IN RE: Petitioner: [REDACTED]
Beneficiary: [REDACTED]

PETITION: Petition for a Nonimmigrant Worker Pursuant to Section 101(a)(15)(H)(i)(b) of the
Immigration and Nationality Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b)

ON BEHALF OF PETITIONER:

INSTRUCTIONS:

This is the decision of the Administrative Appeals Office in your case. All documents have been returned to the office that originally decided your case. Any further inquiry must be made to that office.

Robert P. Wiemann

Robert P. Wiemann, Director
Administrative Appeals Office

DISCUSSION: The director of the service center denied the nonimmigrant visa petition and the matter is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be dismissed. The petition will be denied.

The petitioner is a home healthcare facility that seeks to employ the beneficiary as an accountant. The petitioner, therefore, endeavors to classify the beneficiary as a nonimmigrant worker in a specialty occupation pursuant to section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1101(a)(15)(H)(i)(b).

The director denied the petition because the proffered position is not a specialty occupation. On appeal, counsel states that the proffered position is a specialty occupation.

Section 214(i)(1) of the Act, 8 U.S.C. § 1184(i)(1), defines the term "specialty occupation" as an occupation that requires:

- (A) theoretical and practical application of a body of highly specialized knowledge, and
- (B) attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

- (1) A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;
- (2) The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;
- (3) The employer normally requires a degree or its equivalent for the position; or
- (4) The nature of the specific duties is so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

Citizenship and Immigration Services (CIS) interprets the term "degree" in the criteria at 8 C.F.R. § 214.2(h)(4)(iii)(A) to mean not just any baccalaureate or higher degree, but one in a specific specialty that is directly related to the proffered position.

The record of proceeding before the AAO contains: (1) Form I-129 and supporting documentation; (2) the director's request for additional evidence; (3) the petitioner's response to the director's request; (4) the director's denial letter; and (5) Form I-290B and supporting documentation. The AAO reviewed the record in its entirety before issuing its decision.

The petitioner is seeking the beneficiary's services as a fulltime accountant. Evidence of the beneficiary's duties includes: the Form I-129; the attachments accompanying the Form I-129; the company support letter; and the petitioner's response to the director's request for evidence. According to this evidence, the beneficiary would perform duties that entail preparing the petitioner's collection activities and will maintain the petitioner's accounts receivables and accounts payables; compile and review financial information and prepare for entry into general ledger and journal vouchers; prepare cash projections, project the amount of cash expenditures; engage in budgetary forecasts requiring analysis of income, expenses, and capital outlays as well as preparation of expenses, costing, and administrative budgeting; be involved in the preparation of balance sheets as well as profit and loss statements; compile, analyze, and prepare various journal vouchers for prepayments, accruals, receipt vouchers, and check payment vouchers; analyze financial information; prepare monthly and yearly financial reports; review bank accounts and handle bank reconciliation; and prepare employee payroll and prepare tax payments. The petitioner stated that a candidate must possess a Bachelor of Science degree and have experience.

The director determined that the proffered position was not a specialty occupation. Referring to the Department of Labor's (DOL) *Occupational Outlook Handbook* (the *Handbook*), the director stated that a significant amount of the beneficiary's time will be spent performing many of the duties of a bookkeeper, an occupation that does not require a bachelor's degree.

On appeal, counsel states that the proffered position, accountant, is a specialty occupation. Counsel cites to *H-1B Handbook 2003*¹ to support his assertion that the position of an accountant is "held by the Service to be in a profession (which is the definitional equivalent of a specialty occupation) . . . In those cases, the employer needs to do little to document the nature of the position." Furthermore, counsel asserts "there is no point of debate as to whether or not the proffered position meets one of the required criteria for classification as a specialty occupation pursuant to 8 C.F.R. 214(h)(4)(iii)(A)."

Counsel's December 22, 2003 letter restates the beneficiary's duties, and states that the director overlooked the petitioner's response to the request for evidence. Counsel contends that the petition should be reviewed "especially the expansive and highly responsible domain of the beneficiary's would-be duties." Counsel asserts that the proffered position meets two of the four criteria to establish that the position is a specialty occupation. Counsel asserts that the complexity of duties was described in the petitioner's response to the request for evidence. Counsel quotes the petitioner's response: "the job duties associated with the position being offered require exact calculation and analysis of business factors, coverage, terms, conditions, and parameters where knowledge and preparedness to perform these sensitive tasks can only be provided by . . ."

Upon review of the record, the petitioner has established none of the four criteria outlined in 8 C.F.R. § 214.2(h)(4)(iii)(A). Therefore, the proffered position is not a specialty occupation.

The AAO considers the criteria at 8 C.F.R. §§ 214.2(h)(4)(iii)(A)(1) and (2): a baccalaureate or higher degree or its equivalent is the normal minimum requirement for entry into the particular position; a degree requirement is common to the industry in parallel positions among similar organizations; or a particular position is so complex or unique that it can be performed only by an individual with a degree. Factors often

¹ Presumably, counsel is referring to [REDACTED] and Steven C. Bell, *H-1B Handbook 2003 Edition*, West Group Publishing.

considered by CIS when determining these criteria include: whether the *Handbook* reports that the industry requires a degree; whether the industry's professional association has made a degree a minimum entry requirement; and whether letters or affidavits from firms or individuals in the industry attest that such firms "routinely employ and recruit only degreed individuals." See *Shanti, Inc. v. Reno*, 36 F. Supp. 2d 1151, 1165 (D.Min. 1999)(quoting *Hird/Blaker Corp. v. Slattery*, 764 F. Supp. 872, 1102 (S.D.N.Y. 1991)).

