IN RE:

Petitioner:

Beneficiary:

PETITION: Immigrant petition for Alien Worker as a Skilled Worker or Professional Pursuant to section 203(b)(3) of the Immigration and Nationality Act, 8 U.S.C. § 1153(b)(3)

ON BEHALF OF PETITIONER:

INSTRUCTIONS:

This is the decision of the Administrative Appeals Office in your case. All documents have been returned to the office that originally decided your case. Any further inquiry must be made to that office.

Robert P. Wiemann, Chief
Administrative Appeals Office

DISCUSSION: The Director, Nebraska Service Center, denied the employment-based immigrant visa petition, which is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be dismissed.

The petitioner is a computerized aircraft maintenance and inspections systems firm. It seeks to employ the beneficiary permanently in the United States as a programmer analyst. As required by statute, a Form ETA 750, Application for Alien Employment Certification approved by the Department of Labor (DOL), accompanied the petition. Upon reviewing the petition, the director determined that the beneficiary did not satisfy the minimum level of education stated on the labor certification. Specifically, the director determined that the beneficiary did not possess four years of college culminating in a Bachelor of Science degree, in a major field of study of "Computer Science, Mechanical Eng. or equivalent."

On appeal, counsel submits additional evidence and contends that the "or equivalent" language applied to the degree equivalence rather than to the major field of study and that the beneficiary's credentials satisfied the terms of the labor certification.

The AAO maintains plenary power to review each appeal on a de novo basis. 5 U.S.C. § 557(b) ("On appeal from or review of the initial decision, the agency has all the powers which it would have in making the initial decision except as it may limit the issues on notice or by rule."); *see also, Janka v. U.S. Dept. of Transp., NTSB*, 925 F.2d 1147, 1149 (9th Cir. 1991). The AAO's *de novo* authority has been long recognized by the federal courts. *See, e.g. Dor v. INS*, 891 F.2d 997, 1002 n. 9 (2d Cir. 1989).

For the reasons discussed below, we concur with the director's interpretation of the terms of the labor certification, but would also note that various decisions by federal circuit courts, which are binding on this office, have upheld our authority to evaluate whether the beneficiary is qualified for the job offered. Further, although not specifically addressing the facts in this case which do not support an interpretation suggested by counsel of degree equivalency rather than an equivalent field of major study, those decisions, in conjunction with decisions by the Board of Alien Labor Certification Appeals (BALCA), support our interpretation of the phrase "B.A. or equivalent."

Section 203(b)(3)(A)(i) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1153(b)(3)(A)(i), provides for the granting of preference classification to qualified immigrants who are capable, at the time of petitioning for classification under this paragraph, of performing skilled labor (requiring at least two years training or experience), not of a temporary nature, for which qualified workers are not available in the United States. Section 203(b)(3)(A)(ii) of the Act, 8 U.S.C. § 1153(b)(3)(A)(ii), also provides for the granting of preference classification to qualified immigrants who hold baccalaureate degrees and are members of the professions.

The job qualifications requirements are found on Form ETA 750A. This section of the application for alien labor certification, "Offer of Employment," describes the terms and conditions of the job offered. It is important that the ETA-750 be read as a whole. The instructions for the Form ETA 750A, item 14, provide:

Do not duplicate the time requirements. For example, time required in training should not also be listed in education or experience. Indicate whether months or years are required. Do not include restrictive requirements which are not actual business necessities for performance on the job and which would limit consideration of otherwise qualified U.S. workers.

Regarding the minimum level of education and experience required for the proffered position in this matter, Part A of the labor certification reflects the following requirements:

Block 14: Minimum education, training, and experience

Education:

College	4 (yrs.)
College Degree Required (specify)	BS
Major Field of Study	Computer Science, Mechanical Eng. or equivalent

Experience:

Job Offered	2 (yrs)
Related Occupation	2 (yrs) related duties

Block 15 Other Special Requirements

Section 14 experience must include at least six months on the job experience with the design, development and maintenance of web-based on line software and e-commerce applications for the aviation industry.

