with Majors in Mathematics-Applied Science and

Economics" by the [REDACTED] on December 16, 2005. As evidence of [REDACTED] status counsel for the petitioner submitted a document from the Bureau for Private Postsecondary Education (BPPE) in California listing the school's approved programs, which included an MBA degree program as of July 6, 2006. Counsel stated that [REDACTED] has been approved by U.S. Citizenship and Immigration Services (USCIS) to enroll foreign students,<sup>1</sup> that [REDACTED] is recognized by distinguished foreign universities, and that [REDACTED] is a member of multiple educational organizations such as the California Business Education Association (CBEA), the Consortium of American Schools, Colleges and Universities (CASCU), the Council for Adult and Experiential Learning (CAEL), and the American Association for School Personnel Administrators (AASPA). Counsel also submitted an "Educational Credentials Evaluation" of the beneficiary's studies at [REDACTED] from a U.S. educator, [REDACTED]. In addition, counsel submitted a copy of the petitioner's federal income tax return (Form 1120S) for 2010.

The Director denied the petition on April 4, 2012, stating that USCIS does not recognize a degree from an institution not accredited by an agency or association recognized by the DoEd. The beneficiary's MBA, the Director pointed out, comes from an institution – [REDACTED] – that does not appear in the DoEd's Database of Accredited Postsecondary Institutions and Programs. Nor was [REDACTED] accredited by an accreditation body recognized by the Council on Higher Education Accreditation. [REDACTED] approval by DHS to enroll foreign students and by California's BPPE to conduct particular degree programs did not constitute accreditation by a DoED recognized accrediting body. Nor did [REDACTED] membership in various educational organizations involve any accreditation of the school. The Director found little or no evidentiary weight in the evaluation of the beneficiary's educational credentials by [REDACTED]. The Director concluded that the beneficiary did not qualify for classification as an advanced degree professional under the Act.

Counsel for the petitioner filed a timely appeal, Form I-290B, and supporting documentation. Counsel claims that [REDACTED] approval by the State of California's BPPE amounts to accreditation, and that [REDACTED] approval by DHS to enroll foreign students in the Student Exchange and Visitor Program (SEVP) along with its membership in myriad educational organizations attests to the quality of the institution.

The AAO conducts appellate review on a *de novo* basis. See *Soltane v. DOJ*, 381 F.3d 143, 145 (3d Cir. 2004). The issues on appeal are twofold:

- Whether the beneficiary's educational credential from [REDACTED] makes her eligible for classification as an "advanced degree professional" under section 203(b)(2) of the Act.
- Whether the beneficiary's degree from [REDACTED] accords with the job requirements set forth on the ETA Form 9089 (labor certification) to qualify her for the proffered position.

---

<sup>1</sup> Actually, it is not USCIS, but another component within the Department of Homeland Security – U.S. Immigration and Customs Enforcement (ICE) – that performs this function.

### Eligibility for the Classification Sought

The ETA Form 9089 in this case was accepted for processing by the DOL on October 24, 2010, and certified by the DOL on December 2, 2010. The DOL's role is limited to determining whether there are sufficient workers who are able, willing, qualified and available and whether the employment of the alien will adversely affect the wages and working conditions of workers in the United States similarly employed. See Section 212(a)(5)(A)(i) of the Act; 20 C.F.R. § 656.1(a).

It is significant that none of the above inquiries assigned to the DOL, or the remaining regulations implementing these duties under 20 C.F.R. § 656, involve a determination as to whether or not the alien is qualified for a specific immigrant classification or even the job offered. This fact has not gone unnoticed by federal circuit courts. See *Tongatapu Woodcraft Hawaii, Ltd. v. Feldman*, 736 F. 2d 1305, 1309 (9<sup>th</sup> Cir. 1984); *Madany v. Smith*, 696 F.2d 1008, 1012-1013 (D.C. Cir. 1983).

A United States baccalaureate degree is generally found to require four years of education. See *Matter of Shah*, 17 I&N Dec. 244 (Reg'l. Comm'r. 1977). This decision involved a petition filed under 8 U.S.C. §1153(a)(3) of the Act, as amended in 1976. At that time, this section provided:

Visas shall next be made available . . . to qualified immigrants who are members of the professions . . . .