In determining whether a position qualifies as a specialty occupation, CIS looks beyond the title of the position and determines, from a review of the duties of the position and any supporting evidence, whether the position actually requires the theoretical and practical application of a body of highly specialized knowledge, and the attainment of a baccalaureate degree in a specific specialty as the minimum for entry into the occupation as required by the Act.

Turning to the *Handbook*, a review of it reveals that specific job duties vary widely among the four major fields of accounting: public, management, government, and internal. The closest category to the proffered position is the management accountant. In the *Handbook*, management accountants — also called cost, managerial, industrial, corporate, or private accountants — record and analyze the financial information of the companies for which they work. Other responsibilities include budgeting, performance evaluation, cost management, and asset management. Usually, management accountants are part of executive teams involved in strategic planning or new-product development. They analyze and interpret the financial information that corporate executives need to make sound business decisions. They also prepare financial reports for nonmanagement groups, including stockholders, creditors, regulatory agencies, and tax authorities. Within accounting departments, they may work in various areas, including financial analysis, planning and budgeting, and cost accounting.

Very few of the duties described in the *Handbook* apply to the proffered position. According to the *Handbook*, accountants prepare financial reports for nonmanagement groups, including stockholders, creditors, regulatory agencies, and tax authorities, and usually, they are part of executive teams. The beneficiary will not be part of an executive team. Nor will the beneficiary prepare financial reports for nonmanagement groups such as stockholders, creditors, regulatory agencies, and tax authorities; or be involved in budgeting, performance evaluation, cost management, and asset management. Given this significant dissimilarity, the scope and complexity of the beneficiary's duties and responsibilities do not rise to the level of an accountant. Consequently, a bachelor's degree in accounting or a related field — which the DOL states is required for a management accountant — would not be required for the proffered position.

A review of the *Handbook* reveals that the proffered position's duties are performed by bookkeeping, accounting, auditing, and financial clerks:

Bookkeeping, accounting, and auditing clerks are an organization's financial recordkeepers. They update and maintain one or more accounting records, including those that tabulate expenditures, receipts, accounts payable and receivable, and profit and loss. . . . post debits and credits, produce financial statements, and prepare reports and summaries for supervisors and managers. . . . handle the payroll, make purchases, prepare invoices, and keep track of overdue accounts.

More advanced accounting clerks may total, balance, and reconcile billing vouchers; ensure

completeness and accuracy of data on account. . . . They may also review invoices and statements to ensure that all information is accurate and complete. . . . Auditing clerks verify records of transactions posted by other workers.

Financial clerks . . . record all amounts coming into or leaving an organization . . . keep track of a store's inventory. . . .

Auditing clerks verify records of transactions posted by other workers. They check figures, postings, and documents to ensure that they are correct, mathematically accurate, and properly coded.

The petitioner stated that the beneficiary will prepare "profit and loss statements," "financial statements," "financial reports," and "payroll for employees." These duties are performed by bookkeeping, accounting, and auditing clerks who update and maintain accounting records that tabulate profit and loss reports. They also produce financial statements, prepare reports and summaries for supervisors and managers, and handle the payroll. The *Handbook* notes the growing use of financial software to enter and manipulate data.

The *Handbook* states that employers require most financial clerks to have at least a high school diploma, and for bookkeepers and accounting clerks, they often require an associate's degree in business or accounting. Thus, the petitioner fails to establish that a baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the proffered position.

The petitioner submitted no evidence that would establish the second criterion - that a specific degree requirement is common to the industry in parallel positions among similar organizations or that the particular position is so complex or unique that it can be performed only by an individual with a degree. 8 C.F.R. § 214.2(h)(4)(iii)(A)(2).

Because the proffered position is newly created, the petitioner cannot establish that it normally requires a degree or its equivalent for the position. 8 C.F.R. § 214.2(h)(4)(iii)(A)(3).

The fourth criterion at 8 C.F.R. § 214.2(h)(4)(iii)(A) requires that the petitioner establish that the nature of the specific duties is so specialized and complex that the knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree. The *Handbook* describes the duties of the proffered position as analogous to those of bookkeeping, accounting, auditing and financial clerks - positions that do not require a bachelor's degree. There is no evidence in the record that would show that the duties of the proffered position rise beyond this level. Consequently, the petitioner fails to establish the fourth criterion at 8 C.F.R. § 214.2(h)(4)(iii)(A).

As related in the discussion above, the petitioner has failed to establish that the proffered position is a specialty occupation. Accordingly, the AAO shall not disturb the director's denial of the petition.

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has not sustained that burden.

ORDER: The appeal is dismissed. The petition is denied.