In determining whether a beneficiary is eligible for a preference immigrant visa, CIS must ascertain whether the alien is, in fact, qualified for the certified job. CIS will not accept a degree equivalency or an unrelated degree when a labor certification plainly and expressly requires a candidate with a specific degree. In evaluating the beneficiary's qualifications, CIS must look to the job offer portion of the labor certification to determine the required qualifications for the position. CIS may not ignore a term of the labor certification, nor may it impose additional requirements. *See Matter of Silver Dragon Chinese Restaurant*, 19 I&N Dec. 401, 406 (Comm. 1986). *See also, Madany*, 696 F.2d at 1008; *K.R.K. Irvine, Inc.*, 699 F.2d at 1006; *Stewart Infra-Red Commissary of Massachusetts, Inc. v. Coomey*, 661 F.2d 1 (1st Cir. 1981).

As stated on the labor certification, the proffered position requires four years of college culminating in a Bachelor of Science degree in a major field of study of either computer science, mechanical engineering, or the equivalent, as well as two years of experience in the job offered or two years of experience in a related occupation defined as "related duties." Although counsel asserts on appeal that as no challenges to the petitioner's minimum requirements were made by the DOL then it must have interpreted the "or equivalent" language as applying only to the degree and not to the major field of study, we do not find such a contention to be persuasive or to be reflected in Block 14 of the ETA 750A. Further, counsel's contention that because the ETA 750A form does not provide space in the box related to the degree required, then the language in the box below for major field of study must refer to the degree equivalency, is not persuasive as the boxes are the same size on the ETA 750A for both the degree required and the major field of study and the language could have easily been placed in the box above for college degree required. Moreover, Block 15 is available to add specific additional modifying language to the descriptions in other fields such as the notation this petitioner added to requirements for the employment experience specified in section 14.

Because of the certified position's academic and experiential requirements set forth on the labor certification, the proffered position is most properly analyzed as a professional. DOL assigned the occupational code of

030.162-014, programmer analyst, to the proffered position. DOL's occupational codes are assigned based on normalized occupational standards. According to DOL's public online database at <http://online.onetcenter.org/crosswalk/> (accessed 07/17/08) and its extensive description of the position and requirements for the position most analogous to the petitioner's proffered position, the position falls within Job Zone Four requiring "considerable preparation" for the occupation type closest to the proffered position. According to DOL, two to four years of work-related skill, knowledge, or experience is needed for such an occupation. DOL assigns a standard vocational preparation (SVP) range of 7-8 to the occupation, which means "[m]ost of these occupations require a four-year bachelor's degree, but some do not." See <http://online.onetcenter.org/link/summary/15-1051.00>, *computer systems analyst*, (accessed 07/17/08). Additionally, DOL states the following concerning the training and overall experience required for these occupations:

A minimum of two to four years of work-related skill, knowledge, or experience is needed for these occupations. For example, an accountant must complete four years of college and work for several years in accounting to be considered qualified. Employees in these occupations usually need several years of work-related experience, on-the-job training, and/or vocational training.

See id.

The regulation at 8 C.F.R. § 204.5(l)(3)(ii)(C) states the following:

If the petition is for a professional, the petition must be accompanied by evidence that the alien holds a United States baccalaureate degree or a foreign equivalent degree and by evidence that the alien is a member of the professions. Evidence of a baccalaureate degree shall be in the form of an official college or university record showing the date the baccalaureate degree was awarded and the area of concentration of study. To show that the alien is a member of the professions, the petitioner must submit evidence that the minimum of a baccalaureate degree is required for entry into the occupation.

The above regulations use a singular description of foreign equivalent degree. Thus, the plain meaning of the regulatory language concerning the professional classification sets forth the requirement that a beneficiary must produce one degree that is determined to be the foreign equivalent of a U.S. baccalaureate degree in order to be qualified as a professional for third preference visa category purposes.

As noted above, the ETA 750 in this matter is certified by DOL. Section 212(a)(5)(A)(i) of the Act provides:

In general.-Any alien who seeks to enter the United States for the purpose of performing skilled or unskilled labor is inadmissible, unless the Secretary of Labor has determined and certified to the Secretary of State and the Attorney General that-

(I) there are not sufficient workers who are able, willing, qualified (or equally qualified in the case of an alien described in clause (ii)) and available at the time of

application for a visa and admission to the United States and at the place where the alien is to perform such skilled or unskilled labor, and

(II) the employment of such alien will not adversely affect the wages and working conditions of workers in the United States similarly employed.

According to 20 C.F.R. § 656.1(a), the purpose and scope of the regulations regarding labor certification are as follows:

Under § 212(a)(5)(A) of the Immigration and Nationality Act (INA) (8 U.S.C. 1182(a)(5)(A)) certain aliens may not obtain a visa for entrance into the United States in order to engage in permanent employment unless the Secretary of Labor has first certified to the Secretary of State and to the Attorney General that:

(1) There are not sufficient United States workers, who are able, willing, qualified and available at the time of application for a visa and admission into the United States and at the place where the alien is to perform the work, and

(2) The employment of the alien will not adversely affect the wages and working conditions of United States workers similarly employed.