The Immigration Act of 1990 Act added section 203(b)(2)(A) to the Act, 8 U.S.C. §1153(b)(2)(A), which provides:

Visas shall be made available . . . to qualified immigrants who are members of the professions holding advanced degrees or their equivalent . . . .

Significantly, the statutory language used prior to *Matter of Shah*, 17 I&N Dec. at 244, is identical to the statutory language used subsequent to that decision but for the requirement that the immigrant hold an advanced degree or its equivalent. The Joint Explanatory Statement of the Committee of Conference, published as part of the House of Representatives Conference Report on the Act, provides that "[in] considering equivalency in category 2 advanced degrees, it is anticipated that the alien must have a bachelor's degree with at least five years progressive experience in the professions." H.R. Conf. Rep. No. 955, 101<sup>st</sup> Cong., 2<sup>nd</sup> Sess. 1990, 1990 U.S.C.C.A.N. 6784, 1990 WL 201613 at 6786 (Oct. 26, 1990).

At the time of enactment of section 203(b)(2) of the Act in 1990, it had been almost thirteen years since *Matter of Shah* was issued. Congress is presumed to have intended a four-year degree when it stated that an alien "must have a bachelor's degree" when considering equivalency for second preference (advanced degree professional) immigrant visas. We must assume that Congress was aware of the agency's previous treatment of a "bachelor's degree" under the Act when the new classification was enacted and did not intend to alter the agency's interpretation of that term. See *Lorillard v. Pons*, 434 U.S. 575, 580-81 (1978) (Congress is presumed to be aware of administrative

and judicial interpretations where it adopts a new law incorporating sections of a prior law). See also 56 Fed. Reg. 60897, 60900 (Nov. 29, 1991) (an alien must have at least a bachelor's degree).

In 1991, when the final rule for 8 C.F.R. § 204.5 was published in the Federal Register, the Immigration and Naturalization Service (INS) responded to criticism that the regulation required an alien to have a bachelor's degree as a minimum and that the regulation did not allow for the substitution of experience for education. After reviewing section 121 of the Immigration Act of 1990, Pub. L. 101-649 (1990), and the Joint Explanatory Statement of the Committee of Conference, the INS specifically noted that both the Act and the legislative history indicate that an alien must have at least a bachelor's degree:

The Act states that, in order to qualify under the second classification, alien members of the professions must hold "advanced degrees or their equivalent." As the legislative history . . . indicates, the equivalent of an advanced degree is "a bachelor's degree with at least five years progressive experience in the professions." Because neither the Act nor its legislative history indicates that bachelor's or advanced degrees must be United States degrees, the Service will recognize foreign equivalent degrees. But both the Act and its legislative history make clear that, in order to qualify as a professional under the third classification or to have experience equating to an advanced degree under the second, *an alien must have at least a bachelor's degree.*

56 Fed. Reg. 60897, 60900 (Nov. 29, 1991) (emphasis added).

There is no provision in the statute or the regulations that would allow a beneficiary to qualify under section 203(b)(2) of the Act as a member of the professions holding an advanced degree with anything less than a full baccalaureate degree (plus five years of progressive experience in the specialty). More specifically, a three-year bachelor's degree will not be considered to be the "foreign equivalent degree" to a United States baccalaureate degree. *Matter of Shah*, 17 I&N Dec. at 245. Where the analysis of the beneficiary's credentials relies on work experience alone or a combination of multiple lesser degrees, the result is the "equivalent" of a bachelor's degree rather than a "foreign equivalent degree."<sup>2</sup> In order to have experience and education equating to an advanced degree under section 203(b)(2) of the Act, the beneficiary must have a single degree that is the "foreign equivalent degree" to a United States baccalaureate degree (plus five years of progressive experience in the specialty). See 8 C.F.R. § 204.5(k)(2).

