IN RE: Petitioner: [Redacted]  
Beneficiary: [Redacted]

PETITION: Petition for a Nonimmigrant Worker Pursuant to Section 101(a)(15)(H)(i)(b) of the  
Immigration and Nationality Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b)

ON BEHALF OF PETITIONER:

INSTRUCTIONS:

This is the decision of the Administrative Appeals Office in your case. All documents have been returned to the office that originally decided your case. Any further inquiry must be made to that office.

A handwritten signature in black ink, appearing to read "Robert P. Wiemann".

Robert P. Wiemann, Chief  
Administrative Appeals Office

**DISCUSSION:** The service center director denied the nonimmigrant visa petition and the matter is now before the Administrative Appeals Office (AAO) on appeal. The appeal will be sustained. The petition will be approved.

The petitioner is an exercise facility/wellness center. It seeks to employ the beneficiary as an exercise physiologist/wellness center manager and to classify her as a nonimmigrant worker in a specialty occupation pursuant to section 101(a)(15)(H)(i)(b) of the Immigration and Nationality Act (the Act), 8 U.S.C. § 1101(a)(15)(H)(i)(b).

The director denied the petition stating that the proffered position does not qualify as a specialty occupation. On appeal, counsel submits a brief and additional information stating that the offered position qualifies as a specialty occupation.

The first issue to be discussed in this proceeding is whether the proffered position qualifies as a specialty occupation.

Section 101(a)(15)(H)(i)(b) of the Act, 8 U.S.C. § 1101(a)(15)(H)(i)(b), provides, in part, for the classification of qualified nonimmigrant aliens who are coming temporarily to the United States to perform services in a specialty occupation.

Section 214(i)(1) of the Act, 8 U.S.C. § 1184(i)(1), defines the term "specialty occupation" as an occupation that requires:

- (A) theoretical and practical application of a body of highly specialized knowledge, and
- (B) attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

The term "specialty occupation" is further defined at 8 C.F.R. § 214.2(h)(4)(ii) as:

[A]n occupation which requires theoretical and practical application of a body of highly specialized knowledge in fields of human endeavor including, but not limited to, architecture, engineering, mathematics, physical sciences, social sciences, medicine and health, education, business specialties, accounting, law, theology, and the arts, and which requires the attainment of a bachelor's degree or higher in a specific specialty, or its equivalent, as a minimum for entry into the occupation in the United States.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(A), to qualify as a specialty occupation, the position must meet one of the following criteria:

- (1) A baccalaureate or higher degree or its equivalent is normally the minimum requirement for entry into the particular position;

- (2) The degree requirement is common to the industry in parallel positions among similar organizations or, in the alternative, an employer may show that its particular position is so complex or unique that it can be performed only by an individual with a degree;
- (3) The employer normally requires a degree or its equivalent for the position; or
- (4) The nature of the specific duties are so specialized and complex that knowledge required to perform the duties is usually associated with the attainment of a baccalaureate or higher degree.

Citizenship and Immigration Services (CIS) interprets the term "degree" in the criteria at 8 C.F.R. § 214.2(h)(4)(iii)(A) to mean not just any baccalaureate or higher degree, but one in a specific specialty that is directly related to the proffered position.

The record of proceeding before the AAO contains: (1) the Form I-129 and supporting documentation; (2) the director's request for additional evidence; (3) the petitioner's response to the director's request; (4) the director's denial letter; and (5) the Form I-290B with counsel's brief. The AAO reviewed the record in its entirety before issuing its decision.

The petitioner is seeking the beneficiary's services as an exercise physiologist/wellness center manager. Evidence of the beneficiary's duties includes the Form I-129 petition with attachment and the petitioner's response to the director's request for evidence. In describing the duties of the proffered position the petitioner states that the position requires a combination of duties concerning exercise physiology and facility and personnel management. In addition to directing client services in the areas of physical and health evaluation, exercise instruction, conditioning, goal setting, monitoring and training, the beneficiary would also be involved in facility and program management. Those duties would include budget preparation, advertising, marketing and promotion, and personnel management. Specifically, the beneficiary would:

- Perform fitness testing (maximum oxygen consumption, muscular endurance, muscular strength, flexibility and body composition) and prescribe exercise programs based on individual results;
- Assist clients in the use of aerobic and weight training equipment;
- Advise clients on nutrition and weight management;
- Lead exercise classes;
- Be responsible for the organization and coordination of staff members and their weekly work schedules; and
- Direct the overall billing procedures associated with the facility and perform any other duties/responsibilities as assigned.