It is significant that none of the above inquiries assigned to DOL, or the remaining regulations implementing these duties under 20 C.F.R. § 656, involve a determination as to whether or not the alien is qualified for a specific immigrant classification or even the job offered. This fact has not gone unnoticed by Federal Circuit Courts.

There is no doubt that the authority to make preference classification decisions rests with INS. The language of section 204 cannot be read otherwise. *See Castaneda-Gonzalez v. INS*, 564 F.2d 417, 429 (D.C. Cir. 1977). In turn, DOL has the authority to make the two determinations listed in section 212(a)(14). *Id.* at 423. The necessary result of these two grants of authority is that section 212(a)(14) determinations are not subject to review by INS absent fraud or willful misrepresentation, but all matters relating to preference classification eligibility not expressly delegated to DOL remain within INS' authority.

* * *

Given the language of the Act, the totality of the legislative history, and the agencies' own interpretations of their duties under the Act, we must conclude that Congress did not intend DOL to have primary authority to make any determinations other than the two stated in section 212(a)(14). If DOL is to analyze alien qualifications, it is for the purpose of "matching" them with those of corresponding United States workers so that it will then be "in a position to meet the requirement of the law," namely the section 212(a)(14) determinations.

Madany v. Smith, 696 F.2d 1008, 1012-1013 (D.C. Cir. 1983). Relying in part on *Madany*, 696 F.2d at 1008, the Ninth circuit stated:

[I]t appears that the DOL is responsible only for determining the availability of suitable American workers for a job and the impact of alien employment upon the domestic labor

market. It does not appear that the DOL's role extends to determining if the alien is qualified for the job for which he seeks sixth preference status. That determination appears to be delegated to the INS under section 204(b), 8 U.S.C. § 1154(b), as one of the determinations incident to the INS's decision whether the alien is entitled to sixth preference status.

K.R.K. Irvine, Inc. v. Landon, 699 F.2d 1006, 1008 (9th Cir. 1983). The court relied on an amicus brief from DOL that stated the following:

The labor certification made by the Secretary of Labor ... pursuant to section 212(a)(14) of the ... [Act] ... is binding as to the findings of whether there are able, willing, qualified, and available United States workers for the job offered to the alien, and whether employment of the alien under the terms set by the employer would adversely affect the wages and working conditions of similarly employed United States workers. *The labor certification in no way indicates that the alien offered the certified job opportunity is qualified (or not qualified) to perform the duties of that job.*

(Emphasis added.) *Id.* at 1009. The Ninth Circuit, citing *K.R.K. Irvine, Inc.*, 699 F.2d at 1006, revisited this issue, stating:

The Department of Labor ("DOL") must certify that insufficient domestic workers are available to perform the job and that the alien's performance of the job will not adversely affect the wages and working conditions of similarly employed domestic workers. *Id.* § 212(a)(14), 8 U.S.C. § 1182(a)(14). The INS then makes its own determination of the alien's entitlement to sixth preference status. *Id.* § 204(b), 8 U.S.C. § 1154(b). See generally *K.R.K. Irvine, Inc. v. Landon*, 699 F.2d 1006, 1008 9th Cir.1983).

The INS, therefore, may make a de novo determination of whether the alien is in fact qualified to fill the certified job offer.

Tongatapu Woodcraft Hawaii, Ltd. v. Feldman, 736 F. 2d 1305, 1309 (9th Cir. 1984).

In 1991, when the final rule for 8 C.F.R. § 204.5 was published in the Federal Register, the Immigration and Naturalization Service (the Service), responded to criticism that the regulation required an alien to have a bachelor's degree as a minimum and that the regulation did not allow for the substitution of experience for education. After reviewing section 121 of the Immigration Act of 1990, Pub. L. 101-649 (1990), and the Joint Explanatory Statement of the Committee of Conference, the Service specifically noted that both the Act and the legislative history indicate that an alien must have at least a bachelor's degree: "[B]oth the Act and its legislative history make clear that, in order to qualify as a professional under the third classification or to have experience equating to an advanced degree under the second, *an alien must have at least a bachelor's degree.*" 56 Fed. Reg. 60897, 60900 (November 29, 1991)(emphasis added).