The degree must also be from a college or university. The regulation at 8 C.F.R. § 204.5(k)(3)(i)(B) requires the submission of an "official academic record showing that the alien has a United States baccalaureate degree or a foreign equivalent degree" (plus evidence of five years of progressive

<sup>2</sup> Compare 8 C.F.R. § 214.2(h)(4)(iii)(D)(5) (defining for purposes of a nonimmigrant visa classification, the "equivalence to completion of a college degree" as including, in certain cases, a specific combination of education and experience). The regulations pertaining to the immigrant classification sought in this matter do not contain similar language.

experience in the specialty). For classification as a member of the professions, the regulation at 8 C.F.R. § 204.5(l)(3)(ii)(C) requires the submission of “an official college or university record showing the date the baccalaureate degree was awarded and the area of concentration of study.” The AAO cannot conclude that the evidence required to demonstrate that an alien is an advanced degree professional is any less than the evidence required to show that the alien is a professional. To do so would undermine the congressionally mandated classification scheme by allowing a lesser evidentiary standard for the more restrictive visa classification. *See Silverman v. Eastrich Multiple Investor Fund, L.P.*, 51 F.3d 28, 31 (3<sup>rd</sup> Cir. 1995) *per APWU v. Potter*, 343 F.3d 619, 626 (2<sup>nd</sup> Cir. Sep 15, 2003) (the basic tenet of statutory construction, to give effect to all provisions, is equally applicable to regulatory construction). Moreover, the commentary accompanying the proposed advanced degree professional regulation specifically states that a “baccalaureate means a bachelor’s degree received *from a college or university*, or an equivalent degree.” (Emphasis added.) 56 Fed. Reg. 30703, 30306 (July 5, 1991).<sup>3</sup>

While the regulatory language of 8 C.F.R. § 204.5(k)(2) does not specifically state that a degree must come from an accredited college or university to qualify as an “advanced degree,” that requirement is implicit in the regulation. As stated by the DoEd on its website:

The U.S. Department of Education does not accredit educational institutions and/or programs. However, the Secretary of Education is required by law to publish a list of nationally recognized accrediting agencies that the Secretary determines to be reliable authorities as to the quality of education or training provided by the institutions of higher education and the higher education programs they accredit. An agency seeking national recognition . . . must meet the Secretary’s procedures and criteria for the recognition of accrediting agencies, as published in the *Federal Register* . . . . The Secretary . . . makes the final determination regarding recognition.

The United States has no . . . centralized authority exercising . . . control over postsecondary educational institutions in this country. . . . [I]n general, institutions of higher education are permitted to operate with considerable independence and autonomy. As a consequence, American educational institutions can vary widely in the character and quality of their programs.

. . . [T]he practice of accreditation arose in the United States as a means of conducting nongovernmental, peer evaluation of educational institutions and programs. Private educational associations of regional or national scope have adopted criteria reflecting the qualities of a sound educational program and have developed procedures for

---

<sup>3</sup> *Cf.* 8 C.F.R. § 204.5(k)(3)(ii)(A) (relating to aliens of exceptional ability requiring the submission of “an official academic record showing that the alien has a degree, *diploma, certificate or similar award* from a college, university, school or other institution of learning relating to the area of exceptional ability”).

evaluating institutions or programs to determine whether or not they are operating at basic levels of quality.

. . . Accreditation of an institution or program by a recognized accrediting agency provides a reasonable assurance of quality and acceptance by employers of diplomas and degrees.

[www.ed.gov/print/admins/finaid/accred/accreditation.html](http://www.ed.gov/print/admins/finaid/accred/accreditation.html) (accessed January 29, 2013).

The DoEd's purpose in ascertaining the accreditation status of U.S. colleges and universities is to determine their eligibility for federal funding and student aid, and participation in other federal programs. Outside the federal sphere, the Council for Higher Education Accreditation (CHEA), an association of 3,000 degree-granting colleges and universities, plays a similar oversight role. As stated on its website:

Presidents of American universities and colleges established CHEA [in 1996] to strengthen higher education through strengthened accreditation of higher education institutions . . . .

CHEA carries forward a long tradition that recognition of accrediting organizations should be a key strategy to assure quality, accountability, and improvement in higher education. Recognition by CHEA affirms that standards and processes of accrediting organizations are consistent with quality, improvement, and accountability expectations that CHEA has established. CHEA will recognize regional, specialized, national, and professional accrediting organizations.