The petitioner requires a minimum of a bachelor's degree in physical education or exercise science for entry into the proffered position.

Upon review of the record, the petitioner has established that the proffered position qualifies as a specialty occupation. The AAO routinely consults the U.S. Department of Labor's *Occupational Outlook Handbook (Handbook)* for information about the duties and educational requirements of particular occupations. The duties of the proffered position are essentially those of fitness directors as described in the *Handbook*. The *Handbook* notes that fitness directors oversee the fitness-related aspects of a health club or fitness center. Their work involves creating and maintaining programs that meet the needs of the club's members, including new member orientations, fitness assessments, and workout incentive programs. They also select fitness equipment; coordinate personal training and group exercise programs; hire, train, and supervise fitness staff; and carry out administrative duties. The *Handbook* states that a bachelor's degree, and in some cases a master's degree, in exercise science, physical education, kinesiology, or a related area, along with experience, usually is required to advance to management positions in a health club or fitness center. The petitioner has established that the proffered position qualifies as specialty occupation as a baccalaureate or higher degree is normally the minimum requirement for entry into the position. 8 C.F.R. § 214.2(h)(4)(iii)(A)(4).

The director did not comment on the beneficiary's qualifications to perform the duties of a specialty occupation as the petition was denied on another ground. The record is, however, sufficient for the AAO to make that determination.

Section 214(i)(2) of the Act, 8 U.S.C. § 1184(i)(2), states that an alien applying for classification as an H-1B nonimmigrant worker must possess:

- (A) full state licensure to practice in the occupation, if such licensure is required to practice in the occupation,
- (B) completion of the degree described in paragraph (1)(B) for the occupation, or
- (C) (i) experience in the specialty equivalent to the completion of such degree, and
  - (ii) recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(C), to qualify to perform services in a specialty occupation, the alien must meet one of the following criteria:

- (1) Hold a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
- (2) Hold a foreign degree determined to be equivalent to a United States baccalaureate or higher degree required by the specialty occupation from an accredited college or university;
- (3) Hold an unrestricted State license, registration or certification which authorizes him or

her to fully practice the specialty occupation and be immediately engaged in that specialty in the state of intended employment; or

- (4) Have education, specialized training, and/or progressively responsible experience that is equivalent to completion of a United States baccalaureate or higher degree in the specialty occupation, and have recognition of expertise in the specialty through progressively responsible positions directly related to the specialty.

Pursuant to 8 C.F.R. § 214.2(h)(4)(iii)(D), for purposes of paragraph (h)(4)(iii)(C)(4) of this section, equivalence to completion of a United States baccalaureate or higher degree shall mean achievement of a level of knowledge, competence, and practice in the specialty occupation that has been determined to be equal to that of an individual who has a baccalaureate or higher degree in the specialty and shall be determined by one or more of the following:

- (1) An evaluation from an official who has authority to grant college-level credit for training and/or experience in the specialty at an accredited college or university which has a program for granting such credit based on an individual's training and/or work experience;
- (2) The results of recognized college-level equivalency examinations or special credit programs, such as the College Level Examination Program (CLEP), or Program on Noncollegiate Sponsored Instruction (PONSI);
- (3) An evaluation of education by a reliable credentials evaluation service which specializes in evaluating foreign educational credentials;
- (4) Evidence of certification or registration from a nationally-recognized professional association or society for the specialty that is known to grant certification or registration to persons in the occupational specialty who have achieved a certain level of competence in the specialty;
- (5) A determination by the Service that the equivalent of the degree required by the specialty occupation has been acquired through a combination of education, specialized training, and/or work experience in areas related to the specialty and that the alien has achieved recognition of expertise in the specialty occupation as a result of such training and experience.

The petitioner possesses a Bachelor of Science degree in general studies with a major in exercise science from Delta State University in Cleveland, Ms. That degree is closely related to the duties of the proffered position and was obtained from an accredited university in the United States. The beneficiary does, therefore, qualify to perform the duties of the offered specialty occupation. 8 C.F.R. § 214.2(h)(4)(iii)(C)(1).

The burden of proof in these proceedings rests solely with the petitioner. Section 291 of the Act, 8 U.S.C. § 1361. The petitioner has sustained that burden and the appeal shall accordingly be sustained.

**ORDER:** The appeal is sustained. The petition is approved.