In this case, the record indicates that the beneficiary attended the University of Madras, India from 1988 to 1990 and completed three years of academic studies, as indicated on the grade transcripts. He obtained a Bachelor of Commerce degree, conferred in 1991. He also obtained a certificate from the "Cams Software Education Centre." It is identified as an "Advanced Post Graduate Diploma in Systems Management" which represented a 12-month academic course beginning in 1988 and ending in January 1989. Also submitted is a certificate from the SAP India Education and Training Centre indicating tha the beneficiary completed a two-day IT related course in March 1998 and a copy of an examination score report from Microsoft stating that

the beneficiary passed an examination relating to Microsoft Visual Basic 5.0 in November 1999. The length of the course is not indicated.

The petitioner further provided a copy of an evaluation of the beneficiary's foreign education and training from the Cultural House, Inc., dated December 19, 1999. It is authored by [REDACTED]. She determines that the beneficiary's academic studies at the University of Madras represents a three-year program of undergraduate study in Business Administration from an accredited institution of higher education in India, and that when combined with the beneficiary's computer training certificates from Microsoft, Cams Software Education Center and SAP India, the result is that the beneficiary possesses the equivalent of a Bachelor of Science degree in Computer Information Systems from an accredited institution of higher education in the U.S.

As advised in the request for evidence issued by this office to the petitioner, it was noted that in reviewing whether the beneficiary's Madras University diploma and/or the other certificates of computer courses represent a foreign equivalent degree, we had reviewed the Electronic Database for Global Education (EDGE) created by the American Association of Collegiate Registrars and Admissions Officer (AACRAO). AACRAO, according to its website, <http://www.aacrao.org/>, is "a nonprofit, voluntary, professional association of more than 10,000 higher education admissions and registration professionals who represent approximately 2,500 institutions in more than 30 countries." Its mission "is to provide professional development, guidelines and voluntary standards to be used by higher education officials regarding the best practices in records management, admissions, enrollment management, administrative information technology and student services." According to the registration page for EDGE, <http://aacraoedge.aacrao.org/register>, EDGE is "a web-based resource for the evaluation of foreign educational credentials."

EDGE indicates that a bachelor of commerce degree in India is "awarded upon completion of two to three years of tertiary study beyond Higher Secondary Certificate (or equivalent)." In the "credential advice" reference, it is noted that the bachelor of commerce degree represents a comparable level of education of two to three years of university study in the United States and that credit may be awarded on a course by course basis.

EDGE discusses both Post Secondary Diplomas, for which the entrance requirement is completion of secondary education, and Post Graduate Diplomas, for which the entrance requirement is completion of a two- or three-year baccalaureate. EDGE provides that a Post Secondary Diploma is comparable to one year of university study in the United States but does not suggest that, if combined with a three-year degree, may be deemed a foreign equivalent degree to a U.S. baccalaureate. EDGE further asserts that a Postgraduate Diploma following a three-year bachelor's degree "represents attainment of a level of education comparable to a bachelor's degree in the United States." The "Advice to Author Notes," however, provides:

Postgraduate Diplomas should be issued by an accredited university or institution approved by the All-India Council for Technical Education (AICTE). Some students complete PGDs over two years on a part-time basis. When examining the Postgraduate Diploma, note the entrance requirement and be careful not to confuse the PGD awarded after the Higher Secondary Certificate with the PGD awarded after the three-year bachelor's degree.

As advised in the request for evidence, it is again noted that the record provided no evidence that a three- or even a two-year baccalaureate was required for admission to the Cams course prior to the beneficiary's enrollment in 1988, which was also the same year that he commenced his enrollment at the University of Madras. Nor does the record show that this institution was accredited by AICTE in 1988 or that it was

empowered to confer university accredited hours. It may not be concluded that the Cultural House, Inc.'s evaluation is probative in determining that this beneficiary's 3-year Bachelor of Science degree combined with the other certificates and the Cams course represents a foreign equivalent degree. CIS may, in its discretion, use as advisory opinions statements submitted as expert testimony. However, where an opinion is not in accord with other information or is in any way questionable, the Service is not required to accept or may give less weight to that evidence. *Matter of Caron International*, 19 I&N Dec. 791 (Comm. 1988).