Accreditation, as distinct from recognition of accrediting organizations, focuses on higher education institutions. Accreditation aims to assure academic quality and accountability, and to encourage improvement. Accreditation is a voluntary, non-governmental peer review process by the higher education community . . . . The work of accrediting organizations involves hundreds of self-evaluations and site visits each year, attracts thousands of higher education volunteer professionals, and calls for substantial investment of institutional, accrediting organization, and volunteer time and effort.

[www.chea.org/pdf/Recognition\\_Policy-June\\_28\\_2010-FINAL.pdf](http://www.chea.org/pdf/Recognition_Policy-June_28_2010-FINAL.pdf) (accessed January 29, 2013).

The DoEd and CHEA recognize six regional associations – covering the entire United States and its outlying possessions – that accredit U.S. colleges and universities. One of these is the Western Association of Schools and Colleges (WASC), Accrediting Commission for Senior Colleges and Universities – whose geographical scope includes California, Hawaii, and other U.S. possessions in the Pacific, and whose membership represents a broad range of public and private schools in the region and other education-related organizations. The WASC website includes a list of all the higher educational institutions in its jurisdiction that are either accredited or candidates for accreditation.

[REDACTED], California, does not appear on that list. See [www.wascsenior.org/apps/institutions/](http://www.wascsenior.org/apps/institutions/) (accessed February 20, 2013). Thus, [REDACTED] has not been accredited by the applicable accrediting agency recognized by the DoEd and CHEA – the WASC’s Accrediting Commission for Senior Colleges and Universities – and there is no evidence that [REDACTED] has requested accreditation by that agency.

The State of California acknowledges the qualitative difference between accredited and unaccredited educational institutions. The California Postsecondary Education Commission (CPEC), the state’s planning and coordinating body for higher education from 1974 to 2011,<sup>4</sup> includes the following language regarding the “benefits associated with accreditation” on its website:

Both the federal government and the states use accreditation as an indication of the quality of education offered by American schools and colleges.

At the federal level, colleges and universities must be accredited by an agency recognized by the United States Secretary of Education in order for it or its students to receive federal funds.

At the state level, California allows colleges and universities that are accredited by the Western Association of Schools and Colleges (the recognized regional accrediting agency for California) to grant degrees without the review and approval of the Bureau for Private Postsecondary Education (BPPE). A list of approved institutions is available at the California Bureau for Private Postsecondary Education (BPPE).

In some states, it can be illegal to use a degree from an institution that is not accredited by a nationally recognized accrediting agency, unless approved by the state licensing agency. This helps prevent the possibility of fraud . . . .

[www.cpec.ca.gov/CollegeGuide/Accreditation.asp](http://www.cpec.ca.gov/CollegeGuide/Accreditation.asp) (accessed January 18, 2013).

The CPEC website goes on to warn about state laws in Illinois, Indiana, Maine, Michigan, Nevada, New Jersey, North Dakota, Oregon, Texas, and Washington regarding degree/diploma mills. *See id.*

The qualitative difference between accredited and unaccredited educational institutions, acknowledged by the CPEC, is also recognized by the State of California in its Education Code. Cal. Ed. Code section 94813 defines “accredited” as follows:

"Accredited" means an institution is recognized or approved by an accrediting agency recognized by the United States Department of Education.

---

<sup>4</sup> The CPEC ceased operations on November 18, 2011, after its funding was eliminated. *See* <http://www.cpec.ca.gov/> (accessed January 23, 2013) and associated Press Release.

With respect to unaccredited institutions that are approved to operate in California, Cal. Ed. Code section 94817.5 provides the following basic definition:

"Approved to operate" or "approved" means that an institution has received authorization pursuant to this chapter to offer to the public and to provide postsecondary educational programs.

Cal. Ed. Code section 94887 sets the following guideline for the BPPE's grant of an approval to operate:

An approval to operate shall be granted only after an applicant has presented sufficient evidence to the bureau [BPPE], and the bureau has independently verified the information provided by the applicant through site visits or other methods deemed appropriate by the bureau, that the applicant has the capacity to satisfy the minimum operating standards . . . .

As the foregoing authorities indicate, accreditation of a college or university by a regional accrediting body recognized by the DoEd and CHEA is a badge of quality. As stated on their respective websites, accreditation is intended "to assure academic quality and accountability" (CHEA) and to provide "a reasonable assurance of quality and acceptance by employers of . . . degrees" awarded by the accredited institutions (DoEd). Moreover, the imprimatur of a regional accrediting agency guarantees that a school's degrees will be recognized and honored nationwide. By comparison, an approval to operate by California's BPPE is a lower level endorsement that an educational institution "has the capacity to satisfy the minimum operating standards" (Cal. Ed. Code section 94887) with no guarantee that degrees awarded by that school in California will be recognized and honored nationwide.

The Immigration and Nationality Act is a federal statute with nationwide application. The regulations implementing the Act – including 8 C.F.R. § 204.5(k)(2) defining "advanced degree" for the purposes of section 203(b)(2) of the Act, as well as 8 C.F.R. § 204.5(l)(2) defining "professional" for the purposes of section 203(b)(3) of the Act – also have nationwide application. As defined in 8 C.F.R. § 204.5(k)(2), an "advanced degree" includes "any **United States academic or professional degree** . . . above that of baccalaureate" (or a foreign equivalent degree), "[a] **United States baccalaureate degree**" (or a foreign equivalent degree) and five years of specialized experience (considered equivalent to a master's degree), and "a **United States doctorate**" (or a foreign equivalent degree). (Emphases added.) Similarly, "professional" is defined in 8 C.F.R. § 204.5(l)(2) as "a qualified alien who holds at least a **United States baccalaureate degree**" (or a foreign equivalent degree). (Emphasis added.) The repeated usage of the modifier "United States" to describe the different levels of (non-foreign) degrees makes clear the intention of the rulemakers that the regulations apply to degrees issued by U.S. educational institutions that are recognized and honored on a nationwide basis. The only way to assure nationwide recognition for its degrees is for the educational institution to secure accreditation by a regional accrediting agency approved by the DoEd and CHEA.

For an educational institution in California, the regional accrediting agency is WASC's Accrediting Commission for Senior Colleges and Universities. As previously discussed, the school that issued the beneficiary's degree – [REDACTED] – is not on the WASC list of accredited institutions. Nor is [REDACTED] listed as a candidate for accreditation. Accordingly, the beneficiary's "Master of Business Administration" from [REDACTED] cannot be deemed to have nationwide recognition. Therefore, it does not qualify as an advanced degree within the meaning of 8 C.F.R. § 204.5(k)(2).

The record shows that the beneficiary has a bachelor's degree from [REDACTED], which IS an accredited institution. For an alien to be eligible for classification under section 203(b)(2) of the Act, however, the regulation at 8 C.F.R. § 204.5(k)(2) makes clear that a bachelor's degree must be "followed by at least five years of progressive experience in the specialty" to be considered equivalent to a master's degree. There is no evidence in the record that the beneficiary has five years of post-baccalaureate experience in the field(s) of mathematics-applied science or economics. To be eligible for classification under section 203(b)(2) of the Act, a beneficiary must have all the education, training, and experience specified on the labor certification as of the petition's priority date. *See Matter of Wing's Tea House*, 16 I&N 158 (Act. Reg. Comm. 1977). The priority date of the petition is the date the labor certification application was accepted for processing by the DOL. *See* 8 C.F.R. § 204.5(d). In this case, the priority date is October 24, 2010. Since the record does not show that the beneficiary had five years of qualifying experience as of October 24, 2010,<sup>5</sup> she is not be eligible for classification as an advanced degree professional based on her bachelor's degree. Regardless, the labor certification does not permit this alternate combination of education and experience. *See infra*.

In accordance with the foregoing analysis, the AAO determines that the beneficiary is not eligible for preference visa classification as an advanced degree professional under section 203(b)(2) of the Act and 8 C.F.R. § 204.5(k)(2). Thus, the petition cannot be approved.