As noted by the director there is no provision in the statute or the regulations that would allow a beneficiary to qualify under section 203(b)(3)(A)(ii) of the Act with anything less than a full baccalaureate degree. More specifically, a three-year bachelor's degree will not be considered to be the "foreign equivalent degree" to a United States baccalaureate degree. A United States baccalaureate degree is generally found to require four years of education. *Matter of Shah*, 17 I&N Dec. 244 (Reg. Comm. 1977). Under section 203(b)(3)(A)(ii) of the Act, the beneficiary must have a single degree that is the "foreign equivalent degree" to a United States baccalaureate degree. Because the beneficiary does not have a "United States baccalaureate degree or a foreign equivalent degree," the beneficiary does not qualify for preference visa classification under section 203(b)(3) of the Act as he does not have the minimum level of education required for the equivalent of a bachelor's degree.

If this petition is analyzed in the skilled worker category, as defined in section 203(b)(3)(A)(i) of the Act, the petition may not be approved because the beneficiary does not meet the educational requirements stipulated by the petitioner on the ETA 750A.¹ The petitioner failed to specifically state on the ETA 750A as well as on any of the newspaper advertisements that any kind of degree requirements or equivalency would be required or considered. As noted by counsel, the online America's Job Bank advertisement states that the educational requirement is a Bachelors Degree with no mention of an equivalency. Counsel attributes the newspaper advertisements as indicative of the employer's willingness to hold the position open to individuals with or without degrees and the Job Bank failure to mention an equivalency as a software problem. The assertions of counsel do not constitute evidence, particularly in view of the employer's statement in the request of reduction of recruitment that the petitioner requires "at least a Bachelor's Degree in Computer Science, Mechanical Engineering, or a related degree." (Petitioner's Exhibit B in response to request for evidence) See *Matter of Obaigbena*, 19 I&N Dec. 533, 534 (BIA 1988); *Matter of Ramirez-Sanchez*, 17 I&N Dec. 503, 506 (BIA 1980).

We are cognizant of the recent decision in *Grace Korean United Methodist Church v. Michael Chertoff*, CV 04-1849-PK (D. Ore. November 3, 2005), which finds that Citizenship and Immigration Services (CIS) "does

¹The regulation at 8 C.F.R. § 204.5(1)(3) further provides:

(ii) *Other documentation*—

(B) *Skilled workers.* If the petition is for a skilled worker, the petition must be accompanied by evidence that the alien meets the educational, training or experience, and any other requirements of the individual labor certification, meets the requirements for Schedule A designation, or meets the requirements for the Labor Market Information Pilot Program occupation designation. The minimum requirements for this classification are at least two years of training or experience.

not have the authority or expertise to impose its strained definition of ‘B.A. or equivalent’ on that term as set forth in the labor certification.” In contrast to the broad precedential authority of the case law of a United States circuit court, the AAO is not bound to follow the published decision of a United States district court in matters arising within the same district. *See Matter of K-S-*, 20 I&N Dec. 715 (BIA 1993). Although the reasoning underlying a district judge’s decision will be given due consideration when it is properly before the AAO, the analysis does not have to be followed as a matter of law. *Id.* at 719. The court in *Grace Korean* makes no attempt to distinguish its holding from the Circuit Court decisions cited above. Instead, as legal support for its determination, the court cited to a case holding that the United States Postal Service has no expertise or special competence in immigration matters. *Grace Korean United Methodist Church* at *8 (citing *Tovar v. U.S. Postal Service*, 3 F.3d 1271, 1276 (9th Cir. 1993)). On its face, *Tovar* is easily distinguishable from the present matter since CIS, through the authority delegated by the Secretary of Homeland Security, is charged by statute with the enforcement of the United States immigration laws and not with the delivery of mail. *See* section 103(a) of the Act, 8 U.S.C. § 1103(a). In reaching this decision, the court also concluded that the employer in that case tailored the job requirements to the employee and that DOL would have considered the beneficiary’s credentials in evaluating the job requirements listed on the labor certification.²

² Specifically, as quoted above, the regulation at 20 C.F.R. § 656.21(b)(6) requires the employer to “clearly document . . . that all U.S. workers who applied for the position were rejected for lawful job related reasons.” BALCA has held that an employer cannot simply reject a U.S. worker that meets the minimum requirements specified on the Form ETA-750. *See American Café*, 1990 INA 26 (BALCA 1991), *Fritz Garage*, 1988 INA 98 (BALCA 1988), and *Vanguard Jewelry Corp.* 1988 INA 273 (BALCA 1988). Thus, the court’s suggestion in *Grace Korean* that the employer tailored the job requirements to the alien instead of the job offered actually implies that the recruitment was unlawful. If, in fact, DOL is looking at whether the job requirements are unduly restrictive and whether U.S. applicants met the job requirements on the Form ETA 750, instead of whether the alien meets them, it becomes immediately relevant whether DOL considers “B.A. or equivalent” to require a U.S. bachelor degree or a foreign degree that is equivalent to a U.S. bachelor’s degree. We are satisfied that DOL’s interpretation matches our own. In reaching this conclusion, we rely on the reasoning articulated in *Hong Video Technology*, 1998 INA 202 (BALCA 2001). That case involved a labor certification that required a “B.S. or equivalent.” The Certifying Officer questioned this requirement as the correct minimum for the job as the alien did not possess a Bachelor of Science degree. In rebuttal, the employer’s attorney asserted that the beneficiary had the equivalent of a Bachelor of Science degree as demonstrated through a combination of work experience and formal education. The Certifying Officer concluded that “a combination of education and experience to meet educational requirements is unacceptable as it is unfavorable to U.S. workers.” BALCA concluded:

We have held in *Francis Kellogg, et als.*, 94-INA-465, 94 INA-544, 95-INA-68 (Feb. 2, 1998 (en banc) that where, as here, the alien does not meet the primary job requirements, but only potentially qualifies for the job because the employer has chose to list alternative job requirements, the employer’s alternative requirements are unlawfully tailored to the alien’s qualifications, in violation of [20 C.F.R.] § 656.21(b)(5), unless the employer has indicated that applicants with any suitable combination of education, training or experience are acceptable. Therefore, the employer’s alternative requirements are unlawfully tailored to the alien’s qualifications, in violation of [20 C.F.R.] § 65[6].21(b)(5).

In as much as Employer’s stated minimum requirement was a “B.S. or equivalent” degree in Electronic Technology or Education Technology and the Alien did not meet that requirement, labor certification was properly denied.

Additionally, we also note the recent decision in *Snapnames.com, Inc. v. Michael Chertoff*, CV 06-65-MO (D. Ore. November 30, 2006). In that case, the labor certification application specified an educational requirement of four years of college and a ‘B.S. or foreign equivalent.’ The district court determined that ‘B.S. or foreign equivalent’ relates solely to the alien’s educational background, precluding consideration of the alien’s combined education and work experience. *Snapnames.com, Inc.* at *11-13. Additionally, the court determined that the word ‘equivalent’ in the employer’s educational requirements was ambiguous and that in the context of skilled worker petitions (where there is no statutory educational requirement), deference must be given to the employer’s intent. *Snapnames.com, Inc.* at *14. However, in professional and advanced degree professional cases, where the beneficiary is statutorily required to hold a baccalaureate degree, the court determined that CIS properly concluded that a single foreign degree or its equivalent is required. *Snapnames.com, Inc.* at *17, 19. In the instant case, unlike the labor certification in *Snapnames.com, Inc.*, the petitioner’s statement on the ETA 750 regarding educational equivalence is clearly stated as an equivalence in a major field of study and does not include alternatives to a Bachelor of Science degree.

It is noted that that as referenced in *Rosedale Linden Park Company v. Smith*, 595 F. Supp. 829, 833 (D.D.C. 1984), CIS must “examine the certified job offer *exactly* as it is completed by the prospective employer.” (Emphasis added) CIS’s interpretation of the job’s requirements, as stated on the labor certification must involve “reading and applying *the plain language* of the [labor certification application form].” *Id.* at 834 (emphasis added). CIS cannot and should not reasonably be expected to look beyond the plain language of the labor certification that DOL has formally issued or otherwise attempt to divine the employer’s intentions. It is finally noted that in a copy of an unpublished AAO decision offered by counsel in support of the petition’s approval, it was found that a specific reference to a foreign equivalent appearing above the minimum education, training and experience boxes along with specific references in the recruitment efforts qualified the petition for approval as a third preference skilled worker. We find the facts in this case are distinguishable, as discussed above, based on the omissions in the ETA 750A, the recruitment notices, and the employer’s stated requirements.

The beneficiary does not have a “United States baccalaureate degree or a foreign equivalent degree,” and, thus, does not qualify for preference visa classification under section 203(b)(3)(A)(ii) of the Act as a professional or as a skilled worker under 203(b)(3)(i) of the Act.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has not met that burden.

ORDER: The appeal is dismissed.