### **Qualifications for the Job Offered**

Relying in part on *Madany*, 696 F.2d at 1008, the Federal Court of Appeals for the Ninth Circuit (Ninth Circuit) stated:

[I]t appears that the DOL is responsible only for determining the availability of suitable American workers for a job and the impact of alien employment upon the domestic labor market. It does not appear that the DOL's role extends to determining if the alien is qualified for the job for which he seeks sixth preference [visa category] status. That determination appears to be delegated to the INS under

---

<sup>5</sup> In fact, the beneficiary could not have had five years of qualifying post-baccalaureate experience because the time period between the awarding of her bachelor's degree on December 16, 2005, and the priority date of the petition, October 24, 2010, was less than five years.

section 204(b), 8 U.S.C. § 1154(b), as one of the determinations incident to the INS's decision whether the alien is entitled to sixth preference status.

*K.R.K. Irvine, Inc. v. Landon*, 699 F.2d 1006, 1008 (9<sup>th</sup> Cir. 1983). The court relied on an amicus brief from DOL that stated the following:

The labor certification made by the Secretary of Labor ... pursuant to section 212(a)(5) of the ... [Act] ... is binding as to the findings of whether there are able, willing, qualified, and available United States workers for the job offered to the alien, and whether employment of the alien under the terms set by the employer would adversely affect the wages and working conditions of similarly employed United States workers. *The labor certification in no way indicates that the alien offered the certified job opportunity is qualified (or not qualified) to perform the duties of that job.*

(Emphasis added.) *Id.* at 1009. The Ninth Circuit, citing *K.R.K. Irvine, Inc.*, 699 F.2d at 1006, revisited this issue, stating: "The INS, therefore, may make a de novo determination of whether the alien is in fact qualified to fill the certified job offer." *Tongatapu*, 736 F. 2d at 1309.

The key to determining the job qualifications is found on ETA Form 9089 Part H. This section of the application for alien labor certification – "Job Opportunity Information" – describes the terms and conditions of the job offered. It is important that the ETA Form 9089 be read as a whole.

When determining whether a beneficiary is eligible for a preference immigrant visa, USCIS may not ignore a term of the labor certification, nor may it impose additional requirements. *See Madany*, 696 F.2d at 1015. USCIS must examine "the language of the labor certification job requirements" in order to determine what the job requires. *Id.* The only rational manner by which USCIS can be expected to interpret the meaning of terms used to describe the requirements of a job in a labor certification is to examine the certified job offer *exactly* as it is completed by the prospective employer. *See Rosedale Linden Park Company v. Smith*, 595 F. Supp. 829, 833 (D.D.C. 1984) (emphasis added). USCIS's interpretation of the job's requirements, as stated on the labor certification, must involve reading and applying *the plain language* of the labor certification application, as certified by the DOL. *Id.* at 834.

In this case, Part H, lines 4 and 4-B of the labor certification state that the minimum educational requirement to qualify for the proffered position is a master's degree in business administration. Line 9 states that a "foreign educational equivalent" is acceptable. Lines 5 and 6 state that no training or experience in the job offered is required. Line 8 states that no alternate combination of education and experience is acceptable. Thus, the labor certification requires a U.S. master's degree in business administration or a foreign educational equivalent.

The beneficiary does not meet this requirement. As previously discussed, the beneficiary's degree from [REDACTED] though called a "Master of Business Administration," does not qualify as a U.S. master's degree in business administration under the

(b)(6)

Page 12

“advanced degree” definition of 8 C.F.R. § 204.5(k)(2) because it was not awarded by an educational institution that has been accredited by a regional accrediting agency recognized by the DoEd and CHEA. Since she does not fulfill the educational requirement in Part H of the labor certification, the beneficiary does not qualify for the job offered. For this reason as well, the petition cannot be approved.

**Conclusion**

The beneficiary does not have an “advanced degree” within the meaning of 8 C.F.R. § 204.5(k)(2), and thus is not eligible for preference visa classification under section 203(b)(2) of the Act. Nor does the beneficiary meet the educational requirements on the labor certification to qualify for the job offered. For the reasons stated above, considered both in sum and as separate grounds for denial, the petition may not be approved.

The burden of proof in these proceedings rests solely with the petitioner. *See* Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has not met that burden.

**ORDER:** The appeal is dismissed.
